TOP 10 REASONS TO CHOOSE WESTERN

1. Exceptional Financial Support
   - National Scholarships valued from $30,000 to $65,000
   - Guaranteed admission scholarships valued from $1,000 to $10,000
   - Robust financial aid, student award and work study programs

2. Bright, Diverse & Satisfied Students
   - More than 38,000 students from 127 countries around the world
   - A mean entrance average of 89.6% (of all registered incoming secondary school students in 2015)
   - An astounding first to second year retention rate exceeding 93%
   - Graduation rates that exceed the Ontario system
   - 22 Rhodes scholarship recipients have come from Western
   - 93.8% of our graduating students would recommend Western to a friend

3. First-Rate Residence System
   - Ranked one of the best residence experiences among large universities in Canada
   - Nine residences and three residence styles: traditional-, suite- and hybrid-style
   - Meal plans to suit your tastes and dietary requirements
   - Safe and inclusive environment within walking distance to lecture halls, libraries, recreation facilities and other services

4. Global Connections
   - 4,300 international students from 127 countries
   - 292,181 alumni in 154 countries worldwide
   - International exchange and study abroad opportunities at 135+ institutions in 39 countries
   - A Global and Intercultural Engagement Honor to complement your degree
   - International internship, volunteer and research opportunities

5. Award-Winning Faculty & Staff
   - More 3M National teaching award-winning faculty than any university in Ontario (second in Canada)
   - Named among Canada’s Top 100 Employers
   - 3,860 dedicated full-time faculty and support staff on Main Campus
   - One of Canada’s Top 10 research-intensive universities

6. Unique Programs & Academic Choices
   - More than 400 undergraduate programs and 88 different graduate degree programs
   - 11 Faculties and a School of Graduate & Postdoctoral Studies
   - Modular undergraduate degree structure
   - Unique programs for high-achieving students, including:
     - School for Advanced Studies in the Arts & Humanities (SASAH)
     - Scholar’s Electives
     - Western Scholars
     - Ivey Advanced Entry Opportunity
     - Western Integrated Science (WISc)

7. Classroom Connections to Real-World Experiences
   - Experiential Learning: Alternative Spring Break, Community Engaged Learning, Propel Entrepreneurship Centre, Leadership and Mentorship, Western’s Volunteer Program, Western Heads East — to name a few. See pages 12 and 13 for more information.
   - Leadership: Student government, Leadership Education Program, faculty and residence councils, student clubs and student associations, varsity sports, and one of the largest intramural sports programs in Canada. See pages 16-19 for more information.
   - Western’s Co-Curricular Record: Showcase your experience to employers. See page 12.

8. Support Networks for Work Experience
   - More than 2,000 undergraduate work study and paid positions on campus
   - Internship, co-op, job shadowing, fieldwork and volunteer opportunities off campus
   - 94.6% employment rates for Western grads – two years after graduation
   - Numerous student support networks are available throughout campus to help you achieve success. See page 24 for more information.

9. A Beautiful Campus
   - Founded in 1878, Western is one of the most picturesque campuses in North America, situated along the banks of the Thames River in London, Ontario.
   - Western’s gothic architecture and our ivy-covered campus blend in seamlessly with 1,200 acres of rolling hills and endless scenic locations to study, chat with friends or relax.

10. The Western Guarantee
    - Admission scholarships
    - The first-year courses you want
    - A place to live in residence
    - An extraordinary student experience
Discover Canada’s Best Student Experience

Ranked among the top 1% of universities worldwide, Western offers the best student experience inside and outside the classroom. And the best student experience comes with a guarantee for first-year students.

Admission Scholarships
To recognize your academic achievement, we will offer you an admission scholarship ranging in value from $1,000 for one year, to $10,000 ($2,500 each year for four years) if you are admitted based on your secondary school diploma, and your final admission average, including prerequisite courses as calculated by Western, is 88 per cent or greater. Western will determine averages for applicants who are not studying in a Canadian secondary school curriculum based on: curriculum, grading practices, grading scale interpretation and performance of previous students from that curriculum while at Western.

The First-Year Courses You Want
Western offers more than 400 different specializations, majors and minors at the undergraduate level. Choose the first-year courses you want for the program in which you are enrolled on Main Campus and, as long as you have the prerequisites, we will guarantee you a spot in 1000-level introductory courses on Main Campus.

A Place to Live in Residence
Experience the convenience, safety and support of living on campus. We guarantee you’ll start your new life at Western in one of our great residences, if you are a single student, without children, graduating from secondary school who has received an offer of full-time, first-year admission for September 2018. See residenceatwestern.ca for requirements.

An Extraordinary Student Experience
Learn from our brightest professors and researchers. Live in the best residence system and study on the most beautiful campus in the country. Complement your academic program with an exceptional range of curricular, co-curricular, and extracurricular activities. Gain valuable career experience through internships, co-ops, job shadowing and volunteer programs, locally, nationally and internationally. It’s all part of Canada’s Best Student Experience.
With a diverse population of more than 383,000, London is an educational, cultural and economic hub of southwestern Ontario.

Living in London
London offers the best of both worlds – big city excitement with a small town feel. It’s a city that knows how to have fun and make everyone feel welcome.

Shopping
From the unique, independent retailers along Richmond Row and in Wortley Village to the trendy stores in suburban shopping malls, London is a great place to shop.

Dining
London offers it all: intimate cafés, pubs, fine dining and walk-up souvlaki stands. London has an eclectic mix of chefs bringing the hottest culinary trends to the city. Foodies will also enjoy exploring the locally produced offerings at Western’s Farmers’ Market, the Covent Garden Market or the Masonville Farmers’ and Artisans’ Market.

Nightlife
A lively collection of nightclubs, pubs and live theatre, as well as various dining opportunities, makes Richmond Row the place to be seen. You’ll find today’s hottest artists in the heart of downtown at the 10,000-seat Budweiser Gardens. Movie fans can choose from Western Film and a variety of screens around town.

Recreation
Affectionately called the Forest City, London boasts an extensive trail system for walking, running, biking or inline skating. Tree-lined trails run along the Thames River – right into Western’s campus. Winter sports can be enjoyed at London’s Boler Mountain, while indoor and outdoor ice rinks are a popular choice for skaters and hockey players. In the summer, Londoners take a short drive to the beaches of Grand Bend (Lake Huron) or Port Stanley (Lake Erie) or enjoy the many parks London has to offer.

Sporting Events
London’s got game! The London Knights (hockey), the London Majors (baseball), and the London Lightning (basketball) keep the excitement going year-round at prices students can afford.

Culture
London is home to a thriving creative community, from the professional offerings of the Grand Theatre and Museum London, to countless other museums, community ensembles, theatre troupes and specialty galleries. On Western’s own campus, we offer various activities for you to connect with your artistic side – everything from our Mcintosh Art Gallery to noon-hour ensembles in the Don Wright Faculty of Music to various theatrical productions and fashion shows put on in the Paul Davenport Theatre.

Festivals
Londoners love to celebrate diversity. Our city is home to numerous festivals year-round including Sunfest, Rock the Park Music Festival and Pride London Festival.

Getting Here
London is easily accessible by car, bus, train or plane. The 401, a 400-series highway that stretches from Windsor to Québec, brings you directly to our city’s edge with easy access to campus from three different highway exits. Via Rail and Greyhound have terminals downtown, and WestJet and Air Canada fly out of the London International Airport on a regular basis. The London airport code is YXU.

Travelling Within London
Every full-time Western undergraduate student is provided with a London Transit bus pass. Numerous stops are available throughout London. Western’s Main Campus and our surrounding Affiliated University Colleges. During exams, the University Students’ Council offers a free late-night shuttle service so students have a safe way to get to and from campus. Taxi and limousine services are available 24 hours a day for your in-town and out-of-town travel needs.

FALL IN LOVE WITH LONDON, ONTARIO
uwoc.ca/about/visit/london.html

Gamal Assaad
Hometown: Oakville, ON
Program: Mechanical Engineering
“I love living in London because it’s affordable and has access to lots of dining, shopping and other activities close to student living areas. I like spending time with my friends hanging out at cafes on Richmond Row and taking walks at Gibbons Park with my girlfriend.”
We offer nine residences with three different room styles: traditional-style with single or double rooms and shared common washrooms on each floor; hybrid-style with mostly double-room units and semi-private washrooms; and suite-style with single bedrooms, semi-private washrooms, shared cooking facilities and a common living area.

**WHY REZLIFE?**

**Healthy Dining**

Our flexible meal plan gives you easy access to residence dining halls and campus eateries, plus many off-campus meal plan partners. Our chefs prepare a wide selection of food in house, so there’s always something new to try. Allergies? Dietary restrictions? No problem. Our packaging is labelled and nutritional content is available online for our menu items. Furthermore, you can work with our Nutrition-Manager for assistance in making healthy food choices. Vegetarian, vegan, gluten-free and nut-free options are offered daily.

**The Academic Edge**

Studies have shown students who live in residence do better academically than their off-campus peers. *Our Living Learning Communities are made up of like-minded students to create fluidity between the academic and home environments. An Academic and Leadership Programmer (ALP) works in each residence to provide coaching, academic resources, academic programming, exam review sessions, study skill workshops, or to simply form study groups – all right where you live!*

**Getting Involved and Growing Your Skills**

Expand your personal and professional skills through involvement in numerous academic, social, cultural and recreational activities just steps away from your front door. By getting involved in your Residents’ Council or becoming a Residence Staff member or Residence Soph, you can gain valuable leadership skills to help you land your dream job when you graduate.

**Focus on Safety**

In residence, access to buildings and/or the residential areas of buildings is restricted 24/7 by a locked door controlled by card access. Our Front Desk staff are just a phone call away, and residence student staff live on each floor and are on-call during evenings and weekends.

**Clean and Cared for Facilities**

We’re continually upgrading and renovating our residences to ensure you enjoy high quality, well-equipped accommodations. Common areas and shared washrooms on your floor and throughout your building are cleaned every day. We also provide regular room cleaning.

**Seamless Move-in**

Our 850 student volunteers (Sophs) ensure your move-in day is stress free. With your Soph, you can gain valuable leadership skills to help you land your dream job when you graduate. Involved in your Residents’ Council or becoming a Residence Staff member or Residence Soph, you can gain valuable leadership skills to help you land your dream job when you graduate.

**Leadership Programmer (ALP) works in each residence to provide coaching, academic resources, academic programming, exam review sessions, study skill workshops, or to simply form study groups – all right where you live!***

**Expand your personal and professional skills through involvement in numerous academic, social, cultural and recreational activities just steps away from your front door. By getting involved in your Residents’ Council or becoming a Residence Staff member or Residence Soph, you can gain valuable leadership skills to help you land your dream job when you graduate.**

**Memories to Last a Lifetime**

Residence enables you to meet new people, make connections with hundreds of other students and engage with the greater Western community. Residence is where lifelong friendships begin.

*Room rates cover the eight-month academic year (September 2017 to April 2018), and are subject to change upon approval by Western’s Senate and Board of Governors. In our traditional and hybrid residences, most first-year students are assigned double rooms. ***Upper-year residence for second-, third- and fourth-year students. **Meal Plan rates are made up of overhead (non-refundable) and total food credit (refundable). All residents are required to purchase a mandatory meal plan (except those placed in Alumni House and London Hall).
Western offers many opportunities inside and outside the classroom for you to apply your academic knowledge in real-world settings. With experiential learning, you can complement your studies with relevant, rewarding experiences that help you develop transferable skills and refine your career options.

**Western’s Co-Curricular Record**
You can also showcase all of your activities in an official document known as Western’s Co-Curricular Record (WCCR). Whether it’s a workshop, a club, an international learning experience or a leadership position, you can track your experiences – and learning – using this online tool. Activities connect to 10 core areas of development, including Career Preparation, Commitment to Learning, Communication, Diversity, Engaging in the Arts, Global Awareness, Health and Wellness, Leadership, Self-Awareness and Social Responsibility.

myexperience.uwo.ca

---

**Internship & Co-op**
Gain the relevant knowledge and skills required to enter a particular employment sector. Participate in paid or unpaid, short-term or long-term, local or international placements for academic credit or for a non-credit course. Check with your Faculty or The Student Success Centre to see if there is an option for your degree program. You can also search for international internship and research opportunities on Western’s international learning websites.

internship.uwo.ca
international.uwo.ca/learning

---

**Job Shadow**
Test-drive a specific job or employment sector to see if it is a good fit for your skills, interests and career plans. Job shadow connects you with future employers in informal – but meaningful – ways and provides you with a ‘sneak peek’ into a work world that lies just beyond graduation.

jobshadow.uwo.ca

---

**Fieldwork**
Integrate theory and skills learned in the classroom or laboratory into real-world environments. Mainly concentrated in the natural and social sciences such as biology, earth sciences, geology, anthropology and archaeology, fieldwork allows you to work in teams to improve your communication, team work and problem-solving skills.

fieldwork.uwo.ca

---

**Community Engaged Learning (CEL)**
Link your classroom education with community-based projects and see your learning come to life through CEL classes in most disciplines. Build your résumé through hands-on learning that makes a tangible impact in the community. Get involved with non-profits during your first week at Western with Orientation Serves, and continue throughout your time at Western with the Western Serves Network.

cel.uwo.ca

---

**Alternative Spring Break (ASB)**
Spend an unforgettable spring break travelling with faculty and staff team leaders to participate in week-long service projects in local, national and global communities. Past service projects have included Habitat for Humanity builds in New Orleans; teaching English in the Dominican Republic; and constructing an accessible washroom in Peru.

asb.uwo.ca

---

**Western Heads East**
Collaborate with East African partners and Western students, faculty and staff to use probiotic food to contribute to health and sustainable development in areas such as Tanzania, Kenya and Rwanda. There are also opportunities to contribute to the program here at home.

westernheads southeast.ca

---

**VYSHNAVE JEYABALAN**
**ASB 2015 IN JAMAICA, ASB 2017 IN PANAMA**

“I had the privilege of participating in Alternative Spring Break (ASB) twice during my undergraduate life, both as a participant and team leader. This eye-opening experience presented me the opportunity to understand different perspectives that exist, giving me a new sense of global and self-awareness. ASB has made an impact on me and I know my undergraduate experience would not be the same if I had not participated in ASB!”
Every student with a cumulative 80% average and a full-time course load at the end of second year is eligible to receive a $1,000 award to complete an International Learning experience in third year.

• Develop intercultural skills
  • Learn a new language
  • Apply your learning in a new setting
  • Become a global citizen

More than $200,000 in financial support is available annually through the Global Opportunities Awards, and a new International Learning Award provides support for students going abroad in their third year. Additional scholarship programs provide unique experiences in particular countries, regions or institutions.

Global and Intercultural Engagement Honor
Give your degree global appeal with Western’s Global and Intercultural Engagement Honor recognizing students who have engaged in both academic and extracurricular activities with a global or intercultural focus. You can accumulate points during your time at Western through activities at home or abroad, and then attend an intercultural workshop.

Once achieved, the Honor will appear on your official transcript upon graduation. What better way to gain the global experience and intercultural skills employers are looking for, all while pursuing your own passion for international learning?

