March Break Open House
Saturday, March 9, 2019
Kick your academic experience up a notch.

**Scholar’s Electives** | scholarselectives.uwo.ca
---
Do you want to do research at the undergraduate level? Do you want to pursue higher education at the postgraduate/professional level? If yes, apply!

**Deadline to apply:** February 14, 2019

**Western Scholars** | westernscholars.uwo.ca
---
Together with other outstanding students, you will learn and grow as global citizens in an engaging, enriching and inspiring environment. No application necessary, but you do need a 90 per cent average.

**School for Advanced Studies in Arts & Humanities (SASAH)** | uwo.ca/arts/sasah
---
Study humanities at the next level, including learning a second language, hands-on experiences, digital engagement and international travel.

**Deadline to apply:** February 28, 2019

**Western Integrated Science (WISc)** | uwo.ca/sci/WISc/program
---
Our world’s challenges are broad. Learn how to tackle climate change, world hunger, alternative energy, or another global challenge from multiple scientific disciplines.

**Deadline to apply:** March 17, 2019

**Professional second-entry programs**
Second-entry programs require some years of undergraduate study before you can start. At Western, we offer second-entry undergraduate programs in business, dentistry, law, education and medicine. Read more about these programs on pages 43-49.

---

### The Modular Degree Structure – How does it work?

Modules can be combined in the three different types of degrees offered, as shown in the chart. For example, if you are planning to complete a four-year Honors Bachelor Degree, you can do an Honors Specialization in Health Sciences and a Major in Film Studies or a Major in Biochemistry and a Major in Mathematics. There are thousands of possible combinations at Western!

1. An Honors Specialization Module is comprised of 9.0 or more credits and is available only in an Honors Bachelor Degree (4 year).
2. A Specialization Module is comprised of 9.0 or more credits and is available only in the Bachelor Degree (4 year).
3. A Major Module is comprised of 6.0–7.0 credits and is available in all three degree types.
4. A Minor Module is comprised of 4.0–5.0 credits and is available in all three degree types.

### DEGREE TYPE | AVAILABLE MODULE COMBINATIONS
---
**The Honors Bachelor Degree (4 year)**
- 15.0 credits after first year
- Honors Specialization
- Honors Specialization – Major
- Honors Specialization – Minor
- Major – Major

**The Bachelor Degree (4 year)**
- 15.0 credits after first year
- Specialization
- Specialization – Major
- Specialization – Minor
- Major – Major
- Major – Minor
- Major – Minor – Minor

**The Bachelor Degree (3 year)**
- 10.0 credits after first year
- Major
- Major – Minor
- Minor – Minor

---

### LET’S TALK PROGRAMS

You have choices.

**Explore as much as possible.**

Programs within Arts & Humanities, Health Sciences, Kinesiology, Science, Social Science or Media, Information & Technoculture

During the first year, your courses will be a combination of prerequisites for the program you want and the electives you choose. You can take electives from almost any faculty. At the end of your first year, choose the program you want to study.

**Engineering, Medical Sciences, Music, Nursing**

You will focus primarily on your field. Though most of your first-year courses will be predetermined, you still have an opportunity to explore within your field throughout the duration of your program and specialize further after your first year.

You have flexibility.

**Specialize in one area or combine your two passions.**

Western’s modular degree structure gives you flexibility with your degree. In many cases, you can combine programs from different faculties, schools or departments; or you can focus on a specific subject in greater depth.

A module is a collection of courses (defined by a Faculty or Affiliated University College) in an area of study. The more courses in a module, the higher the level of specialization.

**Looking for an academic challenge?**

**Graduate with two degrees instead of one.**

**Concurrent Degrees:** Study two major modules at the same time, like Applied Math and Engineering, or Kinesiology and Music.

**Combined Degrees:** Combine your degree with one of Western’s professional faculties, like the Ivey Business School, Schulich School of Medicine & Dentistry or Western Law.

See what’s available in your faculty on pages 6-41.
PACK YOUR BAGS: STUDY, VOLUNTEER OR WORK ABROAD
Integrate international experiences into your university education. Take a Study Tour course and travel to Italy, Rwanda, Greece, Spain, England, Cuba or New York.

EXPLORE INTERNSHIPS IN MUSEUMS, PUBLISHING, THEATRE AND MORE
New for 2018! Complete an internship in your third year and beyond. Gain resume-building skills and practical knowledge so you graduate career-ready.

