HOW TO ACCEPT YOUR OFFER OF ADMISSION

Step 1

Accept Your Offer of Admission:
You must respond by the deadline date indicated and follow the instructions as outlined on your “Offer of Admission” form included in your offer package.

Step 2

Meet Your Admission Conditions:
If you are currently registered at another institution, you will have admission conditions that must be met to retain your offer. Please review the “Admissions Assessment” form to view your conditions.

Step 3

Transfer Credit:
If your admission offer currently includes an offer of transfer credit, it will appear on the “Admissions Assessment” form. A reassessment of your transfer credit will be completed when your final transcript is received and your admission conditions are met.

Step 4

Preparing to Register:
Read this Transfer Student Guide in preparation of registration in your Western courses. In particular, review the Academic Orientation and Prepare to Register information as these sections of the guide were designed for you!
Transfer Students

A preliminary transfer credit assessment occurs with every application where an accredited post-secondary institution was attended prior to the application to Western. The number of transfer credits that your application has received to date is on the “Admissions Assessment” form in your offer of admission package.

Note: Not all courses and programs offered at the post-secondary level are eligible for transfer credit. Programs and courses similar to those offered at Western are more likely to receive transfer credit.

Understanding the Transfer Credit found on your Admissions Assessment

Transfer Credits with the designation TRN on the Admissions Assessment form are general, non-specific credits. Transfer credit that has been evaluated to be exactly equivalent to Western’s courses will not have this designation. Students should see their Academic Counsellor to determine whether TRN credits can be used as prerequisites.

Transfer Credits are weighted as half courses (0.5) or full courses (1.0). Please see the Academic Choices section of this guide for further information about course weights and timetable information.

Note: Grades from previous post-secondary courses used in the transfer credit assessment do not transfer. Transfer credit awarded by Western does not appear on your Western transcript.

Special Students

Special Students are those undergraduate students who have already earned an undergraduate degree either from Western or from another university. Special Students can choose to take courses for a number of different reasons including for interest, to upgrade for graduate or professional programs, to earn a second degree or to upgrade to a higher-level degree.

Special Students are eligible for prerequisite standing. Please discuss prerequisite standing with your Academic Counsellor during your academic orientation.

Mature Students

Western is enriched by the presence of mature students. If you are a Mature Student or consider yourself a Mature Student, please consider joining the SAGE Society for Life Long Learners. Their mission is to provide Western’s non-traditionally aged student population with a centralized academic and social community within The Student Success Centre. Email sage@uwo.ca.

Transfer students with more than 8.0 credits should contact their academic counselling office in their home faculty and for an individual appointment using the information on the right side of this page.

Special Students - Students with previous undergraduate degrees are required to consult with their Faculty’s Academic Counselling Office regarding course selection and program advice. Contact information is on the right of this page. Special students who would like to be considered for prerequisite standing should bring their previous course outlines to their academic counselling appointment.

Mature Students - As part of The Student Success Centre, a Mature Student Advisor is available to assist you to connect to resources and services specific to you. Mature Students may seek academic counselling from their home faculty or they may utilize evening hours of academic counselling available through The Student Success Centre. Western’s modular degree structure offers opportunities to broaden your areas of study by combining programs from many different faculties, schools or departments, or you can focus on a specific subject in greater depth. In fact, there are thousands of possible combinations at Western!

The Modular Degree Structure

A module is a collection of courses in a defined area of study. The number of courses included in the module is defined by the amount of specialization in the topic. All courses included in the module are designated by a department, faculty or Affiliated University College.

The adjacent chart shows how modules can be combined in the three different types of degrees offered. For instance, if you are planning to complete a four-year Honors Bachelor Degree, you can do an Honors Specialization in Chemistry and a Major in Film Studies or a Double Major in Psychology and Mathematics.

1. An Honors Specialization Module comprised of 9.0 or more credits and is available only in an Honors Bachelor Degree (4-year).
2. A Specialization Module comprised of 9.0 or more credits and is available only in the Bachelor Degree (4-year).
3. A Major Module comprised of 6.0-7.0 credits and is available in all three degree types.
4. A Minor Module comprised of 4.0-5.0 credits and is available in all three degree types.