Start planning your international experience now by exploring all the options at: international.uwo.ca/learning

Emily Purvis
Faculty of Science
Biology field course in Ecuador

“As a long time ecology lover, I was in awe all the time. I learned so much about tropical biodiversity but I also learned much more outside the expected learning outcomes. My time in Ecuador allowed me to grow as a person and as a scientist.”

Mario Naric, BESc’15
Faculty of Engineering
Eight-week research project in China during second year

“My summer in Tianjin, China was an amazing mixture of working on environmentally friendly solvents used for oil extraction from oil sands, travelling the country and really getting immersed in the Chinese culture. Both of these aspects had a profound impact on my remaining undergraduate years after returning to Western.”

Melody MacRae, BA’16
Faculty of Information & Media Studies
Exchange to University of Sydney

“There’s something about travelling to other places you can’t learn from a book or a lecture. It’s a genuinely great experience to learn so much from different perspectives and life experiences. It gives you the confidence to easily surpass intercultural barriers and it provides lifelong connections with people from around the world.”

More than 292,000 students have traveled to 154 countries around the world. Western students study, work, research or volunteer abroad each year.

2,000+
Western students study, research or volunteer abroad each year

4,300
International students from 107 countries study at Western

135+
Institutions offering exchange opportunities in 39 countries

Students in 104 countries around the world

INTERNATIONALIZE YOUR DEGREE

Learning without Borders
Spread your wings and discover the world while earning your degree at Western. Whether you want to study, volunteer, complete an internship, work abroad or participate in international learning at home, we offer a wide range of opportunities to integrate international experience into your university career. For example, you can study for a semester in Singapore; uncover traces of the Roman Empire during an archaeological dig in northern England; intern at a multinational company in India; participate in a summer opera program in Italy; or volunteer with a Community Engaged Learning program in Costa Rica.

• Academic exchange
• Summer study abroad
• Field courses
• Community engaged learning
• Internships
• Alternative Spring Break
• Research
• Other University-led experiences

Your destination options include:

• Develop intercultural skills
  • Learn a new language
  • Apply your learning in a new setting
  • Become a global citizen

MUSTANGS

GET YOUR GAME ON | VARSITY ATHLETICS

Intercollegiate Athletics
westernmustangs.ca
mustangs@uwo.ca
519.661.3551

Twitter: @WesternMustangs
Facebook: WesternMustangs

Nickname: Mustangs
Colours: Purple, White & Silver
Leagues: Primarily Ontario University Athletics (OUA)/U SPORTS

Sports and Recreation Services at Western University encompasses both Intercollegiate Athletics and Campus Recreation. We offer a variety of competitive sport and recreational activities to enhance your student experience.

Varsity Teams & Clubs
Western has a proud tradition of athletic excellence that extends from the field of play to the classroom. Western student-athletes compete at the highest athletic and academic levels and they have the opportunity to enhance their leadership skills by being part of a varsity team.

22 Varsity High-Performance Sports
24 Varsity Clubs

Student Employment Opportunities
Mustangs Athletics employs more than 200 students each year to support our varsity teams. Students can work part-time in communications, marketing, events and on our Mustangs TV broadcasts.

2016-2017 STATS

 Ranked #1 among all CIS schools for the most Academic All-Canadians with more than 30% of our student-athletes achieving academic honours.

NINE Provincial Championships: Women’s Rowing, Men’s Rowing, Women’s Tennis, Men’s Tennis, Softball, Baseball, Women’s Fencing, Men’s Squash, Men’s Cross Country.

THREE National Championship titles: Women’s Rowing, Men’s Lacrosse and Cheerleading.

153 student-athletes named OUA All-Stars.

PROUD TRADITION OF ATHLETIC EXCELLENCE
Western has won 34 consecutive OUA Men’s Squash Championships

1,000+ student-athletes compete in varsity sports at Western.

GET ACTIVE | CAMPUS RECREATION

Campus Recreation offers students a wide range of programs and activities geared to all levels and abilities.

Western Student Recreation Centre (WSRC)
This $35-million, state-of-the-art facility was made possible by the largest student donation in history at a Canadian university.

Features include:
• 20,000 square-foot fitness centre with more than 200 cardio machines
• Eight-lane, 50-metre pool
• Squash/racquetball courts
• Five gymnasiums

Registered students receive a WSRC membership, funded through a small recreation fee within their activity fees.

Membership includes access to:
• Drop-in group fitness classes
• Fitness Centre
• Drop-in gym activities such as basketball and badminton

Intramural Sports
With more than 1200 different teams and 15,000 participating students, Western has one of the largest intramural sports programs in Canada.

Sport Clubs
Western’s Recreational Sport Clubs are sanctioned organizations, established by students who share a common interest in a particular sport or physical activity.

We also offer 19 clubs covering a wide range of activities from badminton to karate to triathlon. At Western, there is something for everyone.

Student Employment Opportunities
Campus Recreation employs nearly 400 students each year to provide leadership in our many recreation programs.

Students can work part-time in a variety of positions, including intramural sport officials, lifeguards, camp leaders and fitness instructors.

[Image of Mustangs and text about Mustangs Athletics]
GET INVOLVED | STUDENT CLUBS

Clubs are a fundamental aspect of student life on campus. Run by the University Students’ Council (USC), Western has more than 10,000 members participating in 191 clubs across campus.

The Clubs Community is the easiest way to get involved at Western. Joining a club opens up many opportunities for you to enjoy a balance between academic life and extracurricular activities. From community volunteering and philanthropy clubs, to political, cultural and musical interests, if you have a passion, we have a club for you.

Join a club or create your own
Meet new people and become more involved in your Western community as a club member, or join a club’s executive team to gain interpersonal and professional skills by organizing and planning different activities for your club. Can’t find the club for you? Start your own! The USC welcomes new clubs to campus every year. Gain leadership skills while bringing students together with a common interest.

Faculty-specific clubs
All Faculties across campus offer Faculty-specific student clubs, groups and teams such as student associations, program-specific societies, student support groups and more. Visit our Faculty websites for more information.

Binhuizhuo (Joe) Li
Program: HBA/Financial Modelling
Student Club: NOVA Scientia

“NOVA Scientia is an academic-focused club at Western. We share and discuss our experiences of daily school life and try to support each other to stand in a stronger position when acquiring new knowledge. NOVA helped me transition to university, including selecting courses and moving to London from Newmarket, Ont. Without NOVA, I could not imagine how I would have made it through first year.”

Tobi Solebo
USC President 2017-18

“I have been involved with the USC since my first year at Western. I have been a Social Science Soph and an executive of the Purple Spur Fashion Show. I have joined clubs such as the Black Students Association and the Pre-Business Students’ Network. There are so many great opportunities on this campus. I encourage you to try it all. You never know what you will end up enjoying until you try it.”

Alex Prong
Program: Media & the Public Interest (MPI)
Student Club: Meal Exchange Western

“Being a member of Western Meal Exchange, and part of the national charity, has been great. I have met some good friends through the club, both at Western and the organizations we volunteer at within the city.”
From the concept of insulin in 1920, to ongoing progress in human clinical trials of an HIV vaccine, Western continues to lead efforts to address the world’s largest problems. As an undergraduate student, you can participate in research and take your ambition to another level; apply for research fellowships and awards with various funding councils; and complete an internship or co-op with industry or one of Western’s research centres or institutes.

Below are just a few examples of current students who are conducting research alongside their undergraduate studies.

**Tyler Mäkinen** recently completed his Bachelor of Music (Music History) degree. As an undergraduate student, Tyler had the opportunity to conduct several of his own research projects, including one on Italian composer Ferruccio Busoni. Tyler examined the composer’s innovations in keyboard notation in line with recent research findings in music psychology. Specifically, he determined whether the innovations presented workable solutions to the problems Busoni thought traditional notation faced when confronted with heavily chromatic and atonal music. Tyler concluded the composer was, in fact, successful. Tyler also had the opportunity to work with the Music Library’s expansive and impressive Gustav Mahler – Alfred Rosé Collection. He examined the unique, original manuscripts and scores of Mahler housed within Western’s collection and undertook an extensive comparison with scans of those held by the New York Philharmonic.

**Levi Hord** is a fourth-year Sexuality Studies, SASAH, and Scholar’s Electives student with a special interest in and passion for furthering transgender academia and theory. Levi recently conducted extensive research on the use of gender-neutral language in transgender communities, and how linguistic identity expression varies based on grammatical gender systems. This project is part of a larger mission to raise awareness, and to enhance research into the subject of transgender identities and how they are embodied and experienced in today’s society. Once Levi has completed an undergraduate degree at Western, they want to apply to graduate school and specialize in Transgender Studies, with the hope of playing an integral part in breaking through the social and intellectual barriers that remain for those who subvert the binary gender system.
Western Entrepreneurship is a vibrant ecosystem that marries unrivaled strengths of the university setting with the needs of the next generation of entrepreneurs. We offer experiential short-term opportunities to enable you to advance your skills outside the traditional classroom (i.e., hackathons, startup summits, workshops, bootcamps, networking events, pitch competitions, etc.). We have also integrated entrepreneurial programming throughout our curriculum and across the campus at large — creating room for you to innovate, create, and test prototypes.

Western Entrepreneurship is built on several foundational programs and the strength of the Ivey Business School. The breadth of programs include Ivey’s Pierre L. Morissette Institute for Entrepreneurship and the QuantumShift™ Program for high-growth entrepreneurs; Propel Entrepreneurship (including Propel’s Summer Incubator program); Western Accelerator, and WORLDiscoveries.

KICKSTART YOUR CAREER WITH WESTERN ENTREPRENEURSHIP

uwo.ca/entrepreneurship

PROPEL YOUR IDEAS, ACCELERATE YOUR SUCCESS

Western Entrepreneurship is here to help committed entrepreneurs build pathways to success. In the heart of campus, Propel offers co-working space, seed funding, world-class mentorship, and training programs, events and workshops for startups at all stages of growth. The Propel Summer Incubator (PSI) — a sales-focused incubator program for high-potential entrepreneurs during the summer months – offers innovative programming that encourages startups to grow and reach new milestones in their venture. The Western Accelerator is also available to provide an intense, rapid and immersive education for prospective entrepreneurs.

Successful accelerator applicants receive a monthly stipend; programming and educational sessions; bi-monthly networking events with successful entrepreneurs, industry experts, investors and service providers; and the opportunity to participate in a pitch day at the end of the program.

It’s all part of Canada’s Best Student Experience.

Since Fall 2014, approximately 450 student-led startups have received assistance through Western Entrepreneurship. More than 100 of these companies are continuing to grow and contribute to the Canadian economy.

Alan Kalbfleish, MESc’16

Pascal Press

is brewing up success with Pascal Press – an all-in-one pressure brewer and travel mug designed for on-the-go coffee lovers. With the help of Propel, Alan developed a business plan and launched Pascal Press on Kickstarter during PSI 2016. Through the Western Accelerator, Alan continued developing his business and began direct sales of Pascal Press online. In its first year of operation, Pascal Press has $100,000 in pre-sales and direct sales.

Sarah Richardson, BA’93

is an internationally acclaimed designer. Gemini Award-winning host, producer with seven hit HGTV shows to her credit, and talented writer. Her love of the arts blossomed at Western.

Booch Organic Kombucha

handcrafts authentically brewed kombucha tea in small batches under the close personal attention of brew master and owner Shannon Kamins, BHS’10. Together with her husband, Shawn Slade, MSc’14, Shannon launched Booch in May 2015. With a focus on health promotion, local organic food security, and environmentally sustainable business practices, Booch is 100% organic and made with love.

Kijiji founder Janet Bannister connects people – from buyers and sellers online, to entrepreneurs looking for financial backers for their ingenious ideas. As a general partner with the seed venture capital fund Real Ventures, Janet spots the potential in people and their ideas, helping to launch and grow Canadian businesses. Her passion for entrepreneurship started at Western.
A university degree is an important investment in your future. From Canada’s most comprehensive Orientation Week to ongoing individual assistance, Western is here to support you every step of the way throughout your academic career. When you graduate from Western you will be prepared to conquer the next phase of your life, whether that is employment, graduate school or something completely different. Learn more about the services we have available to help you reach your goals: welcome.uwo.ca/student_experience/services.html

The following centres and services are available to help you determine your next steps toward reaching your goals:

- **Student Success Centre**: Careers, Leadership & Experience offers programs and services designed to help you discover the best that you can be, including leadership development and career exploration opportunities, skills development, mentoring, community engagement opportunities and social networks - just to name a few. The Student Success Centre will help you become actively engaged in learning inside and outside the classroom.
- **Indigenous Services**: is committed to supporting Indigenous students in reaching their highest potential through encouragement, culturally responsive programming and advice, from applying for admission right through to graduation and beyond.
- **Propel Entrepreneurship Centre**: can help you navigate your entrepreneurial journey from conceptualization to commercialization. As Western’s on-campus resource for entrepreneurs, Propel equips startups with the resources, skills, space and network they need to succeed. Services include co-working space, mentorship, seed funding, Propel Summer Incubator program (PSI), retail opportunities, workshops and training, advocacy and promotion, pitch competitions and other events.
- **Western offers mentorship opportunities in many different forms. Our goal is for every student to have a smooth and successful transition to university life.**

**Career Planning**

Career planning takes careful self-reflection and research. Western has the tools you need to evaluate your options, discover career opportunities and plan for the future.

- **Individual career counselling and career assessments**
- **Classes, conferences and workshops targeted toward finding a career path and conducting a strategic job search**
- **Job, career and education fairs and networking events where we bring employers to campus to network with you**
- **Career resources within faculties**
- **Volunteer and job shadow and fieldwork**
- **Ontario and Western Volunteer Program (WVP)**
- **Western’s Employment Centre (WEC)**
- **Western’s Employment Resource Centre (WERC)**
- **Orientation Serves (throughout September) and the Western Serves Network**
- **Leadership Education Program (LEP):** Participate in a series of workshops on topics such as career management, communications, conflict management and diversity.
- **Leadership and Academic Mentorship Program (LAMP):** Partner with a peer mentor from your Faculty or program to discuss programming, extracurricular activities, student life and more.
- **Student Associations:** Society of Mature Students (SMS), Out of Province Student Association (OPS), Society of Off-Campus Students (SOC)

**Work and Volunteer Experience**

Western offers many opportunities for you to explore various careers and gain transferable skills through hands-on experiences.

- **Work and Volunteer**
- **Volunteers in Progress (VIP) and Western’s Volunteer Program (WVP)**
- **Work Study**
- **Domestic and International Community Engaged Learning (CEL) courses in many faculties**
- **Orientation Serves (throughout September) and the Western Serves Network**
- **Alternative Spring Break (ASB)**
- **Faculty-led study abroad programs**

See page 12 for more information about these work and volunteer opportunities.
Western provides several health-related services right here on campus. Whether you’ve come down with a bad cold, or are feeling blue, help is only a few steps away.

Please visit health.uwo.ca for more information about the services listed below.

**Student Health Services**
Student Health Services provides medical and counseling services year-round. Doctors here work in the same capacity as your family doctor or general practitioner and can order X-rays and blood tests, prescribe medications and make referrals to specialists.