DEGREES: Bachelor of Arts (BA); Bachelor of Fine Arts (BFA)

*Available as a minor only; cannot be completed as a degree alone.
DISCOVER THE SCHOOL FOR ADVANCED STUDIES IN THE ARTS & HUMANITIES

Engage with society’s global challenges. When you study in this unique liberal arts program, you will receive a transformative education that includes interdisciplinary studies, second language acquisition, experiential learning, engagement with the digital world, and international travel and exchange.

GET INVOLVED

Join one of our many clubs; participate in the Western Student Film Festival; get published in a student journal; exhibit art in our Artlab Gallery; or act in our Summer Shakespeare program.

STUDY IN STATE-OF-THE-ART FACILITIES

University College, home to the Faculty of Arts & Humanities (and Western’s iconic tower), is ready to welcome students after an extensive revitalization project. The new space features multi-level, open-concept student space; contemporary classroom space and improved technology; and brighter, more accessible building access overall. Positioned in the heart of Western’s Main Campus, University College is an inspiring setting for twenty-first century learning.

PREPARE FOR THE FUTURE

Enter the rapidly changing workforce with confidence thanks to the creative thinking and foundational skills you will acquire during your undergraduate studies. Our undergraduate programs offer excellent preparation for professional study in fields such as law, education, business and medicine. Graduate with two degrees in less time than it would take to complete them separately by pursuing a combined degree with the Ivey Business School.

Attend our career and alumni networking events and participate in workshops through Western’s Student Success Centre.

Meet Victoria

Combined Degree – Visual Arts & Ivey HBA, Internship in the Arts at Satellite Project Space

“My internship at Satellite Project Space was a chance to apply the skills I learned in class to a real-world gallery. I worked with arts institutions across the city and regularly met with students, artists, professors and gallery staff. Under the supervision of an amazing mentor, I gained invaluable experience crafting independent projects, implementing marketing initiatives and drafting a business plan. The internship taught me a lot, grew my network and expanded my resume.”

Still waiting for your Hogwarts letter?

We have the next best thing. An English course about Harry Potter.

Our unique programs and academic choices are just one of the reasons to choose Western.

GRADUATE WITH A BESc AND HBA
130+ students are enrolled in the Engineering (BESc)/Ivey (HBA) Combined Degree option.

GET INVOLVED
More than 500 Western Engineering students participate in faculty-based groups, clubs and teams, university-wide programs and volunteer opportunities, gaining hands-on engineering experience and building new networks of friends.

TECHNICAL DIPLOMA
Bachelor of Engineering Science (BESc)

TAKE YOUR STUDIES TO THE NEXT LEVEL

- Internship/Co-op
- International Activities
- Research
- Externship
- Engineering Leadership and Innovation Certificate
- Combined Degrees with the Ivey Business School, Western Law and Concurrent Degrees with other modules on campus
- New this year — students can complete a Combined Degree with Biomedical Engineering and Chemical, Electrical, Mechanical or Mechatronics Engineering

LEARN IN THE REAL WORLD
Last year, more than 50% of Western Engineering students graduated with co-op, internship or research experience.

LINAMAR SCHOLARSHIPS FOR WOMEN IN ENGINEERING AND BUSINESS
This Scholarship supports up to 10 female students entering HBA 1 with the intention of completing the Combined Degree in Engineering and Ivey (BESc/HBA) with the following: half tuition costs for the rest of your undergraduate degree, an automatic summer co-op position with Linamor Corporation, and guaranteed employment at Linamor Corporation upon the conclusion of your degree.

STUDY IN WORLD-CLASS FACILITIES
Opening this year, Engineering’s new 100,000 sq. ft. building, ThreeC+ will redefine the Western Engineering experience. All new facilities will combine classroom theory with hands-on learning for students to design, build, test and refine ideas.

DEGREE: Bachelor of Engineering Science (BESc)
DISCOVER OUR STUDENT EXPERIENCE

Common First Year
During the common first year you develop a close bond with your first-year classmates in a cohort of approximately 600 students. It also provides you the opportunity to explore all areas of engineering before selecting your program of choice at the end of first year.

Define your academic experience in flexible and exciting ways. Create your own academic journey tailored to your individual interests and aspirations.

GET INVOLVED
Internships, Co-ops and Externships
Gain hands-on experience with a year-long internship and/or a summer co-op. Enhance your engineering education with our Practical Elements of Mechanical Engineering externship in collaboration with Fanshawe College.