Note: Not all departments offer all of these modules. Engineering; Nursing; Media, Theory and Production; and Human Ecology programs are not included in the modular structure.

Completing Your Degree

The time it takes to complete your degree will depend on the number of transfer credits that you receive and the pace you choose.

FALL/WINTER (SEPTEMBER TO APRIL)
- Full-time: between 3.5 and 5.0 credits*
- Part-time: a maximum of 3.0 credits*

SPRING/SUMMER (MAY TO AUGUST)
- Maximum of 2.5 credits
- No more than 2.0 credits taken simultaneously (excluding Distance Studies courses)
  - If 2.0 credits are taken simultaneously, only 1.0 credit may include a laboratory/tutorial.

DISTANCE STUDIES
- Fall/Winter: a maximum of 3.0 credits
- Spring/Summer: a maximum of 2.5 credits

COURSE CREDIT WEIGHTS
- Half course (Sept. to Dec. and Jan. to Apr.): 0.5 credit
- Full course (Sept. to Apr.): 1.0 credit

Note: Full and half courses are available in Spring/Summer as well. Programs such as Engineering and Kinesiology will have courses with different weights. Please see the Academic Calendar for details.

*Full-time and Part-time course load is currently under review. Check the 2016 Academic Calendar for official course load information.
Course Descriptions and Timetable Information

1. **Academic Calendar**: Start by reviewing the program requirements and course descriptions for your program. Ensure that you are eligible for the courses that you select (see antirequisites, prerequisites and corequisites below). Choose some alternative courses in case you cannot register for your first choice. [westerncalendar.uwo.ca](http://westerncalendar.uwo.ca)

2. **Timetable**: Determine where and when courses are offered. Use the Timetable information section below to assist you. [registrar.uwo.ca/course_enrollment/timetables.html](http://registrar.uwo.ca/course_enrollment/timetables.html)

3. **SAO/Academic Counselling**: Discuss your course choices with an Academic Counsellor. Contact information is on page 5.

Course Numbering

Western has a four-digit course numbering system, which is reflected in this Calendar. For more information, please visit [westerncalendar.uwo.ca](http://westerncalendar.uwo.ca)

- 0001-0999: Pre-University level Introductory courses *
- 1000-1999: Year 1 Courses
- 2000-4999: Senior-level Undergraduate courses

* These courses are equivalent to pre-university introductory courses, and may be counted for credit in the student’s record, unless these courses were taken in a preliminary year.

Course Suffixes

No suffix on a full course means it is not designated as an essay course.

- A: first term half (0.5) course
- B: second term half (0.5) course
- A/B: first and/or second term half (0.5) course
- E: essay full (1.0) course
- F: first term essay half (0.5) course
- G: second term essay half (0.5) course
- F/G: first and/or second term essay half (0.5) course

H: 1.0 accelerated course (8 weeks)
J: 1.0 accelerated course (6 weeks)
K: 0.75 course
Q/R/S/T: 0.25 course offered within a regular session
U: 0.25 course offered in other than a regular session
W/X: first and/or second term full (1.0) course (full course offered in one term)
Y: half (0.5) course offered in other than a regular session
Z: essay half (0.5) course offered in other than a regular session

Prerequisite

A prerequisite is a course you must successfully complete before registering for credit in a desired course. You must satisfy the course prerequisites that appear in course descriptions. There are many courses without prerequisites.

Essay Courses (E, F, G, Z)

Essay courses require more written assignments than other courses. Full-year introductory essay courses, for example, require the completion of written assignments that total at least 3,000 words, or about twelve typed, double-spaced pages, or 5,000 words for a senior course. See also Graduation Requirements in the Academic Calendar.

Antirequisite

Antirequisite courses overlap so much in course content that both cannot be taken for credit. When you take a course that has an antirequisite, you will lose credit for the first course taken.

Corequisite

A course that must be taken concurrently with (or prior to registration in) the desired course.

Timetable Information

**COURSE COMPONENTS**

Every course is comprised of a class lecture section.
- **CL** is the designation for lecture selections
- Some courses may also include a laboratory and/or tutorial section.
- **LA** is the designation for laboratory sections
- **TU** is the designation for tutorial sections