**Psychological Services**
Psychological Services at the Student Development Centre helps students meet personal, social and academic goals through both individual and group counseling. Our team of experts assist students dealing with a range of issues. At Western, you are never alone.

**Other Health Services**

**Chiropractic Care**
On-campus chiropractic services are available to all members of the Western community. The Chiropractic Clinic is located in the lower level of the University Community Centre (UCC).

**Dental Clinics**
Complete dental services are available on campus through the Schulich School of Medicine & Dentistry. Patients are treated by dental students under the direct supervision of qualified instructors.

**Fowler Kennedy Sport Medicine Clinic**
A team of sport medicine experts are dedicated to ensuring that students are able to stay active within the University, either recreationally or competitively. Services are available to the general student community, as well as Mustangs Athletics.

**Optometry**
Campus Vision, located in the lower level of the University Community Centre, provides professional and complete optometric care and a full optical dispensary including optical frames, sunglasses and contact lenses.

**Pharmacy**
Two on-campus pharmacies are available for members of the Western community. Services include prescriptions, online refills, over-the-counter remedies for coughs, colds, aches and pains, cosmetics, and hair-care items.

**Physiotherapy**
Western offers on-site physiotherapy to all members of the Western community. Physiotherapists are available to provide assessment and treatment to individuals to develop, maintain and restore maximum movement and function throughout life.

**Campus Community Police Service (CCPS)**
Western is patrolled every day by professionally trained special constables, backed with the same authority on campus as the city police. CCPS is involved in activities ranging from patrols to crime prevention to fire safety.

**Emergency Preparedness**
There are 21 emergency phones located throughout campus so you are only a few seconds away from a direct link to campus police should you require assistance. Digital signage is available in high-traffic areas around campus to allow direct emergency communications to all members of the Western community during emergency situations. Two weather sirens are located on campus. In case of a weather emergency, the sirens will sound and voice commands with instructions for action will follow.

**Student Emergency Response Team (SERT)**
SERT is a 24-hour, on-campus, volunteer student emergency response team. CCPS dispatches a co-ed SERT team of three to any medical emergency on campus, with an average response time of two minutes.

**Western Foot Patrol**
Western Foot Patrol is a free service that provides safe escorts, deters crime and promotes safety awareness on Main Campus and the Affiliated University Colleges. A male and a female volunteer will wait with you at bus stops, walk you to your car or escort you to your residence after hours.

Every student, faculty and staff member has the right to study, work and learn in a safe environment. A variety of services and resources are available to promote and maintain a safe and respectful learning environment.

LIVE WELL AT WESTERN

Wellness
Wellness is an active, lifelong process of becoming aware of choices and making decisions toward a more balanced and fulfilling life. Many factors can influence your health and well-being, including the seven different dimensions of health and wellness shown here. At Western, we have a Wellness Education Centre (WEC) that offers a safe, comfortable environment for all Western students to ask questions and learn about the many health and wellness resources available on and off campus. WEC is staffed by the Wellness Coordinator, Wellness Peer Educators, and a Sexual Violence Prevention Education Coordinator. There is also an independent Registered Dietitian, and they are all located in the lower level of the University Community Centre (UCC), Room 76. wec.uwo.ca

27
The Don Wright Faculty of Music will select the Continuing Admission Scholarship recipients for the Music program. The application will be available in November.

The National Scholarship Program rewards outstanding academic performance, creative and innovative thought and exceptional achievements of Western students. These entrance awards are combined with the Western Admission Scholarship program. The National Scholarship Program Study Abroad Awards are up to 39 at a maximum value of $5,000.

Schulich Leader Scholarships
Western is one of the 20 participating university partners of the Schulich Leader Scholarships. These prestigious undergraduate scholarships support students pursuing studies in STEM subjects: Science, Technology, Engineering and Mathematics. They are valued at $100,000 for Engineering and $80,000 for Science. To learn more visit: schulichleaders.com

Admission Scholarships
Western’s Admission Scholarships are unlimited in number and automatically awarded upon registration at Western. To be considered for an admission scholarship you must apply directly to secondary school to Western’s Main Campus for full-time, first-year studies. No application is required for consideration. International students are eligible to be considered for Western’s Admission Scholarships. For full details and important eligibility information please visit our website: registrar.uwo.ca/student_finances/scholarships_awards/admission_scholarship_program.html

Scholarships & Awards Program

Financial Aid
Student Financial Services and Student Financial Aid provide financial support and guidance to students during their time at Western through a variety of financial aid programs.

Student Financial Services and Student Financial Aid
- Administers the Western scholarship, bursary and work study programs.
- Administers the Ontario Student Assistance Program (OSAP) and other government-assistance programs, such as the Part-time Canada Student Loan Program, Canada Study Grants for Part-time Students, Institutional Special Bursary Program and Bursary for Students with Disabilities Program.
- Provides financial counselling and budgeting assistance.
- Liaises with the Ministry of Advanced Education and Skills Development, the National Student Loan Service Centre, banks, and other services/agencies to assist students with all government loan programs.

Bursaries
Bursaries are non-repayable grants awarded on the basis of financial need. Western offers two types of bursaries: Admissions Bursaries and In-Course Bursaries.

Admissions Bursaries
- Awarded to students entering Western’s Main Campus for full-time, first-year studies directly from secondary school (application available by the end of January).

In-Course Bursaries
- Available to students in their upper years or to entering students who did not apply for an Admission Bursary.
- Students must complete an online Financial Assistance Profile Application for consideration.

Work Study
Western’s Work Study program offers upper-year students in financial need the opportunity to work part-time on campus in jobs that accommodate their studies. There are more than 2,000 on-campus employment opportunities with flexible work arrangements.

Non-Ontario Students
Students can apply for assistance through their provincial Ministry of Education. Each province in Canada has its own application process. Please visit the appropriate provincial website for more details.

International Students
Immigration, Refugees and Citizenship Canada (IRCC) requires all international students to prove that they have adequate resources before they may be admitted to Canada. Consequently, a bursary will normally be awarded only if there is evidence that circumstances have changed since their arrival in Canada.

Other Entrance Scholarships and Awards
In addition to the unlimited Western Admission Scholarships, Western also offers faculty-specific entrance scholarships and awards with varying values and criteria established by the University, alumni, private donors and corporations who wish to recognize the achievements of Western students. These entrance awards are combined with the Western Admission Scholarship program. The award will be given in addition to, or replace the student’s existing Western Admission Scholarship, and be of either equal or greater value. No application is required for consideration.

UNDERGRADUATE PROGRAMS

Can’t Decide What to Major in?
Not a problem. Many programs offer a common first year so you don’t have to pick a major area of interest until second year. Your first year in Arts & Humanities, Health Sciences, Science, Social Science, Kinesiology or Media, Information & Technoculture is a time to explore a wide variety of disciplines. You will take introductory courses and gain broad knowledge while meeting new friends with a wide range of interests. At the end of your first year, you will be prepared to make a more informed decision about your major, based on your academic strengths and interests.

Academic Choices
Western’s modular degree structure gives you flexibility with your degree. In many cases, you will broaden your areas of study by combining programs from different faculties, schools or departments; or you can focus on a specific subject in greater depth.

Modules
A module is a collection of courses in a defined area of study. The number of courses included in the module is defined by the amount of specialization in the topic. All courses included in the module are designated by a department, Faculty or Affiliated University College.

The Modular Degree Structure
Modules can be combined in the three different types of degrees offered. For instance, if you are planning to complete a four-year Honors Bachelor Degree, you can do an Honors Specialization in Health Sciences and a Major in Film Studies or a Major in Biochemistry and a Major in Mathematics. In fact, there are thousands of possible combinations at Western.

1. An Honors Specialization Module is comprised of 9.0 or more credits and is available only in an Honors Bachelor Degree (4 year).
2. A Specialization Module is comprised of 9.0 or more credits and is available only in the Bachelor Degree (4 year).
3. A Minor Module is comprised of 6.0 – 7.0 credits and is available in all three degree types.
4. A 4.0 Module is comprised of 4.0 – 5.0 credits and is available in all three degree types.

Combined and Concurrent Degrees
Graduate with two degrees in less time than it would take to complete each degree independently. Concurrent degrees allow you to study two major modules at the same time. For example, you can study Applied Math and Engineering, or Kinesiology and Music. Combined degrees are offered with one of Western’s professional Faculties, including the Ivey Business School, Schulich School of Medicine & Dentistry and Western Law.

PROGRAMS FOR HIGH-ACHIEVING STUDENTS

Discover a unique and rewarding undergraduate experience through Western University’s programs for high-achieving students. Apply to Scholar’s Electives to experience stimulating interdisciplinary studies and research opportunities or join the community of academically oriented Western Scholars. Realize your potential to help transform the world with the School for Advanced Studies in the Arts & Humanities (SASAH) or refine your critical-thinking and problem-solving skills with Western Integrated Science (WISC).

Scholar’s Electives
scholarselectives.uwo.ca

This program is ideal for individuals interested in academic enrichment though an interdisciplinary approach to undergraduate learning. If you would like to conduct research at the undergraduate level and/or pursue higher education at the postgraduate/ professional level, then Scholar’s Electives is for you.

Deadline to apply: February 14, 2018

Western Scholars
westernscholars.uwo.ca

This program is designed for exceptional leaders interested in pursuing a unique and rewarding academic experience. It has many of the same benefits as Scholar’s Electives — without limited enrolment.

School for Advanced Studies in the Arts & Humanities (SASAH)

SASAH provides a transformative education that includes interdisciplinary studies, second language acquisition, experiential learning, engagement with the digital world and international travel and exchange opportunities.

Deadline to apply: February 28, 2018

Western Integrated Science (WISC)
wuo.ca/sci/WISC/program

The Western Integrated Science program provides select Science students with the diverse education necessary to address the interdisciplinarity of today’s major scientific challenges (i.e., climate change, world hunger, alternative energy). WISC combines unique Integrated Science courses with traditional discipline-specific courses.

Deadline to apply: March 18, 2018

NACIZA MASIKINI | SCHOLAR’S ELECTIVES STUDENT

“Scholar’s Electives has been integral to my university experience. Through the program, I have been able to explore my wide range of academic interests and have international experiences in research and experiential learning. This ultimately led me to create a themed degree in Gender, Development and Policy. The themed degree let me personalize my education so that I could build a program designed to meet my goals and my learning style. The program has given me the opportunity to immerse myself in interdisciplinary learning, which is of great personal value to me. Scholar’s Electives introduces you to a supportive network of faculty, staff and peers, who support your growth both inside and outside the classroom. Coming to university, I did not think it would be possible to achieve all that I have, but through this program I have been able to tap into my potential and exceed my own expectations. It has been a pleasure to grow alongside the other talented students in the program.”

Academic Support
All of our Faculties and Schools offer academic and career counseling to support you throughout your academic journey. With more than 40 National teaching award-winning faculty, you can count on our engaged faculty and course instructors will prepare you for success throughout your studies.

ADDITIONAL STUDIES IN ADVANCED STUDIES IN THE ARTS & HUMANITIES (SASAH)

Engage with society’s global challenges. When you study in this unique liberal arts program, you will receive a transformative education that includes interdisciplinary studies, second language acquisition, experiential learning, and improved digital world and international travel and exchange.

SASAH students have an opportunity to engage with art and culture on and off campus. Mitch, Misha, Garett and Sarah (seen here), are exploring the matured McPherson Gallery’s sculpture garden. Follow their journey online: sasahblog.com

$1.4 M
AWARDED IN SCHOLARSHIPS, AWARDS AND BURSARIES IN 2015-16.

DISCOVER THE SCHOOL FOR ADVANCED STUDIES IN THE ARTS & HUMANITIES (SASAH)

Study in a Faculty with one of the lowest student-to-faculty ratios in Canada. This means more personalized attention from our world-class professors and researchers. Our students have access to countless opportunities for research, conferences and experiential learning.

GET INVOLVED
Gain hands-on, practical experience in our Community Engaged Learning courses to deepen your understanding of class content through action. Join one of our many clubs, get published in a student journal, exhibit art in our ArtLab Gallery, or act in our Summer Shakespeare program.

MAKE THE WORLD YOUR CLASSROOM
Study, volunteer or work abroad. We offer a range of opportunities for you to integrate international experiences into your university education. Take a Study Tour course and travel to Rwanda, Greece, Spain, England, Cuba or New York.

STUDY IN STATE-OF-THE-ART FACILITIES
Western is currently investing in a significant revitalization of University College, home to the Faculty of Arts & Humanities. The new space will feature multi-level, open-concept student space, contemporary classroom space and improved technology, and brighter, more accessible building access overall. The new and improved University College will be ready to welcome students in 2018.

PREPARE FOR THE FUTURE
Enter the rapidly changing workforce with confidence thanks to the creative thinking and foundational skills you will acquire during your undergraduate studies. Our undergraduate programs offer excellent preparation for professional study in fields such as law, education, business and medicine.

Graduate with two degrees in less time than it would take to complete them separately by pursuing a combined degree with the Ivey Business School.

attend our career workshops, alumni networking events and participate in our Job Shadow program, which is offered in partnership with Western’s Student Success Centre.

DISCOVER STUDENT LIFE IN ARTS & HUMANITIES

SASAH has taught me that not all learning happens in the classroom. We’re encouraged to go out with an open mind and become global citizens. I’ll be in Nice, France this year on a exchange for a full academic year. The option to study abroad was definitely one of the things that drew me into Western.

Peter came to Western from Grand Manan Island, New Brunswick. He was originally enrolled in a different faculty at Western, but after taking a course in French linguistics, he found his passion for linguistics and language. “My favourite thing about the program is the flexibility within my module, which allows me to choose specific courses from a wide pool of options.”

He was originally enrolled in a different faculty at Western, but after taking a course in French linguistics, he found his passion for linguistics and language. “My favourite thing about the program is the flexibility within my module, which allows me to choose specific courses from a wide pool of options.”
Engineering

The Women in Engineering club has allowed me to develop my leadership, mentorship and networking skills outside the classroom.

Sireda Pittayakompisuth
Mechatronic Systems Engineering
Women in Engineering President

500+ ENGINEERING STUDENTS PARTICIPATE IN FACULTY- AND UNIVERSITY-WIDE CLUBS, GROUPS AND TEAMS EVERY YEAR.

BECOME AN INNOVATIVE LEADER

Business is fundamental knowledge for professional engineering. Starting in first year, you will be introduced to business for engineers. After first year, you can further develop your leadership and innovation skills by enrolling in the Integrated Engineering program, the Engineering (BEng/VEy) (BBA) dual degree program or the Engineering Leadership and Innovation Certificate. By combining business and management insights with technical expertise, you will be prepared to assume a leadership role in today’s rapidly evolving global economy.

FIND THE PROGRAM THAT IS RIGHT FOR YOU

DISCOVER STUDENT LIFE IN WESTERN ENGINEERING

Join a cohort of approximately 600 students in a welcoming and friendly environment.

Complete a common first year to explore all areas of engineering before selecting your program of choice.

Accure the skills and knowledge you need to become a Professional Engineer.