Student Clubs
Get involved with teams such as Formula Racing, Concrete Canoe, Toboggan Team, SunStang, WE MARS, the Women in Engineering student group and many more.

International Exchanges
Internationalize your engineering experience with the Civil Engineering International Development Program, Engineers Without Borders, exchanges and/or research-funded opportunities.

STUDY IN STATE-OF-THE-ART FACILITIES
Collaborate with other students in spacious lounges, study spaces and a cafeteria within our four engineering buildings on Western’s campus.

Learn in state-of-the-art classrooms and laboratories such as the Claudette MacKay-Lassonde Pavilion (Western’s first LEED Gold certified ‘green building’) which hosts space for student engagement and educational experiences through hands-on design opportunities.

Design the future in ThreeC+. Our new building houses design labs and active learning spaces for experiential and co-curricular learning. We aspire to achieve LEED Platinum certification for this state-of-the-art facility.

PREPARE FOR THE FUTURE
Become a Leader
Great engineering careers are built on leadership and innovation. Western offers a Combined Degree with Ivey (HBA) where graduates are prepared to work in nearly every industry. Or you can choose to enhance your degree with the Engineering Leadership and Innovation Certificate.

Network with current students in programs such as our Super Tutor program or our Big Sister/Little Sister mentorship program for female students.

Secure your first job with help from Western Engineering’s Career Services Office which offers resume and cover letter review, interview preparation and career planning meetings to assist you in finding employment opportunities that are right for you.

Combined Degrees
Graduate with two degrees in less time than it would take to complete them individually through a Combined Degree with Ivey, Western Law and Biomedical Engineering.

VISIT OUR TOP 10 REASONS TO CHOOSE WESTERN WEBSITE TO LEARN MORE.
welcome.uwo.ca/top_10

Meet Shoshauna
Combined Degree – Chemical Engineering & Ivey HBA
“This program has allowed me to explore my passion for both chemistry and business through eye-opening experiences inside and outside of the classroom”.

Last year, Shoshauna took part in an international experience where she travelled to France to study chemical engineering.

“I saw the subject through a new lens and learned alongside peers from France, Switzerland and Germany. Being exposed to their diverse viewpoints illustrated the importance of culture and its influence on the industry.”

Where in the world will your Western degree take you?
Global connections are just one of the reasons to choose Western.
DISCOVER OUR STUDENT EXPERIENCE
Develop an appreciation for the world’s emerging health issues and be inspired to think globally and strategically to create innovative solutions while earning a Bachelor of Health Sciences (BHSc) degree.
Build your own degree with a variety of module and elective options that allow you to tailor your program of study to meet your interests. Visit our website for more information.
Focus your learning experience on improving human health and developing unique skills and perspectives to tackle health-related issues affecting people in all corners of the world.
Examine health through a variety of lenses to gain an appreciation for how social, political, economic and environmental factors impact people across the lifespan.

GET INVOLVED
Community Service Learning
Work with local organizations and develop real solutions to health-related issues facing seniors in the community through a course called Gerontology in Practice.
International Experiences
Explore health and wellness on an international scale through the Leaders of the Future internship program at globally impactful agencies like the World Health Organization.
Learning it Together
Participate in a student-run health promotion program that aims to improve literacy, numeracy and healthy-living skills in elementary school children through mentorship and role modelling.
Health Care Challenge
In this case-based competition, work with a team of your classmates and apply knowledge gained in the classroom to develop ideas for building resilient health systems in Canada and beyond.

STUDY IN STATE-OF-THE-ART FACILITIES
Take a virtual tour of the human body in Western’s 3-D Anatatorium, which uses advanced technology to give you a comprehensive understanding of anatomy.
Conduct research in labs dedicated to health promotion, knowledge translation, and health and aging to apply what you have learned in the classroom.
Turn the community into a classroom and study with world-class researchers to develop a deeper understanding of areas such as health and aging, health promotion, health-care systems development, and child and youth health.

PREPARE FOR THE FUTURE
Attend our annual Career Directions Fair that brings students together with employers and graduate schools to help you explore your career options.
Build a skillset and knowledge base that will prepare you for a variety of careers in health-related fields.
Take your health-related knowledge and pursue a research degree or a career in medicine or dentistry.
Graduate with two degrees in less time than it would take to complete them individually through a combined degree with the Ivey Business School.