Define your academic experience in flexible and exciting ways, creating paths of study tailored to your individual interests and aspirations.

GET INVOLVED

International Exchanges

Internationalize your engineering experience with the Civil Engineering International Development Program, Engineers Without Borders, exchanges and/or research-funded opportunities.

Internships, Co-ops and Externships

Gain hands-on experience with a year-long internship or as a summer co-op. Enhance your engineering education with our Practical Elements of Mechanical Engineering internship in collaboration with FanShawe College.

Student Clubs

Get involved with teams such as the concrete canoe and taboggan teams, Formula Racing, SunStang, WE Bots, Women in Engineering student group and many more.

STUDY IN STATE-OF-THE-ART FACILITIES

Collaborate with other students in spacious lounges, study spaces and cafes within our four engineering buildings on Western’s campus.

Learn in state-of-the-art classrooms and laboratories such as the Claudette MacKay-Lassonde Pavilion (Western’s first LEED Gold certified ‘green building’), the Energy House (Western’s first LEED Silver certified ‘smart building’), and Student Engineering Learning Labs (SELLs).

Design the future in ThreeC+. This is our new building, set to open in 2018, which will house design labs and active learning spaces for experiential and applied learning.

PREPARE FOR THE FUTURE

Network with current students in programs such as our Super Tutor program or our Big Sister/Little Sister mentorship program for female students.

Secure your first job with help from Western Engineering’s Career Services Office which offers resume and cover letter review, interview preparation, and career planning meetings to assist you in finding employment opportunities that are right for you.

Graduate with two degrees in less time than it would take to complete them individually through a combined degree with Ivey or Western Law.

FIND THE PROGRAM THAT IS RIGHT FOR YOU

Chemical Engineering

Options: Chemical, Biochemical and Environmental

Improve everyday living. Chemical engineers design, develop and operate chemical and biochemical processes to make products that everyone uses every day, such as plastics, polymers, medicines, foods, fuels, fertilizers, detergents, cosmetics and consumer goods.

Civil Engineering

Options: Structural, Environmental or International Development

Improve quality of life for people around the world. Civil engineers make communities a safer place by providing essential infrastructure; solving environmental problems resulting from industrialization and resource consumption; and mitigating natural disasters.

Computer Engineering

Options: Electronic Devices or Software Systems for Ubiquitous Computing

Design the next digital phenomenon. Computer engineers design hardware and build computer systems ranging from high-performance parallel supercomputers to micro-devices that will operate the next generation of cell phones, medical equipment and video games.

Electrical Engineering

Options: Wireless Communication, Power Systems or Biomedical Signals and Systems

Power the future. Electrical engineers harness electrical energy for human benefit through applications such as telecommunications, digital electronics, computers, robots, sensors, generators, electric power distribution systems and electric cars.

Mechatronic Systems

Options: Electrical Devices or Software Systems for Ubiquitous Computing

Design the next digital phenomenon. Mechatronic systems engineers combine mechanical, electrical, computer, control and systems design to create smart solutions to everyday problems. Sensors and intelligent controls enable more functional, reliable and versatile systems in areas such as health care, transportation, manufacturing and consumer products.

Software Engineering

Option: Health Informatics

Develop the next big thing. Software engineers specify, design, implement and maintain innovative software systems. They apply both computer science and engineering principles and practices to create, operate and maintain software systems.

Mechanical Engineering

Options: Mechanical Engineering, Mechatronic Systems or Civil Engineering

Become an innovation leader. Integrated engineers work across a range of engineering disciplines to make products that are safe, economical and environmentally friendly.

Integrated Engineering

Become an innovation leader. Integrated engineers work across a range of engineering disciplines to make products that are safe, economical and environmentally friendly.

Integrated Engineering

Become an innovation leader. Integrated engineers work across a range of engineering disciplines to make products that are safe, economical and environmentally friendly.

Integrated Engineering

Become an innovation leader. Integrated engineers work across a range of engineering disciplines to make products that are safe, economical and environmentally friendly.

Mechanical Engineering

Design a better tomorrow. Mechanical engineers use fundamental engineering concepts and contemporary design practices to develop new devices, materials, processes and systems, including smart materials, automotive and aerospace systems, conventional and alternative energy systems, and robotics and controls.

Mechatronic Systems

Options: Electrical Devices or Software Systems for Ubiquitous Computing

Design the next digital phenomenon. Mechatronic systems engineers combine mechanical, electrical, computer, control and systems design to create smart solutions to everyday problems. Sensors and intelligent controls enable more functional, reliable and versatile systems in areas such as health care, transportation, manufacturing and consumer products.

Health Sciences

RISE TO THE CHALLENGE OF INNOVATION

Western’s Health Sciences program can be your gateway to a world of opportunity. You will develop an appreciation for the world’s emerging health issues and be inspired to think globally and strategically to create innovative solutions.

By selecting from one of 10 modules, you will be able to explore health and wellness from a variety of interdisciplinary perspectives and develop the skills necessary to impact the health and wellness of people around the globe.

Through unique learning activities, including participating in the Ontario Model World Health Organization, third-year student Brennan Wong (pictured) has gained an in-depth understanding of the influence of external factors on health-care issues.

“Through my experience in the Health Sciences program I now feel equipped and empowered to start tackling some of the world’s most pressing health challenges.”

Brennan Wong
Health Sciences and Scholar’s Electives Student

DISCOVER STUDENT LIFE IN HEALTH SCIENCES

Develop an appreciation for the world’s emerging health issues and be inspired to think globally and strategically to create innovative solutions while earning a Bachelor of Health Sciences (BHS) degree.

Build your own degree with a variety of module and elective options that allow you to tailor your program of study to meet your interests.

Focus your learning experience on improving human health and developing unique skills and perspectives to tackle health-related issues affecting people in all corners of the world.

Examine health through a variety of lenses to gain an appreciation for how social, political, economic and environmental factors impact people across the lifespan.

GET INVOLVED

Community Service Learning

Work with local organizations and develop real solutions to health-related issues facing seniors in the community through a course called Gerontology in Practice.

International Experiences

Explore health and wellness on an international scale through the Leaders of the Future internship program at globally impactful agencies like the World Health Organization.

Learning It Together

Participate in a student-run health promotion program that aims to improve literacy, numeracy and healthy-living skills in elementary school children through mentorship and role modeling.

Student Clubs and Councils

Join the Health Studies Students’ Association, Faculty of Health Sciences Dream Team, Learning It Together, and more.

STUDY IN STATE-OF-THE-ART FACILITIES

Take a virtual tour of the human body in Western’s 3-D Anatatorium, which uses advanced technology to give you a comprehensive understanding of anatomy.

Conduct research in labs dedicated to health promotion, knowledge translation, and health and aging to apply what you have learned in the classroom and explore the practical application of your skill set.

Turn the community into a classroom and study with world-class researchers to develop a deeper understanding of areas such as health and aging, health promotion, health-care systems development, and child and youth health.

PREPARE FOR THE FUTURE

Attend our annual Career Directions Fair that brings students together with employers and graduate schools to help you explore the options that are available.

Build a skill set and knowledge base that will prepare you for a variety of careers in health-related fields.

Take your health-related knowledge and pursue a research degree or a career in medicine or dentistry.

Graduate with two degrees in less time than it would take to complete them individually through a combined degree with the Ivey Business School.

FIND THE PROGRAM THAT IS RIGHT FOR YOU

Health Promotion

Apply health-related knowledge from both the social and life sciences to understand what influences people to make healthier life choices and why developing health promotion strategies is now a critical emphasis within the public and private sectors.

Health Sciences

Explore the interdisciplinary field of health from different perspectives and learn to apply a diverse skill set to impact human health in a variety of settings.

Health and Aging

Examine health in the context of aging and prepare yourself to help Canada’s fastest growing demographic live engaged and meaningful lives.

Health Sciences with Biology

Combine a holistic approach to health and wellness with the core life sciences (i.e., Chemistry, Biochemistry and Biology) to develop a comprehensive understanding of health and its sociological and physiological foundations.

Rehabilitation Sciences

Understand the fundamental factors associated with identifying, treating and rehabilitating members of society with a goal of improving quality of life. Explore the theories underlying rehabilitation of children and adults and the impact and effects of mental health, disease and human movement.

Foods and Nutrition

Complement the healthy lifestyle focus of our Health Sciences degree program with a Minor in Foods and Nutrition, which is offered in partnership with Brescia University College.

Meet Gabrielle

Pursuing an Honors Specialization in Health Sciences, Gabrielle is the co-founder of a not-for-profit organization that promotes mental wellness among youth in Canada’s North. “My Health Sciences education has inspired this work by exposing me to the intergenerational effects of colonization on the health of Indigenous communities.”

10 DIFFERENT MODULES TO CHOOSE FROM TO CUSTOMIZE YOUR LEARNING EXPERIENCE.
A STUDENT ATHLETIC TRAINER FOR ONE THERAPY HAVE THE COURSE IN ATHLETIC OF WESTERN'S 46 OPPORTUNITY TO BE STUDENTS TAKING A Stephanie Pretenjaca is and sport. affecting physical activity and cultural factors all that with it with the fitness programs for events. You will take that experience by assessing movement, and combines the involvement in human movement, and combines all that with it with the psychological, sociological and cultural factors affecting physical activity and sport.

When you study Kinesiology at Western, you will take that knowledge and apply it to real-world settings. Our students gain hands-on experience by assisting and treating athletic injuries, administering fitness programs for seniors and joining research teams at international sporting events.

Kinesiology student Stephanie Pretenjaca is seen here in the Athletic Injuries Lab identifying tightness of the iliotibial band using Ober’s test.

GAIN HANDS-ON EXPERIENCE

Kinesiology takes the science of muscle activity, adds in the functioning, mechanics and structures involved in human movement, and combines all that with it with the psychological, sociological and cultural factors affecting physical activity and sport.

When you study Kinesiology at Western, you will take that knowledge and apply it to real-world settings. Our students gain hands-on experience by assisting and treating athletic injuries, administering fitness programs for seniors and joining research teams at international sporting events.

Kinesiology student Stephanie Pretenjaca is seen here in the Athletic Injuries Lab identifying tightness of the iliotibial band using Ober’s test.

DISCOVER STUDENT LIFE IN KINESIOLOGY

Become a leader in your field with a balanced approach to Kinesiology that allows you to focus on areas such as human movement and rehabilitation, fitness and exercise, sport management and the cultural impact of sport.

Explore all areas of Kinesiology before selecting your module of choice with a common set of first-year courses, combined with elective choices.

Study in a program that offers the broadest range of activity courses of any Kinesiology program in Canada with options including exercise for specific populations, personal training and team-based sports.

GET INVOLVED

International Experiences

Spend a semester on an exchange at one of 14 partner institutions around the globe and discover the international power of physical activity and sport.

Learning it Together

Participate in a student-run health promotion program that aims to improve literacy, numeracy and healthy-living skills in elementary school children through mentorship and role modeling.

Field Experiences and Internships

Gain hands-on experience through practical learning opportunities in areas such as community sport, athletic therapy, and activity and aging.

Student Clubs and Councils

Join the Kinesiology Students’ Association, Kinesiology Winter Special Games, Faculty of Health Sciences Dream Team, help support Camp Trillium and more.

STUDY IN STATE-OF-THE-ART FACILITIES

Learn from world-class researchers in labs, and facilities that examine areas of Kinesiology such as brain and heart health, biomechanics, joint rehabilitation and protective athletic equipment.

Examine physical activity and health as it relates to older adults through the Canadian Centre for Activity and Aging’s research labs and community-based outreach programs.

Help establish new rehabilitation protocols for some of Canada’s most common injuries in the Wolf Orthopaedic Biomechanics Laboratory.

Discover what motivates people to make exercise a part of their daily lives in the Exercise and Health Psychology Laboratory, and gain insight into how physical activity can help break down the social barriers of disability with researchers working in the field to make communities more accessible.

“Being a student trainer with our varsity teams allowed me to apply my knowledge outside of the classroom, working with high-level athletes, both on the sidelines of the rugby pitch and in a clinical setting.”

Kelsey Shaw
Honors Bachelor of Arts

Find the Program That Is Right for You

HONORS BACHELOR OF ARTS

Kinesiology

Develop an in-depth understanding of the field of Kinesiology by studying how physiology and anatomy combine with sociocultural elements like psychology, sociology and philosophy to help people live engaged and meaningful lives through movement and activity.

Sport Management

Get your game on with modules that incorporate sport management and complementary interdisciplinary courses, including Introduction to Sport Management, Organizational Behavior, Sport Marketing, International Sport Marketing and a field experience.

Fitness & Exercise Prescription

Become an expert exercise and fitness specialist. Course selections allow you to focus on the sociocultural and biocultural factors related to understanding and prescribing exercise programs.

Professional Kinesiology

Take your degree to the next level. This module integrates hands-on learning and health leadership with an in-depth understanding of the field of Kinesiology and prepares students to pursue certification by the College of Kinesiologists of Ontario.

Kinesiology/Honors Business Administration

Combine an in-depth understanding of Kinesiology with a world-class business education to develop a diverse skill set and knowledge base that prepares you for a career in a variety of careers.

HONORS BACHELOR OF SCIENCE

Kinesiology

Explore Kinesiology from a biocultural perspective by developing an understanding of the impact of exercise physiology, biomechanics, sports injuries and anatomy.

ADDITIONAL MODULES

Rehabilitation Sciences

Explore the theories underlying rehabilitation and children and adults. Study the impact and effects of mental health, disease and human movement.

Note: Rehabilitation Sciences must be completed in conjunction with another Kinesiology degree.

Foods and Nutrition

Complement the healthy-lifestyle focus of our Kinesiology degree program with a Minor in Foods and Nutrition, which is offered in partnership with Brescia University College.

PREPARE FOR THE FUTURE

Meet with academic counsellors who are available to assist you with questions related to your work inside and outside the classroom.

Attend our annual Career Directions Fair that brings students together with graduate schools and employers to help you explore the options that are available.

Become a licensed Kinesiologist through the College of Kinesiologists of Ontario and help create a healthier Ontario as part of a health-care team or in a variety of careers.

Meet Aryan

Aryan’s undergraduate education has allowed him to gain experience in the world of global sport. Along with three classmates, Aryan finished in the Top 3 of an international case competition that looked at hosting a major global sporting event. “Being able to apply what we were learning in the classroom to a practical situation took our learning experience to the next level.”

Explore where your passion lies in the Arthur Labatt Family School of Nursing. Throughout our program, you will develop professional skills and identify your areas of interest to be a leader in health-care delivery and patient care.

Meet our students

This team of third-year Western nursing students recently took the “W” around the world. The team completed a global health nursing placement in the pediatric unit of the University Central Hospital of Kigali in Rwanda. During their stay they worked inside a hospital where they gained experience caring for children throughout the world. The team completed a global health nursing placement in the pediatric unit of the University Central Hospital of Kigali in Rwanda. During their stay they worked inside a hospital where they gained experience caring for children throughout the world.

PREPARE FOR THE FUTURE

Enter the workforce immediately after graduation, further your education with a graduate degree or advocate for health and wellness in other ways. Our academic counsellors are available to assist you with questions related to your work inside and outside the classroom. Attend our annual Career Directions Fair that brings students together with graduate schools and employers to help you explore the options that are available.

Network with nurses in the area through organizations such as the Iota Omicron chapter of Sigma Theta Tau International, the Honor Society of Nursing and the Registered Nurses’ Association of Ontario (RNAO).

FIND THE PROGRAM THAT IS RIGHT FOR YOU

We offer two ways for you to earn a Bachelor of Science in Nursing (BScN) degree - the Western-Fanshawe Collaborative BScN Program and the Compressed Time Frame BScN Program. Both programs prepare you for a career as a Registered Nurse (RN) and give you the skills and knowledge to provide clients with the best care possible in a variety of settings.

WESTERN-FANSHAWE COLLABORATIVE BScN PROGRAM

Admission to this four-year Bachelor of Science in Nursing Degree (BScN) program is based on secondary school prerequisites (or equivalents). The program is offered at both Western and Fanshawe College, with the same curriculum taught at each site.

Western Site: Students study at Western University for all four years of the program.

Fanshawe Site: Students study at Fanshawe College for the first two years before moving to Western for years three and four.

COMPRessed TIME FRAME (CTF) BScN PROGRAM

Offered at Western only, the 19-month CTF program is designed for students who already hold a university degree or have completed at least two years of university study.

STUDY IN STATE-OF-THE-ART FACILITIES

Study in the new $41.3-million building that is home to the Arthur Labatt Family School of Nursing.

Develop professional skills in Nursing’s simulated clinical education suites that advance your education with the latest technology and award-winning instructors. Take a virtual tour of the human body in Western’s 3-D Anatomicus, which uses advanced technology to give you a comprehensive understanding of anatomy.

DISCOVER STUDENT LIFE IN NURSING

Gain the knowledge and skills necessary to practice as a Registered Nurse through theory courses, professional practice, case-based learning and simulated clinical education.

Develop clinical skills and confidence in a lab setting in one of our state-of-the-art simulation suites before embarking on your first practical placement.

Learn from faculty with varied backgrounds and diverse interests in areas such as mental health, homelessness, health informatics and technology, pediatrics, healthy, global health, aging and rural health.

Get a head start on your career with our Accelerated Year 4 option that allows some students to graduate one semester early.

Join the Canadian Nursing Students’ Association, the national voice of nursing students in Canada.

GET INVOLVED

Professional Practice Placements

Become a leader in health-care delivery by developing skills and knowledge in a variety of health-care settings throughout southwestern Ontario, including hospitals, long-term care facilities, public health units and community support agencies.

International Experience

Complete a course in global health and consider applying for an associated elective placement in Rwanda to gain global perspectives on health issues and other health-care systems.

Learning it Together

Participate in a student-run health promotion program that aims to improve literacy, numeracy and healthy-living skills in elementary school children through mentorship and role modelling.

Student Clubs and Councils

Join the Western-Fanshawe Nursing Students’ Association, Nursing Games, Faculty of Health Sciences Dream Team or represent Western on national and provincial nursing associations.

STUDY IN THE FIRST-CLASS FACILITIES

Explore where your passion lies in the Arthur Labatt Family School of Nursing. Throughout our program, you will develop professional skills and identify your areas of interest to be a leader in health-care delivery and patient care.

Home to one of the first simulated hospital units in Canada, Western will provide you with professional practice experience in our clinical education suites and skills lab, in addition to community-based placements that will introduce you to the variety of important roles nurses play in our society.

Nursing students Austin Pugh (left) and Brenna Murray (right), are seen here working closely with a clinical instructor (middle) during a simulation involving computerized mannequins that can be programmed to have a variety of ailments.

“I wonder if they can do this with our patients.”

Austin Pugh

Compressed Time Frame BScN Program

BE A LEADER IN YOUR PROFESSION

Explore where your passion lies in the Arthur Labatt Family School of Nursing. Throughout our program, you will develop professional skills and identify your areas of interest to be a leader in health-care delivery and patient care.

Home to one of the first simulated hospital units in Canada, Western will provide you with professional practice experience in our clinical education suites and skills lab, in addition to community-based placements that will introduce you to the variety of important roles nurses play in our society.

Nursing students Austin Pugh (left) and Brenna Murray (right), are seen here working closely with a clinical instructor (middle) during a simulation involving computerized mannequins that can be programmed to have a variety of ailments.

“The simulation suite not only allows us to develop the hands-on skills necessary in nursing, it also gives us the chance to focus on communicating effectively with our patients.”

Austin Pugh

Compressed Time Frame BScN Program

4 BRAND-NEW SIMULATED CLINICAL EDUCATION SUITES TO PREPARE YOU FOR YOUR CLINICAL PLACEMENTS.
In the Faculty of Information & Media Studies (FIMS), we ask questions about how news, television, social media, celebrity culture and music shape our lives in a variety of ways. Our programs provide you with a theoretical foundation to understand why we have the media landscape we do today—and where it’s going in the future.

Maggie Tulecka, BA’07 and MA’08, (left) is an MIT grad who works for Global News and AM640. Maggie’s FIMS experience has come full circle, as this summer she supervised Emily Momot (right), an MIT student interning at Global News and Corus Entertainment.

**GET INVOLVED**

**International Opportunities**
Study abroad in popular exchange destinations such as Australia, New Zealand, Singapore, Hong Kong and the United Kingdom. Every year, more than 50 third-year MIT and MPI students take advantage of international exchange opportunities.

**Real-world Experiences**
Take advantage of learning outside the classroom. Our program recognizes the importance of connecting media theory learned in the classroom to real-world experiences. You are encouraged to test drive your skills and gain practical experience through MIT and MPI internships, MPI practicum placements, study-travel courses and course-based experiential learning opportunities.

**Volunteer Opportunities**
Meet new friends and gain experience in FIMS by volunteering with the Street Team, OPENWIDE magazine or the FIMS Ambassador Team. Interested in getting involved in campus media? Complement your degree by getting some hands-on experience with student media on campus. Western TV, The Gazette (Western’s student newspaper) and CHRW Radio Western provide great opportunities to produce content for the campus community.

**FIMS Students’ Council**
Join the FIMS Undergraduate Students’ Council (FIMSSC) and have an opportunity to help shape your fellow students’ university experiences through social events and faculty initiatives. The FIMSSC is a great fit if you are politically inclined, community engaged or just want to get involved in the faculty.

**DON’T SETTLE FOR 140 CHARACTERS. WRITE THE BOOK.**

“The hands-on experience I received this summer allowed me to exercise my creative capabilities in writing, while networking with professionals who have been involved in the media industry for years.”

Emily Momot
Marketing and Publicity Intern at Global News and Corus Entertainment

**FIND THE PROGRAM THAT IS RIGHT FOR YOU**

**Media & the Public Interest (MPI)**

Examine the powerful societal and economic forces that interact with and drive media production and consumption. Consider how our world is filtered by media, constructed from information and altered by technology. Then, use that knowledge to shape your world. Interested and qualified MIT students can also complete a combined degree with the Ivey Honors Business Administration (IBA) Program.

**Media Information & Technoculture (MIT)**

Connect communication and media studies to issues such as democracy, equity, class, race and gender. MIT builds on the foundation provided by the MIT program. Students who have a passion for social justice issues, and think MPI might be a good fit, can apply during their first year in FIMS.

**PREPARE FOR THE FUTURE**

Graduate with a liberal arts degree from FIMS and leave Western with the ability to critically deconstruct and analyze the information and media that you come into contact with on a daily basis. Acquire the media knowledge and skills you need to launch successful careers in advertising and marketing, journalism and content production, digital media, communications, charities, activism and advocacy.

Come away with a new perspective on the things you see and hear around you. What you choose to do with that powerful knowledge is up to you. We like to say the FIMS experience is what you make it.
Music

music.uwo.ca | music@uwo.ca | 519.661.2044

STEP INTO THE SPOTLIGHT

Students studying in the Don Wright Faculty of Music have the opportunity to join large and small ensembles, including the symphony and chamber orchestras, four choirs, the wind ensemble and symphonic band, the jazz ensemble, the percussion ensemble, the early music studio, the contemporary music ensemble, and various chamber ensembles. Our students also participate in prestigious music festivals and competitions around the world. Anna Grigg, Dorothy Lin, Christian Wrona, Bingxin Yang and Darren Mak recently travelled with the National Youth Orchestra of Canada this summer. The orchestra performed specially commissioned works in 11 cities across Canada in July and August in honour of Canada’s 150th anniversary.

Brendon A. Berrisford

“...My experiences inside and outside the classroom have been invaluable to my professional development. It is a true joy to learn in such a professional yet supportive environment.”

Julianne Breen, BMus

Music Education student

DISCOVER STUDENT LIFE IN MUSIC

Become part of a close-knit community of students, faculty and staff. We are perfectly sized to contribute to a family-like learning environment while – as one of the largest music faculties in Canada – offering an exceptional range of musical and academic options, starting with a common first year. Participate in one-on-one weekly lessons with the finest musicians from around the world, and a student-peer mentoring program. Access a broad range of specialized course offerings including The 21st Century Musician, Music and Politics, and Music Education in Action.

GET INVOLVED

Real-world Experiences

Participate in fieldwork opportunities in Lucca, Italy at the Accademia Europea Dell’Opera. Engage in culturally relevant teaching and learning opportunities in international locations such as Guatemala. Design your own Experiential Learning project for credit.

Capstone Course

Enroll in program-specific capstone projects in music research and composition, popular music, performance, and music education.

Student Clubs

Join the Student Council, student-run radio show, music education students’ association and a monthly student-oriented magazine.

STATE-OF-THE-ART FACILITIES AND RESOURCES

Perform and learn in our new building that offers the best learning environment for academic and performance studies with 100+ practice rooms, studios, large and small rehearsal rooms.

Showcase your many talents to professors, peers, family and friends in our 400-seat fully equipped theatre known as the Paul Davenport Theatre (capable of presenting fully staged opera productions with orchestra), 250-seat recital hall (von Kuster Hall), 48-seat recital hall, video and digital audio (DAT) recording facilities and Composition & Electro Acoustic Research & Performance (CEARP) facility.

Access a wide variety of instruments, including hundreds of wind instruments maintained by resident technicians; grand, digital and acoustic pianos; more than 40 valuable string instruments and bows for loan. The Music Library’s holdings are among the most expansive in North America, including an impressive general collection and several Special Collections.

PREPARE FOR THE FUTURE

Develop your musical talents, creativity, teamwork skills and confidence to excel in any profession of your choice.

Enter the workforce immediately after graduation or apply to our Music Education program where qualified students are guaranteed entry into the Bachelor of Education program at Western.

Further your performance studies by completing our Artist Diploma in Performance (upon completion of your undergraduate degree) or entering a graduate program in music.

FIND THE PROGRAM THAT IS RIGHT FOR YOU

Bachelor of Music

Share a common first year with your fellow classmates then enter one of the following streams starting in Year 2.

Performance – Focus on piano, voice, orchestral/band instrument (including guitar) or organ.

Music Education – Discover the foundations and principles of the teaching of music in elementary or secondary school vocal or instrumental music.

Music History – Specialize in Western Art Music or Popular Music for understanding music within its historical or cultural contexts.

Music Theory – Study advanced theoretical concepts and techniques for understanding music.

Music Composition – Create music for both traditional ensembles and electronic media.

Years 1 and 2 include core courses such as Music History, Music Theory and Music Skills. Lessons, masterclasses and ensemble participation are included in all streams.

Bachelor of Musical Arts

Complete a common first year similar to the Bachelor of Music with more flexibility in course selection in upper years. For example, a blend of Music Education and Music Theory courses.

Bachelor of Arts

Study music as an academic subject combined with another Major or Minor module on campus. For example, a Music Major with a Minor in French Studies.

Music Administrative Studies

Prepare for a management position in various fields within the music industry, such as music publishing, music arts management; production and distribution of recorded music; and the marketing of music products.

Popular Music Studies

Study the interdisciplinary nature of popular music through songwriting and analysis of popular music, recording practice/production, and critical study of musical styles, recordings, artists and genres in their broader historical and cultural contexts.

Western-Fanshawe Collaborative Program in Music Recording Arts

Become informed and critically aware of all aspects of music and the music industry, including artist development and audio production. Gain high level skills in the hands-on techniques and processes related to specific music performance, recording technologies, music production and industry best practices.

Combined Degree Programs with Ivey Business School

Combine your passion for music and business to earn two degrees in collaborative programs leading to a Bachelor of Musical Arts (Honors Music), Bachelor of Arts (Honors Specialization in Music), or Bachelor of Arts (Major in Music) and a BA in Honors Business Administration (HBA).

2

FULLY STAGED OPERA PRODUCTIONS EACH YEAR WITH ORCHESTRA INCLUDING PROFESSIONAL STAGING, LIGHTING AND WARDROBE.

“...My experiences inside and outside the classroom have been invaluable to my professional development. It is a true joy to learn in such a professional yet supportive environment.”

Julianne Breen, BMus

Music Education student

Attention Non-Music Majors

There are music courses available for non-music majors. Ensemble auditions are also open to all Western students.
DISCOVER STUDENT LIFE
IN WESTERN SCIENCE
Experience a warm, friendly and creative environment in which to learn with 3M National Teaching Award-winning instructors. Develop expertise in experimental design and a strong foundation in data analysis in our first-year labs. Gain access to powerful tools, from PCR for genetic analysis to the technologies of our Nanofabrication Laboratory, to address complex industrial, business, natural, and societal challenges. Cultivate critical-thinking and communications skills with group projects, at undergraduate conferences, during field courses across the globe or even in virtual field trips across the ether. There are so many ways to discover your scientific passion at Western Science.

GET INVOLVED
Challenge your creativity and problem-solving abilities at events like our Industry Problem-Solving Week, the extracurricular SCINAPSE Science Case Competition or at Hack Western. Explore budding research interests at annual events such as Space Day and the Fallona Family Interdisciplinary Research Showcase. Acquire a new language and discover a different culture while building your scientific skill set through our exchange and study-abroad programs with partner universities. Join the Science Students’ Council, the Outcrop Club, Biology Undergraduate Society (BUGS), or any number of Science clubs to meet and exchange ideas with soon-to-be friends.

STUDY IN STATE-OF-THE-ART FACILITIES
Dive into scientific experimentation in our first-year Chemistry labs. Flooded with natural light, these modern spaces offer large workstations designed to support learning collaborations and are fitted with computer-controlled module equipment to simulate an authentic lab environment found in government and industry. Immerse yourself in interdisciplinary sciences in a modern science facility built exclusively for an integrated science experience. Develop your research skills in unique spaces like the BIOTRON Centre for Climate Change Research where you will have access to a suite of imaging and analytical instruments and climate-controlled biomes. Study at the Taylor Library, designed especially for Science students. Choose the best study area for your needs, from silent study and quiet group areas to conversation-friendly and eating-welcome zones.