MAKE A DIFFERENCE
Community engaged learning courses help you impact the health and wellness of your local community.
GO GLOBAL
Discover how other parts of the world tackle health-related issues through our international Aging Globally course. Dina is seen here travelling through Scandinavia as part of the course. She learned from the best healthcare systems in the world when it comes to disease prevention, management of chronic disease, well-being and health-related quality of late life.

DISCOVER OUR STUDENT EXPERIENCE
Focus on areas such as human movement and rehabilitation, fitness and exercise, sport management and the cultural impact of sport.

With a common set of first-year courses combined with elective options, explore all areas of Kinesiology before selecting your module prior to entering second year.

Study in a program that offers the broadest range of activity courses of any Kinesiology program in Canada with options including exercise for specific populations, personal training and team-based sports.

Take the theory learned in the classroom and apply it in the field with an internship or practicum placement in fourth year.

GET INVOLVED
International Experiences
Spend a semester on an exchange at one of 14 partner institutions around the globe and discover the international power of physical activity and sport.

Learning it Together
Participate in a student-run health promotion program that aims to improve literacy, numeracy and healthy-living skills in elementary school children through mentorship and role modelling.

Field Experiences and Internships
Gain hands-on experience through practical learning opportunities in areas such as community sport, athletic therapy, and activity and aging.

Student Clubs and Councils
Join the Kinesiology Students’ Association, Kinesiology Winter Special Games, Faculty of Health Sciences Dream Team, help support Camp Trillium and more.

STUDY WHAT YOU LOVE
Kinesiology (BA)  
Kinesiology (BSc)  

DEGREES:
Bachelor of Arts (BA) – Kinesiology  
Bachelor of Science (BSc) – Kinesiology  

EXPERIENCE WHAT YOU LEARN
Examine physical activity and health as it relates to older adults through the Canadian Centre for Activity and Aging’s research labs and community-based outreach programs.

Help establish new rehabilitation protocols for some of Canada’s most common injuries in the Wolf Orthopaedic Biomechanics Laboratory.

Discover what motivates people to make exercise a part of their daily lives in the Exercise and Health Psychology Laboratory, and gain insight into how physical activity can help break down the social barriers of disability with researchers working in the field to make communities more accessible.

PREPARE FOR THE FUTURE
Meet with academic counsellors who are available to assist you with questions related to your work inside and outside the classroom.

Attend our annual Career Directions Fair that brings students together with graduate schools and employers to help you explore your options.

Become a Registered Kinesiologist through the College of Kinesiologists of Ontario and help create a healthier Ontario as part of a health-care team or workplace health and safety unit.

HIT THE GROUND RUNNING
A degree in Kinesiology opens doors for careers in health, sport management and community sport. In addition to a variety of professional and graduate programs.

DEGREES:
Bachelor of Arts (BA) – Kinesiology  
Bachelor of Science (BSc) – Kinesiology  
Professional Kinesiology (BA)  
Sport Management (BA)
GO GLOBAL
Courses focused on global health and the opportunity to complete a clinical placement in Rwanda give you an international advantage.

CAREER READY
Our programs prepare you to be a leader in one of Canada's most in-demand professions.

BE HANDS ON
Beginning in first year, you will be learning the hands-on skills to provide care in a variety of health settings.

GO GLOBAL
Courses focused on global health and the opportunity to complete a clinical placement in Rwanda give you an international advantage.

STUDY WHAT YOU LOVE
Western-Fanshawe Collaborative BScN
Admission to this four-year Bachelor of Science in Nursing Degree (BScN) program is based on secondary school prerequisites (or equivalents). This program is offered at both Western and Fanshawe College, with the same curriculum taught at each site.

Western Site
Students study at Western University for all four years of the program.

Fanshawe Site
Students study at Fanshawe College for the first two years before moving to Western for years three and four.

DEGREE: Bachelor of Science in Nursing (BScN)

DISCOVER OUR STUDENT EXPERIENCE
Gain the knowledge and skills necessary to practice as a Registered Nurse through theory courses, professional practice, case-based learning and simulated clinical education.

Develop clinical skills and confidence in a lab setting in one of our state-of-the-art simulation suites before embarking on your first practical placement.

Learn from faculty with varied backgrounds and diverse interests in areas such as mental health, homelessness, health informatics and technology, pediatric health, global health, aging and rural health.

Get a head start on your career with our Accelerated Year 4 option that allows some students to graduate one semester early.

Join the Canadian Nursing Students’ Association, the national voice of nursing students in Canada.