DISCOVER SCIENCE
Conduct independent research — you could find yourself developing genetic models to determine the efficacy of cancer treatments, exploring the wind dynamics around supermassive black holes, or even designing big data algorithms to quantify, hedge and manage financial risks. Apply your knowledge in exotic field locations and through industry, government or academic internships. Live the science you learn like Wynona Wing (right), who experienced restoration ecology, first-hand during a unique community service learning course.

$300,000+
IS AVAILABLE TO WESTERN SCIENCE STUDENTS FOR IN-COURSE ACADEMIC SCHOLARSHIPS.

“I came to Western knowing I liked biology but the highlight of my undergraduate degree was becoming involved in stem cell research.”
Alexandra Kozlov
Biology

Meet Charlie
Charlie is the founder of SCINAPSE and the initiator of the SCINAPSE Undergraduate Science Case Competition. His research focused on biological modelling using artificial intelligence and he is a named contributor to research featured in the journal, Nature. “I came to university to learn a bit about everything. I was stimulated by my capable peers, the collaborative intellectual environment and professors who cared as much about my personal growth as they did about the research.”

PREPARE FOR THE FUTURE
Try on a career, develop a professional network and gain relevant work know-how, all while earning a full salary through an eight to 16-month Science Internship. Meet Science alumni, industry and government partners, learn about industry trends and develop valuable skills. Engage in mock interviews, resume preparation and career searches with the Science Career Services team.

Expand your scientific knowledge with some of the most interesting collections on campus. For example, the Biodiversity Gallery houses the Zoological Collection, which includes thousands of animal specimens, insects and mollusks and temporary exhibits to raise awareness of diminishing biodiversity. Earth Sciences curates the Western Meteorite Collection which contains nearly 200 different meteorites, including large portions of several Canadian meteorite falls like the Tagish Lake carbonaceous chondrite. Unique in North America for the sheer number of specimens it houses, the Suffel Collection at Western Science offers a suite of more than 200,000 mineral deposits, freely available for use by senior undergraduates.
Harness the power of choice with Western's modular degree structure, which gives you the opportunity to combine various subjects from different departments and faculties. Explore a single discipline in any of the eight departments in Science. Meet popular flagship programs, or choose from a broad spectrum of interdisciplinary modules to build your personal learning path. Find the program that is right for you.
Medical Sciences

The Bachelor of Medical Sciences (BMSc) Program, offered jointly by the Faculty of Science and the Schulich School of Medicine & Dentistry, is designed for students interested in studying the basic medical sciences at an advanced level. Students interested in this program should apply to Medical Sciences First Entry. Students admitted to Medical Sciences First Entry are assured admission to Year 3 BMSc provided they satisfy certain conditions in Medical Sciences 1 and 2.

Students interested in the undergraduate program in Neuroscience (BSc) in Year 2 may normally apply via Medical Sciences First Entry; however, any student who satisfies the first-year admission requirements can be considered for admission. Biology, Chemistry, Math, Physics and Psychology are required courses in Year 1.

The Medical Sciences focus on understanding normal human systems, structure and function, the causes and progression of disease and illness, mechanisms of current treatment and the search for cures. You may choose to specialize in one basic medical science discipline or study from an interdisciplinary perspective. Biochemistry, Chemistry, Microbiology and Pharmacology, which offer open enrollment, are accessible to courses offered by all of the Basic Medical Sciences (IMS) modules with particular emphasis on understanding the structure, function and regulation of biomolecules as they relate to the molecular basis of disease. Training involves the application of state-of-the-art approaches and equipped to the many diverse areas of modern biochemistry that include molecular genetics, structural biology, signal transduction, chemical biology and biophysics.

Medical Biophysics
- Medical diagnosis and therapy from a foundation of mathematics and physics. This field includes cardiovascular biophysics, orthopaedic and soft tissue mechanics, MRI, CT and ultrasound imaging for diagnosis and radiation biophysics for cancer treatment.
- Learn how the human body works – from the smallest cells up to complex organ systems. Physiology courses and research span the whole spectrum of living organisms, from single cells to the entire human body.
- Study how drugs act on biological systems to study physiology of functions in health and disease. Understand the range of targets for drug discovery and pharmacological uses of some important drugs. Discover the adverse effects of both drugs and chemicals on humans and other biological systems and learn how technology is an integral part of risk/safety evaluation.
- Explore modern research advancements in human health.
- Discover how the immune system protects us from infectious micro-organisms and cancer cells to maintain health. You can cause disorders like autoimmune diseases and allergies. Learn about endocrine therapies, vaccine strategies/titration and lab techniques used to identify bacteria and measure immune health.
- Analyze and how it can be applied in human health and disease. The program has been a perfect fit for me!”

“40% of BMSc students select the Interdisciplinary Medical Sciences module to study and work in industry. Students in Honors Specialization modules in Interdisciplinary Medical Sciences or Biochemistry can also undertake a combined degree with the Key Business School.
Social Science

**Discover Student Life in Social Science**

Participate in traditional programs as well as interdisciplinary programs that combine ideas from a number of related areas of study. Learn from world-renowned faculty members who have received national research and teaching awards. Our professors teach using a variety of methods including small-group discussions, community involvement opportunities and multimedia interaction. For example, Lisa Hodgetts, a professor in Anthropology, uses course assignments and hands-on labs to bring her Arctic-based research into the classroom.

**Get Involved**

Internships: Gain hands-on experience through a 10-week, paid summer internship.

International Experiences: Study, volunteer and work abroad. To date, our students have taken courses in more than 20 different countries.

Student Clubs: Gain leadership experience and develop networking skills through departmental student clubs, or participate on student council with members from all constituents of the Faculty of Social Science including department representatives, members-at-large, sophs and first-year students.

Student Journals: Publish your work in one of our departmental student journals.

**Study in a Supportive Learning Environment**

Access the support you need in our undergraduate counseling office where several academic counsellors oversee all of your advising needs. Each department has an academic advisor to help you choose your courses.

Contact research during your fourth year of study in spaces such as our Digital History Lab, Anthropology Laboratory or Geographic Information Technology & Applications Lab. Western Social Science is also affiliated with the Museum of Ontario Archaeology in London, Ontario, which has an advanced facility for storing and studying Indigenous artifacts.

**American Studies**

Examine America role in the world and its relationship with other countries. This interdisciplinary program introduces students to the social, political, historical and cultural dimensions of the United States in an effort to better understand the meaning and significance of the American identity.

**Anthropology**

Study people, culture and social systems in all periods of history and in all areas of the world. Combine scientific and humanitarian interests to investigate past and contemporary cultures. Study artifacts and material remains. Study language and communication in social context, and analyze social systems and cultural frameworks.

**DAN Management & Organizational Studies**

Combine a strong foundation in the social sciences with conventional business subjects. For more information, see page 58.

**Economics**

Explore the behaviours of individuals, organizations and governments within the context of markets, national economies and the global economy.

**First Nations Studies**

Investigate topics relevant to Indigenous peoples’ realities. Explore key issues such as history, language, politics, environment, psychology, cultural studies, health, sociology, arts, economics and education.

**Geography**

Integrate spatial geography – the study of Earth’s physical environment – and human geography – the spatial distribution of human activities, and the relationships between people and their environment. Analyze many important contemporary issues such as global environmental change, international development, human migration, global business, urban development and sustainability, and spatial patterns of health and disease.

**Geographic Information Science**

Combine the fundamental elements of geography with the methods and application of Geographic Information Systems. GIS is a powerful tool for capturing, storing, manipulating and displaying geographic data that are critical to monitoring, understanding and managing our world. GIS is widely used throughout the private and public sector for the analysis of spatial data in fields such as planning, marketing, health and environment.

**History**

Consider the central issues of change over time and change in ways in which gender, class and race have shaped the experience of people in past times. Develop your abilities in writing, speaking, argumentation and analysis through small courses and interactive tutorial sessions. Complete modules in History or in interdisciplinary areas housed in the department, including Jewish Studies or Middle East Studies.

**International Relations**

Explore the study of conflict, cooperation and dialogue. Understand how international relations is a powerful tool for capturing, storing, manipulating and displaying geographic data that are critical to monitoring, understanding and managing our world. GIS is widely used throughout the private and public sector for the analysis of spatial data in fields such as planning, marketing, health and environment.

**Linguistics**

(Faculty of Social Science and Arts & Humanities) Analyze the historical and social variations in language. Become acquainted with applications of linguistic theory in areas such as child language acquisition, second language acquisition and language change and variation. Explore provocative and interdisciplinary concepts such as language evolution and extinction, the innateness of human language and even the idea of a multilingual world.

**Political Science**

Explore the ideas, activities and problems associated with the governance of nations, states and societies, both past and present. Learn about the impact of globalization, the making of American foreign policy, the role of the courts in politics, the multi-level governance of Canadian cities and how policies and principles shape our societal values, our countries and our freedoms.

**Psychology**

Explore the biological, social and psychological roots of human and animal behaviour. Topics include how our brain controls our behavior, how we interact in small groups, how psychological principles are applied to the workplace, how interpretation is perceived, processed and remembered, and how behavior changes from infancy through adolescence. Individual differences in normal and abnormal behavior are also studied.

**Sociology**

Investigate how society influences what we do, how we think about social behavior in order to understand and explain differences between men and women, the young and the old, or people of different nationalities. Criminology modules investigate such topics as the impact of gun control, how the media reports crime, and the causes and consequences of deviant and criminal behavior. The Population, Aging and Health module examines the process of aging and how it is influenced by such factors as gender, social class and health care.

**Urban Development**

Focus on the nature of urbanism, the processes affecting urban growth, and the methods and techniques used to analyze urban markets, land use and urbanization. This interdisciplinary program prepares students for careers in businesses and agencies concerned with urban development.

**Women’s Studies and Feminist Research**

(Faculty of Social Science and Arts & Humanities) Gain insight into health studies, media studies, literature, history, critical race theory, philosophy, literature and visual culture, examined through a feminist perspective. There are also courses on queer theory and sexuality studies.

**FIND THE PROGRAM THAT IS RIGHT FOR YOU**

See page 36 for full list of programs.

**150 Awards and Scholarships Are Available Specifically for Students in the Faculty of Social Science**
The DAN Department of Management & Organizational Studies combines six core areas of business education with courses from Social Science and other disciplines to provide a broad educational perspective. DAN Management has adopted an Evidence Based Management (EBM) perspective throughout its curriculum. This is the first and only explicit adaptation of EBM for management or business education in Canada. EBM brings critical focus to our graduates to make meaningful contributions to management decisions and practices in the organizations they join.

Get a Fresh Perspective

EBM brings critical focus to our graduates to make meaningful contributions to management decisions and practices in the organizations they join.

Get Involved
Internships
Gain hands-on experience through an eight to 16-month internship.

Study Abroad
Participate in an exchange in third year at schools such as King's College in England, Nanyang Technological University in Singapore, The University of Queensland in Australia or the European Business School in Germany.

Commercial Aviation Management
Complete flight training at London's International Airport through the Diamond Flight Centre.

Case Competitions
Take part in a number of tournaments across Canada including Victoria, Toronto, Edmonton and Montreal, to learn how to analyze companies (both internally and externally), develop detailed solutions and hone crucial presentation skills.

Student Clubs
Join the DAN Management Student Association (DMSA) to organize a variety of academic initiatives, networking opportunities and social events. The CAM Council represents students in the Commercial Aviation Management stream.

Study in a Supportive Environment
Get advice on your academic decision and course choices from the academic advisors in DAN Management, as well as counsellors in the Faculty of Social Science Undergraduate Counselling office.

Preparing for the Future
Acquire the skills you need to excel in a variety of areas including management, human resources, labour relations, financial services industry, accounting, aviation, consumer behavior and advertising.

Discover Student Life in DAN Management
Experience the best of both worlds – our instructors are industry professionals with real-world experience, and research-focused academics providing insight into the latest theories and research.

Complete courses during your studies that count towards professional designations such as the Chartered Professional Accountant (CPA), Chartered Financial Analyst (CFA), and Certified Human Resources Professional (CHRP).

Get advice on your academic decision and course choices from the academic advisors in DAN Management, as well as counsellors in the Faculty of Social Science Undergraduate Counselling office.

Preparing for the Future
Acquire the skills you need to excel in a variety of areas including management, human resources, labour relations, financial services industry, accounting, aviation, consumer behavior and advertising.
## Professional Second-Entry Undergraduate Programs

Second-entry professional undergraduate programs such as Business, Dentistry, Education, Law, Medicine and Social Work do not begin in first year. These undergraduate programs require a minimum of two to four years of university study prior to admission. The length of the programs will also vary, with some taking four years while others are only two years in duration.

Admission requirements vary greatly with each program having its own required undergraduate prerequisites, admission averages and required test scores. Please note that these programs are in high demand, and enrolment is limited. Requirements are subject to change. Please confirm with the program. Western also offers professional graduate programs, MA and PhD degrees in a number of disciplines through the School of Graduate and Postdoctoral Studies.

• Non-Academic: Personal profile of volunteer, work and diversity experience; two confidential references (from a work and/or volunteer experience, preferably in the social services)  
• Academic and non-academic criteria are both considered in the admissions process  
• See website for details: [kings.uwo.ca/academics/school-of-social-work](http://kings.uwo.ca/academics/school-of-social-work) |
UNLIMIT YOURSELF
Take the opportunity to explore your academic interests before choosing your career options, rather than be channeled into a specialization early on. The Ivey HBA Program is a 2+2 program, which means you study anything you are interested in for your first two years at Western or another recognized university, followed by two years of concentrated business study at Ivey.

Design a personalized program of study to round out your business management education, and complement your career objectives, with our wide range of elective HBA2 courses and combined degree opportunities.

CLASSROOM ENVIRONMENT
Join a section with 75 others with top academic records – the same exceptional students you will work with every day for the first year. Get to know your section-mates and your faculty team through our high level of classroom interactivity.

Study in a diverse environment. Approximately 30 per cent of our students come from provinces outside Ontario or countries other than Canada. Our student body includes students from more than 45 different academic programs with diverse extracurricular and work experiences.

Continue to work with your section-mates outside of the classroom in learning teams and on group challenges like 48-hour reports.

EXPERIENCES
Summer Internships
Refine your career goals. Take advantage of the many challenging and relevant summer internship opportunities available to Ivey students. More than 25 per cent of summer internships resulted in full-time job offers with the same firm.

International Opportunities
Spend your final term on exchange at a top business school in Asia, Europe or Latin America, take part in a study tour or get involved in a student leadership project abroad.

HBA Clubs
Participate in a variety of student clubs that highlight the diverse interests of the student body.

PREPARE FOR THE FUTURE
Define your career goals and develop a strategy for success. Ivey’s Career Management team offers a variety of services, activities and events.

Gain access to a wealth of resources to help you explore career options, choose a personalized career plan and develop a job search strategy to get you there.

Become an innovative leader. Ivey has more Canadian ‘Top 40 Under 40’ emerging leaders than any other business school.

DEGREES
Honors Business Administration (HBA) (2 Years)

COMBINED DEGREES
HBA and Honors Specialization with various programs across campus. See pages 32-33 for more information.
Educate

Develop the habits of mind, hand and heart that define passionate teachers and leaders in education at a university that consistently offers Canada’s best student experience. Our two-year Bachelor of Education (BEd) degree has been designed to address current needs in education to prepare you to become an educational leader on a global scale.

DISCOVER STUDENT LIFE IN WESTERN EDUCATION
Choose to study one of three streams: Primary-Junior (Grade 1-6), Junior-Intermediate (Grade 4-10), or Intermediate-Senior (Grade 7-12).

Gain real-world experience through a combination of course work, in-school practice teaching, and alternative field placements.

Spend as much time working in the field as studying on Western’s campus. During your four-term (two-year) program, you will experience:

- 27 weeks of courses in the faculty;
- 20 weeks of in-school teaching;
- Seven weeks of alternative field experience (field placement or research or leadership project); and
- Weekly professional days (including job fairs and professional liaison events).

Set yourself apart from others by specializing in one of several areas of need in education, including:

- International Education
- Early Childhood Education
- Urban Education
- French Elementary
- French Secondary
- Advanced Studies in Psychology
- Science, Technology, Engineering and Math (STEM) education

GET INVOLVED
Use your Alternative Field Experience to explore other opportunities connected to education and teaching. These experiences can be arranged locally, nationally and internationally – the possibilities are endless.

PREPARE FOR THE FUTURE
Attend our regular, complimentary speaker series – Let’s Talk About Education – to learn about the latest research findings in the Faculty of Education.

Apply the expertise gained in your chosen specialty area towards advanced standing in the Faculty of Education’s Master of Professional Education (MPEd) degree.

APPLY TODAY
Applications are available online in mid-September from the Ontario Universities’ Application Centre (OUAC). Visit www.ouac.on.ca/leas.

Final decisions regarding admission are based on a combination of factors, including extent, depth and breadth of academic background, academic average and strength of the Experience Profile.

Your undergraduate degree need not be completed before you apply, but must be completed before you can begin the program.

Experience with the age group in which you are interested, work experience, travel and other enriching life experiences contribute to a strong Experience Profile.

Information sessions for interested applicants are offered at various times throughout the year. A schedule of these sessions, as well as detailed information about admission requirements, is available on our website: edu.uwo.ca

DEGREE
Bachelor of Education (BEd) (2 Year)

Law

Western Law has a long, proud tradition of producing great leaders in many fields. As Ontario’s second-smallest law school, we are known for our collegial atmosphere and inclusive student experience and we are committed to the success of our students and faculty. In addition to our rigorous and innovative curriculum, you can participate in many clinical programs, advocacy competitions and intensive seminars, which will hone your legal reasoning and practical skills.

DISCOVER STUDENT LIFE IN WESTERN LAW
Complete the following foundational courses in first year: Constitutional Law; Contracts; Criminal Law; Property, Torts; Legal Research; Writing and Advocacy; Orientation to Law and the Legal System; and either Corporate Law or Legal Ethics & Professionalism.

Participate in our signature Small Group program, which allows you to engage with professors in a comfortable setting, receive regular individualized feedback on your work, and develop supportive and lasting friendships with your classmates.

Choose from several optional curricular streams following first year, each of which culminates in a third-year capstone course. The capstone course brings together theoretical, practical and interdisciplinary components so you can apply the knowledge and skills that you have gained over the course of the JD program.

Engage with faculty who produce research that has an impact not just on other scholars, but also on domestic and international policy, business, health, government and civil litigation.

Take your law degree to the next level by combining your JD with a range of programs on campus, including Business or Engineering (at the undergraduate level), or Business, History, Computer Science, or Geology and Geophysics (at the graduate level). Our strength in business law in the global environment is unique among Canadian law schools. We were the first Canadian law school to offer a combined three-year JD/MBA program and we are the only law school in Canada to offer Corporate Law as an option in first year.

We also offer Master’s and PhD programs in Law and Legal Studies, as well as a Graduate Diploma in Mining Law, Finance and Sustainability.

DEGREE
Juris Doctor (JD) (3 years)
DISCOVER STUDENT LIFE IN THE SCHULICH SCHOOL OF MEDICINE & DENTISTRY

Achieve your academic and career goals in an environment where the fundamental importance of compassion is continually reinforced through curricula emphasizing a patient-centred approach.

Gain hands-on experience and engage populations locally and globally through a variety of community service experiences in health centres, multiservice non-profit agencies, schools and public health sites in Canada and throughout the world. This includes the Dental Outreach Community Services (DOCS) program that provides free dental services to low-income families and an electives program for medical students that advances the quality of care to marginalized populations.

Explore your research passions by engaging with hundreds of world-class research teams and investigators within labs at the internationally renowned Robarts Research Institute or across the cities of London or Windsor.

Engage with your peers by getting involved with extracurricular activities providing you with the opportunity to shape the future of the School, impact the community locally or develop policy at the provincial or national level.

MEDICINE

Pursue your Doctor of Medicine (MD) degree through the integrated four-year program designed to provide you with the opportunity to acquire the knowledge, skills and attitudes you need to advance to postgraduate studies, leading to clinical practice, research or other medical careers.

Learn through a blend of lectures, laboratory exercises, small group learning and supervised clinical experience in community and hospital settings at sites in London, Windsor and throughout southwestern Ontario.

Experience a variety of teaching methods including: small group tutorials, problem-based learning, lectures and large group discussions, self-instructed materials and laboratories.

In your first year, you will participate in early patient contact and are already seeing the benefits to their training. The new state-of-the-art facility offers digital x-rays, endodontic microscopes, computers for each student and cameras that allow professors to broadcast the lecture to everyone's computer.

Meet Amanda and Nikola

Second-year Dentistry students Amanda and Nikola spend a significant amount of time in the new Simulation Laboratory and are already seeing the benefits to their training. The new state-of-the-art facility offers digital x-rays, endodontic microscopes, computers for each student and cameras that allow professors to broadcast the lecture to everyone’s computer.

“I expected in the first few weeks of medical school to learn about treatment and diagnosis and all of the different procedures and routines. But I love the fact that there is also a focus on what kind of person you want to be, and what kind of doctor you want to be.”

Gunjan Mhapankar

Medicine Class of 2020

Focus on the fundamentals and basics of clinical sciences necessary to complete patient assessments during your first year. Learn techniques, procedures and dental skills in the pre-clinical Simulation Laboratory, an environment that resembles a real dental operatory.

Integrate your knowledge, diagnosis and treatment planning during your second and third years as you prepare for your fourth year when you will gain hands-on experience in patient care clinics including the main, paediatric, oral surgery and emergency clinics.

Participate in DOCS, providing care to the community’s most vulnerable populations.

Continue your formal dental education following graduation by pursuing internships, residencies and specialty training.

PROFESSIONAL DEGREES

• Doctor of Medicine (MD) (4 years)
• Doctor of Dental Surgery (DDS) (4 years)

COMBINED PROFESSIONAL DEGREES

• Doctor of Medicine (MD) with Doctor of Philosophy (PhD) (7 years)

UNDERGRADUATE DEGREES

• Bachelor of Medical Sciences (BMSc) offered jointly with the Faculty of Science (4 years – both Honors and four-year degrees offered)
• Bachelor of Medical Sciences (BMSc) with an Honors Business Administration (HBA) – a combined program offered jointly with the Ivey Business School (5 years)
• Bachelor of Science (Honors BSc) in Neuroscience (4 years)

$5M AVAILABLE IN SCHOLARSHIPS AND AWARDS.

The Schulich School of Medicine & Dentistry offers a comprehensive curriculum designed to educate and train leaders in education and research, and to advance medical and dental sciences globally. The School is recognized as a world leader in education and research, and for the development of unique academic, public and professional partnerships. More than 3,000 learners have made the Schulich School of Medicine & Dentistry their home each year to pursue their academic and career goals.
AFFILIATED UNIVERSITY COLLEGES OF WESTERN

Brescia, Huron and King’s, as Affiliated University Colleges, contribute to the dynamic student experience at Western University. Students enrolled at these unique communities, all within steps of Western’s Main Campus, enjoy the benefits of a small-campus experience while having access to one of Ontario’s most comprehensive universities.

As an Affiliated University College student, you are a Western student. You enjoy an integrated and vibrant student community. While you are required to take a certain number of courses for your degree at the affiliated campus at which you are registered, you have the opportunity to explore course options and program combinations across the Western community (subject to registration constraints and not applicable to limited enrolment programs on Main Campus).

These programs are only some of the degree options available at the affiliated campuses. Brescia, Huron and King’s programs are separate choices on your OUAC application and are listed directly underneath Western’s Main Campus programs.

Brescia: Community Development, Family Studies, Foods and Nutrition, Leadership, Management and Organizational Studies (Food Management, Nonprofit Management)

Huron: Global Studies, Globalization Studies, Global Health Studies, Governance, Leadership & Ethics, Management and Organizational Studies (Organizational Studies, Policy & Ethics), Philosophy in Commerce, Psychology, Theology

King’s: Social Justice & Peace Studies, Childhood & Social Institutions, Catholic Studies for Teachers, Disability Studies, Social Work, Management and Organizational Studies (including Global Commerce) and Foundations in Western Thought and Civilization

You will receive a WesternONE student card, which provides complete access to athletics, clubs, libraries and many other services offered at Western including varsity athletics.

Your degree will be granted by Western University, therefore, you will receive an internationally recognized Western degree.

SEE WHAT THE AFFILIATED UNIVERSITY COLLEGES HAVE TO OFFER

Tours can be coordinated so you can enjoy the distinct environment of all four campuses at Western. Welcome Days and Open Houses are a perfect opportunity for you to explore the affiliated campuses and meet members of their diverse and welcoming communities.

SCHOLARSHIPS
At Huron, we’re proud of what our students accomplish and we’re committed to rewarding academic excellence and community service. We set our bar high, because we know you do, too.
All students applying to Huron with a final average of 80 per cent or higher are guaranteed a renewable admission scholarship. (Averages will be converted to Western University’s grading scale for admission and scholarships.)

SCHOLARSHIP  AVERAGE  VALUE
Helmuth Sholarships  90%+ (supplementary application required)  $1,000 (non-renewable)
Huron Scholarship of Excellence  95%+  $3,500 (non-renewable)
Huron Scholarship  90 – 94.9%  $3,000 (non-renewable)
Huron Entrance Award  85 – 89.9%  $2,500 (non-renewable)
Huron Entrance Award  80 – 84.9%  $1,500 (non-renewable)

RESIDENCE
Residence is more than just a place to stay. At Huron, we provide you with personalized support to live on your own for the first time. We help you find your way and make the most of your Huron experience. We also offer you special programming to help you grow as leaders.

The benefits of living in residence at Huron include:
• Guaranteed spots for all first-year students:
  • All single rooms;
  • Helmuth Scholarship holders get preference in room choice;
  • Upper class “Dons” and “Sophs” show you the ropes;
  • Social events on every floor (i.e., dinners, murder mystery parties, pinning championship, etc.);
  • Opportunities to build skills in writing, research, budgeting, time management, stress busting and more;
  • Discover how to be a leader;
  • Explore different cultures and share Canadian customs with international students; and
  • Chill with new friends in our lounge spaces.

Almost 70% of Huron students live in residence.

DISCOVER LEADERSHIP WITH HEART AT HURON
For more than 150 years, Huron University College has delivered an elite university experience. Building on this foundation of excellence, in 2016 Huron’s Principal announced his vision to redefine Liberal Arts education to develop Leaders with Heart. Huron’s drive to nurture students’ capacity for conscientious leadership is transforming Western University’s founding institution. In the spirit of fostering wisdom, foresight and integrity, Huron integrates social responsibility, ethical leadership and community engagement with the traditional advantages of the Liberal Arts.
Huron believes every student with the passion for creating tangible change deserves to access the knowledge to understand the world and to shape it. Huron aims to empower Leaders with Heart from all backgrounds, including the historically underrepresented. All students who want to be challenged by exceptional faculty and peers in intimate classroom settings will thrive at Huron.
If you’re ready for a unique educational experience, we look forward to developing your individual gifts in ways that benefit humanity. Together, Leaders with Heart will make the world more human.

UNDERGRADUATE PROGRAMS
Arts (EHA): East Asia Studies; English; French; Jewish Studies; Philosophy in Commerce; Philosophy – Reasoning & Ethics

King’s University College
kings.uwo.ca | kings@uwo.ca | 519.433.3491

King’s University College is a Catholic university affiliated with Western University. With approximately 3,500 undergraduate students of which approximately 500 are international, King’s is committed to the ongoing creation of a vital academic community animated by a Christ-inspired love of learning and the pursuit of truth.
Founded in 1954, King’s provides degree programs in Liberal Arts education in areas such as Business, Accounting, Social Sciences, Arts, Childhood and Social Institutions, Disability Studies, Social Justice and Peace Studies, Thanatology and Social Work, as well as a Master’s degree in Social Work. King’s is renowned as a centre of teaching excellence, positioned in the top rank of institutions of higher learning in Canada for the quality of its teaching faculty.
Average first-year class sizes of 50, intensive student/faculty interaction, quality programs, comprehensive student services and a sense of community are all factors which create an excellent living and learning environment for students and are why students choose King’s. Combined with Western’s world-class facilities and reputation, as well as receiving a Western degree, King’s offers ‘the best of both worlds.’

UNDERGRADUATE PROGRAMS
Management and Organizational Studies (EKD): Management and Organizational Studies; Finance and Administration, Global Commerce; Organizational and Human Resources; Accounting
Arts (EKA): Catholic Studies; Catholic Studies for Teachers (CST); English; French; Jewish Studies, Philosophy; Religious Studies, World Religions and Cultures; Foundations in Western Thought and Civilization

Social Justice and Peace Studies (EKS): examines families and children in constantly changing social, economic and political conditions.

Social Science (EKO): Criminology; Disability Studies; Economics; Financial Economics; Finance, Finance and Wealth Management (Collaborative program with Fanshawe College); History; Middle East Studies; Political Science; Psychology; Sociology; Thanatology (Third-year Bereavement Studies)

Social Work (EKs): BSW – Third Year Entry Only

SCHOLARSHIPS
All students with admission averages of 80 per cent or higher are guaranteed a King’s Entrance Scholarship. The scholarship values are as follows:

APPLICATION CHECKLIST

- Choose a First-Year Faculty/Program
  With 11 Faculties and more than 400 different specializations, majors and minors, Western offers amazing academic choices, flexibility and unique programming to our students. Refer to pages 32-35 or visit welcome.uwo.ca/programs

- Review the Admission Requirements for Your Program
  Determine if you have the requirements for your program of choice by reading the admission criteria in this viewbook, by visiting our website at welcome.uwo.ca/admissions/admission_requirements or by contacting us directly at reg.admissions@uwo.ca

- Review Application and Supplemental Profile Deadlines
  Apply early! Timing is everything and we know you have a lot to remember. Review our important dates and update your calendar: welcome.uwo.ca/admissions/deadlines.html

- Apply
  Visit welcome.uwo.ca/admissions/how_to_apply for details on how to apply. Applications are available online and are easy to complete. If you want to be considered for more than one Faculty/Program, list each as a separate choice. Western does not extend alternate offers of admission from one program to another.