GET INVOLVED
Professional Practice Placements
Become a leader in health-care delivery by developing skills and knowledge in a variety of health-care settings throughout southwestern Ontario, including hospitals, long-term care facilities, public health units and community support agencies.

International Experience
Complete a course in global health and consider applying for an associated elective placement in Rwanda to gain global perspectives on health issues and other health-care systems.

Learning it Together
Participate in a student-run health promotion program that aims to improve literacy, numeracy and healthy-living skills in elementary school children through mentorship and role modelling.

Student Clubs and Councils
Join the Western-Fanshawe Nursing Students’ Association, Nursing Games, Faculty of Health Sciences Dream Team or represent Western on national and provincial nursing associations.

STUDY IN STATE-OF-THE-ART FACILITIES
Study in the new $41-million building that is home to the Arthur Labatt Family School of Nursing.

Develop professional skills in Nursing’s simulated clinical education suites that advance your education with the latest technology and award-winning instructors.

Take a virtual tour of the human body in Western’s 3-D Anatatorium, which uses advanced technology to give you a comprehensive understanding of anatomy.

PREPARE FOR THE FUTURE
Enter the workforce immediately after graduation, further your education with a graduate degree or advocate for health and wellness in other ways. Our academic counsellors are available to assist you with questions related to your work inside and outside the classroom.

Attend our annual Career Directions Fair that brings students together with graduate schools and employers to help you explore your options.

Network with nurses in the area through organizations such as the Iota Omicron chapter of Sigma Theta Tau International, the Honor Society of Nursing and the Registered Nurses’ Association of Ontario (RNAO).

Participate in our optional internship program for the chance to test-drive real careers in media and put your theory and skills into practice with industry partners.

Andrew Gunadie, BA(Hons)*10, Digital Host & Producer, Travel Channel

JOIN FIMS STUDENTS’ COUNCIL
Help shape your fellow students’ university experiences through social events and faculty initiatives. The FIMSSC is a great fit if you want to get involved in the faculty or meet new friends.

GET INVOLVED
Complement your degree by gaining hands-on experience with student media on campus, including Western TV, The Gazette (Western’s student newspaper) and CHRW Radio Western.

DISCOVER OUR STUDENT EXPERIENCE
Learn about fake news, the power of social media and how Facebook and Google profit from your online profiles. Conduct research, write essays and debate a wide range of media topics. Uncover the controversies swirling around large data breaches and mass surveillance. Discover how money, politics, culture and society interact with and influence technologies like smart phones, social media and digital advertising. FIMS will teach you why these things matter. Develop your media production knowledge. Study media and understand how to produce it. Create media and develop creative content through elective courses. Study Media & the Public Interest (MPI). Connect communication and media studies to issues such as democracy, equity, class, race and gender. MPI begins in second year and builds on the foundation provided by the MIT program.

GET INVOLVED
Practical Experiences
Take your skills out of the classroom and gain additional experience through internships, MPI community-engaged learning placements, study-travel courses and course-based experiential learning opportunities.

Graduate with an advanced ability to analyze media and apply that knowledge to a wide array of potential careers in media-related industries.

Gain the confidence you need to enter our ever-changing world as a knowledgeable, forward-thinking and analytical marketer, digital content creator, journalist, media producer, broadcaster, communications or business professional, and many other possibilities.
Meet Aleah

Media, Information & Technoculture

What does Aleah love most about MIT?

“I love being in a community that realizes the power of connecting creativity and critical thinking in an unprecedented way. For me, it is about being in a program that gives me the opportunity and tools to be a trailblazer in a new field. I can directly apply what I have learned into real-world situations by volunteering with media groups on campus.”

An important part of Aleah’s experience is her involvement in different kinds of media work on campus. “As a Sports Intern for the student Gazette, I was given the opportunity to immerse myself in the world of sports journalism and had some amazing mentors along the way. They gave me the opportunity to be a published sports writer, which is a pretty incredible feat before I even graduate.”

GET INVOLVED

International Opportunities
Study abroad in popular exchange destinations such as Australia, New Zealand, Singapore, Hong Kong and the United Kingdom. Every year, more than 50 upper-year FIMS students take advantage of international exchange and study abroad opportunities.

Volunteer Opportunities
Meet new friends and gain experience by volunteering with the Street Team, OPENWIDE magazine or the FIMS Ambassador Team.

Complement your degree by getting hands-on experience with student media on campus. Western TV, The Gazette (Western’s student newspaper) and CHRW Radio Western provide great opportunities to produce content for the campus community.