- Send Us Your Documents
  Once you have submitted your application, the Admissions Office will let you know what documents are required to complete your application and how to submit them. For a list of mandatory forms and voluntary supplemental admission profiles see page 76.

- Check Your Application Status
  We offer a number of online resources to help you stay connected throughout the admissions process. From your Western Student Center (student.uwo.ca) to important notifications on Facebook and Twitter, we want to provide you with the information you need.

DETERMINE YOUR APPLICANT TYPE

- A detailed outline of the requirements for each Applicant Type listed below can be found online at welcome.uwo.ca/admissions/admission_requirements

Canadian Secondary School Applicant
You are a secondary school student who has already graduated or will be graduating in June, with the required secondary school courses for admission.

Ontario Secondary School:
Check pages 78-80 for admission and program information. You will be considered based on six Grade 12 U and/or M level courses (excluding co-op) including ENG4U and program prerequisites. Grade 12 prerequisite courses will be included in the calculation of your mid-year and final admission average.

Make sure to review important dates and deadlines for Western and the OSSLT, curricular, your eligibility for admission will be based on the criteria above. You may be considered for transfer credit if you exceed 80 requirements below.

Secondary School in a Canadian province outside of Ontario:
Check pages 82-83 for a detailed list of course requirements, other admission requirements and recommendations for your program of interest.

CEGEP Applicant
You are enrolled in the pre-university CEGEP program and have completed a minimum of 12 academic semester credits (excluding Physical Education) and have a minimum average of 80 per cent for admission consideration.

If you are registered in or have completed year two in the pre-university program, you may be eligible for transfer credit consideration depending on:
  - Your program of study in CEGEP;
  - Grades in courses eligible for transfer credit consideration (a minimum overall average of 75 per cent); and
  - Your desired program of study at Western.

Secondary School Applicant from Outside of Canada
You are a secondary school student graduating from a school outside of Canada. You will be adjudicated under the admission requirements pertaining to the country and education system in which you are studying.

Prerequisites are required for some programs at Western. See pages 78-80 as a guide or contact Undergraduate Admissions for specific requirements for your curricula.

International Baccalaureate Applicant
You have completed the full International Baccalaureate Diploma including:
  - Six subjects, of which three must be at the Higher Level;
  - A minimum grade total of 28*, including bonus points awarded for the successful completion of the Extended Essay and Theory of Knowledge;
  - No mark less than 4 on any individual subject; and
  - Prerequisites required for your program as specified by Western.

If you are currently in progress, you may be considered for admission based on your predicted IB results.

You are eligible for transfer credit consideration for most Higher Level subjects with a score of 5 or higher if you have successfully completed the full IB diploma and meet Western’s admission criteria.

Note:
* The minimum grade total quoted above is the minimum required for admission consideration. Competitive admission based on predicted results is usually in the low to mid 30s and can vary depending on the program.

Mature Applicant
You are a Canadian citizen or permanent resident who will be 21 in the calendar year in which admission is sought and do not meet the minimum academic requirements for any other applicant type.

Additional requirements for consideration under the mature applicant guidelines can be found online at welcome.uwo.ca/admissions/admission_requirements

You will be required to submit supplementary information if applying for full-time admission through the Mature Applicant Supplementary Form. welcome.uwo.ca/admissions/forms

College of Applied Arts and Technology (CAAT) Applicants
You are studying at an Ontario college and have a minimum overall average of 78 per cent in a two- or three-year diploma program or an 80 per cent in the first-year of a recognized General Arts and Science program. If you are completing a two- or three-year diploma, you may be eligible for transfer credit.

University Transfer Applicant
You are currently studying at another university but you want to transfer to Western to complete your degree. You have achieved a minimum final overall average of 70 per cent (B-) and graduated secondary school or equivalent with an acceptable academic average. Your transfer credit will be assessed when we assess your application for admission.

If you have already been granted a degree that is equivalent to at least a three-year bachelor’s degree from Western and your degree is from an accredited university that is recognized by Western, you will be considered under our Special Student admission requirements. Special Students normally wish to take undergraduate courses for the purpose of upgrading.

Applicants Seeking Readmission
You are seeking readmission to Western or an Affiliated University College (Briggs, Huron or King’s) following withdrawal for unsatisfactory academic standing. Submission of an application for admission and the Reconsideration of Admission form is required along with supporting documents for review by the Admission Committee.

Aboriginal Applicants
You are Aboriginal as defined on the Canadian Constitution Act 1982 (First Nations, Métis, Inuit) and are seeking an accessible admission pathway. Western is committed to increasing access to postsecondary education for Indigenous learners and has created an Aboriginal Access Category to encourage applications from Aboriginal individuals.

Contact Indigenous Services
Tel: 519.661.4095 or ext. 661.4095
Email: is.staff@uwo.ca
Visit indigenous.uwo.ca for more information.
ACCEPTABLE ENGLISH LANGUAGE PROFICIENCY REQUIREMENTS

If your first language is not English, you will be required to provide acceptable proof of English language proficiency. You are encouraged to write a test at the earliest possible date and before March 2018. Scores for any test written before January 1, 2016 will not be accepted. The Undergraduate Admissions Office reserves the right to require any applicant to write a test of English proficiency.

Additional details regarding acceptable proof of English proficiency can be found on our website at: welcome.uwo.ca/admissions/admission_requirements/english_language_proficiency.html

</tbody>
</table>

WESTERN ENGLISH LANGUAGE CENTRE (WELC) – ENGLISH BOOST PROGRAM

The English Boost Program provides nine weeks of study for students who are just below the English standard for admission to their degree program. The program begins in early July and student success is cultivated by developing communicative skills – reading, writing, listening and speaking – in combination with the cultural knowledge required to succeed in Western’s demanding academic environment. All applicants to Western’s Main Campus are considered for entry into the English Boost program. No additional application is required.

*Please see Important Dates on page 85 for program specific and supplemental information deadlines.*
These forms supplement your application and afford you a means to provide additional and/or required information to us. A complete list of available forms can be found on our website at: welcome.uwo.ca/admissions/forms

**SUPPLEMENTAL ADMISSION APPLICATIONS AND PROFILES**

**FACULTY & PROGRAM-BASED APPLICATIONS AND FORMS**

- **Bachelor of Fine Arts – Studio Portfolio**
  - Applicants must submit a digital portfolio and personal statement online at: westernu.slideroom.com
  - Visit: uwo.ca/visarts/undergraduate | Deadline: February 15, 2018

- **Commercial Aviation Management (CAM)**
  - Applicants must complete a Supplementary Application Form.
  - Visit: welcome.uwo.ca/admissions/forms/commercial_airvation_management_cam_supplementary_application_form.html | Deadline: February 15, 2018

- **Engineering – Optional**
  - Applicants are encouraged to complete a supplementary application form which gives them the opportunity to describe their leadership potential, engagement and initiative, and passion for engineering. View: eng.uwo.ca/future_undergrad/admissions | Deadline: January 17, 2018

- **Ivey Advanced Entry Opportunity (AEO)**
  - Applicants must indicate interest on the OUAC application and complete a supplementary application available through the Ivey Business School website. See page 63 or visit: ivey.uwo.ca/hba/application-process | Deadline: January 17, 2018

- **Music – Audition and Interview**
  - Audition and/or interview may be requested to support your application. Auditions can be booked once you have applied through the OUAC. Visit: music.uwo.ca/future-students/undergraduate/undergraduate-admissions.html

- **Scholar’s Electives**
  - Applicants must indicate interest on the OUAC application and complete a supplementary application through the Scholar’s Electives website. Visit: scholarselectives.uwo.ca | Deadline: February 14, 2018

- **School for Advanced Studies in the Arts & Humanities (SASAH)**
  - Applicants must indicate interest on the OUAC application and complete a Statement of Interest. Visit: uwo.ca/arts/sasah | Deadline: February 28, 2018

- **Western Integrated Science (WISC)**
  - Applicants must indicate interest on the OUAC application and complete a supplemental application through the Faculty of Science website. Visit: uwo.ca/sci/WISC/program | Deadline: March 18, 2018

**NATIONAL SCHOLARSHIP PROGRAMS**

- **National Scholarship Program**
  - This program is designed to recognize all-around excellence based on the merit of your academics, innovation and extracurricular activities. Submit your application for admission through the OUAC, complete the National Scholarship online application and submit supporting documents. See page 28 or visit: registrar.uwo.ca/student_finances/scholarships_awards/national_scholarship_program.html | Deadline: February 14, 2018

- **Extraordinary Extracurricular Activities and Contributions to Citizenship Profile – Optional**
  - This supplementary profile allows you to communicate your commitment to extracurricular activities and active citizenship through your ongoing contributions to school and community life. If you feel your average will fall marginally below the University’s minimum admission requirements and you have made significant contributions, you are eligible to submit a profile. Visit: welcome.uwo.ca/admissions/forms | Deadline: March 1, 2018

- **Special Consideration Profile – Optional**
  - This profile is an opportunity for you to provide information about circumstances that may have adversely affected your academic performance in secondary school. Circumstances may include financial issues, required employment, disability or illness, or other personal or family matters. Visit: welcome.uwo.ca/admissions/forms | Deadline: March 1, 2018

**NATIONAL SECONDARY SCHOOL ADMISSION REQUIREMENTS**

To be considered for admission to first year on the basis of a Grade 12 Diploma from any province in Canada, you must obtain a minimum 80 per cent average as calculated by Western and have the prerequisites for your program as specified by Western. Please refer to pages 78-80 (Ontario) and 81-83 (all other provinces) for further information. Admission is competitive and as such having the minimum requirements should not be viewed as a guarantee of admission.

- **ALBERTA**: Five academic courses numbered 30, 30.1 or 31 including English Language Arts 30-1.
- **BRITISH COLUMBIA**: Four academic courses at the Grade 12 level including English 12.
- **MANITOBA**: Five academic courses numbered 40 including English 40S.
- **NEW BRUNSWICK**: Five academic courses at the Grade 12 level including English 12.
- **NEWFOUNDLAND AND LABRADOR**: Ten (10) academic credits (5.0 courses) at the Grade 12 level numbered 3000 or above including English 3201 (2 credits).
- **NORTHWEST TERRITORIES/NU纳夫尤特**: Five academic courses numbered 30, 30.1 or 31 including English Language Arts 30-1.
- **NOVA SCOTIA**: Six Grade 12 U and/or M level courses including all required program prerequisites.
- **ONTARIO**: Six Grade 12 U and/or M level courses including all required program prerequisites.
- **PRINCE EDWARD ISLAND**: Five academic courses at the Grade 12 level including English 621.
- **QUEBEC**: CEGEP (DCE) Level 12 academic semester credits; or completion of six Grade 12 academic courses.
- **SASKATCHEWAN**: Five academic courses at the Grade 12 level including English A30 and English B30.
- **YUKON**: Four academic courses at the Grade 12 level including English 12.

For a list of acceptable academic courses please visit: welcome.uwo.ca/admissions/admission_requirements/canadian_secondary_school

*Applying through the completion of a secondary school MATH 30 may be required for programs that highly recommend calculus.

---

*Applying through the completion of Western’s Math 0110 may be required for programs that highly recommend calculus.
IMPORTANT – ACCESS YOUR WESTERN STUDENT CENTER ACCOUNT

Once you have completed your application for admission to Western, you will receive an acknowledgement email from the Admissions Office. This email will provide you with your Western Student ID and give you step-by-step instructions on how to access your Student Center Account.

Western’s Student Center will help you track the receipt of your documents in the Undergraduate Admissions Office and provide you with up-to-date information on the status of your application. Documents that are required by the Admissions Office in order to assess your admissibility to Western will be referenced in your ‘To Do’ list, located in your Western Student Center.

Grade Submission
Applicants currently enrolled full-time in an Ontario secondary school and who have applied using the 101 application form will have their grades automatically submitted by their secondary school.

Some applicants may be able to either self-report their grades, have their school submit predicted scores electronically, or upload copies of their transcripts. If this is a possibility for you, this information will be included in your ‘To Do’ list on your Western Student Center. The submission of an official final transcript will be required for any final grades achieved.

If a secondary school course has been taken more than once, the highest reported successful grade will be used for admission purposes for applicants applying from secondary school.

College and university transfer applicants from within Ontario are able to request electronic copies of their official transcripts when completing the online application through OUAC. Please watch for the prompts and note the timelines for sending transcripts carefully.

All other applicants are responsible for ensuring that their school submits official transcripts as soon as grades become available.

Submission of Supplemental Documentation
Prepare and submit any supplementary forms and required test results; make arrangements for auditions, portfolios, English proficiency tests or SAT, etc. required by the Admissions Office. Refer to your ‘To Do’ list or contact Admissions if you are unsure what supplemental information is required. Be sure to meet all deadlines!

Official Transcripts
An official transcript is one that is sent in a sealed envelope directly from the issuing institution to Undergraduate Admissions at:

Western University

Since 1878, Western University has been a destination of choice for the world’s brightest minds seeking the best learning experience at a research-intensive university.

PAVE THE ‘RHODES’ FOR SUCCESS
Western is very supportive of the Rhodes Scholarship program which is recognized among the world’s most prestigious and best-known student awards. We are extremely proud of our 22 successful candidates, including Saumya Krishna, BHSc’13, a Health Sciences graduate who went on to study sociology and globalization at Oxford University. Today, Saumya is an Associate with McKinsey & Company, a global management consulting firm that serves leading businesses, governments, non-governmental organizations and not-for-profits.

BECOME THE NEXT GLOBAL PIONEER IN STEM
Since 2012, Western has welcomed 14 recipients of the Schulich Leader Scholarships, a prestigious award given to students pursuing studies in science, technology, engineering or mathematics (STEM) at a top Canadian university. This year, two high-achieving students began their studies at Western: Luke Ingratta (left) and Joy Shah. Luke joined the Faculty of Science and Joy entered Western Engineering.

DEVELOP LIFE-CHANGING FRIENDSHIPS
In 2006, Phil Pallen, BA’10 (MIT), and Lauren Moore, BA/BHSc’10, were two Western frosh trying to make new friends during the chaos of Orientation Week. A decade later, that friendship has blossomed into a brand-strategy business partnership that’s taking the pair around the world, from working with reality show celebrities in Los Angeles to conducting brand-building workshops in spots like New York, Orlando, Stockholm and London.

MAKE YOUR DREAMS A REALITY
Michael Katchen, HBA’09, has been named to Canada’s Top 40 Under 40 for 2017. He is the founder and CEO of Wealthsimple, the largest online investment manager in Canada. The financial technology company offers an alternative to traditional ways of managing investments, catering to consumers – in particular, Millennials – who are comfortable with online banking and investing. Michael credits a business competition he won at the Ivey Business School for setting off a chain of events that launched his entrepreneurial career.

For 135 years, Western has graduated alumni who are respected innovators and influencers in their field. Some of our notable alumni include Dr. Margaret Chan, BA’73, MD’77, DSc’99, former Director-General of the World Health Organization; Stephen S. Poloz, MA’79, PhD’82, Governor of the Bank of Canada; and Cameron Bailey, BA’87, Artistic Director of the Toronto International Film Festival.