PREPARE FOR THE FUTURE

Meet notable alumni during our annual Faculty Career Conference.

Attend workshops and how-to sessions with industry partners, and polish your résumé, job search strategy and professionalism with the help of our FIMS Career Services team.

What you choose to do with your FIMS degree is up to you, but we have the academic advising and career support in place to help you explore your options and develop a plan for success after graduation.
Don Wright Faculty of Music

TRANSFERABLE SKILLS
All music programs help develop transferable skills including leadership, communication, confidence, creativity, critical thinking, social awareness, and self-discipline for both music and non-music careers.

GLOBAL EDUCATION
Dozens of visiting artists, educators, composers and scholars from around the world bring global artistry and perspective each year.

FUND YOUR STUDIES
More than $400,000 available in academic awards.

PERFORMANCES
More than 400 concerts and events each year, including two fully staged opera productions with orchestra, professional staging, lighting and wardrobe.

ENSEMBLES
Music students can join large and small ensembles, and various chamber ensembles. All Western students, regardless of program, can audition for large ensembles.

STUDY WHAT YOU LOVE
Degree: Bachelor of Music (BMus)
- Composition
- Music Education
- Music History
- Music Theory
- Performance

Degree: Bachelor of Musical Arts (BMusA)
- Bachelor of Musical Arts
- Music Recording Arts (combined with Fanshawe College)

Degree: Bachelor of Arts (BA)
- Popular Music Studies
- Music Administrative Studies
- Music
- Dance (Minor only)

DISCOVER OUR STUDENT EXPERIENCE
Become part of a close-knit community of students, faculty and staff. We are perfectly sized to contribute to a supportive learning environment while – as one of the largest music faculties in Canada – offering an exceptional range of musical and academic options, starting with a common first year.

Participate in one-on-one weekly lessons with the finest musicians from around the world and a student-peer mentoring program.

Access a broad range of specialized course offerings including The 21st-Century Musician, Music and Politics, and Progressive Music Pedagogies. We offer numerous opportunities to combine music with other subjects.

TAKE YOUR STUDIES TO THE NEXT LEVEL
- Internship
- Community Engaged Learning
- Fieldwork
- International Learning
- Research
- Combined Degree with the Ivey Business School
GET INVOLVED

Real-world Experiences
Participate in fieldwork opportunities in Lucca, Italy at the Accademia Europea Dell’Opera.
Engage in culturally relevant teaching and learning opportunities in international locales.
Design your own experiential learning project for credit.

Capstone Course
Enroll in program-specific capstone projects in music research and composition; popular music; performance; and music education.

Student Clubs
Join the Students’ Council, student-run radio show, Music Education Students’ Association and a monthly student-oriented magazine.

ACCESS STATE-OF-THE-ART FACILITIES AND RESOURCES
Perform and learn in our new building that offers the best learning environment for academic and performance studies with 100+ practice rooms, large and small rehearsal rooms and studios.
Showcase your many talents in our 400-seat fully equipped theatre known as the Paul Davenport Theatre (capable of presenting fully staged opera productions with orchestra), 250-seat recital hall (von Kuster Hall), 48-seat recital hall, video and digital audio (DAT) recording facilities and Composition & Electro Acoustic Research & Performance (CEARP) facility.
Access a wide variety of instruments, including hundreds of wind instruments maintained by resident technicians; grand, digital and acoustic pianos; and more than 40 valuable string instruments and bows for loan. The Music Library’s holdings are among the most expansive in North America, including an impressive general collection and several special collections.

PREPARE FOR THE FUTURE
Develop your musical talents, creativity, teamwork skills and confidence to excel in any profession of your choice upon graduation.
Music Education graduates are guaranteed entry into the Bachelor of Education program at Western.
Alumni are well prepared for graduate studies in a variety of music and other professional programs.

Meet Jake
BMus’18 (Honors Music Education), Percussionist
“What I appreciate most is the range of expertise of the faculty. Western has also played a huge role in helping me make connections in the community through teaching, music directing, and student leadership opportunities. As a young musician, I’m grateful for the knowledge, support and freedom the Don Wright Faculty of Music has been able to give me throughout my undergrad.”

You don’t have to eat here.
You want to eat here.
Our amazing residence dining halls offer meal plans to suit your tastes and dietary needs. It’s just one of the reasons to choose Western.
**Do what you love**

The Faculty of Science will prepare you for the career of your dreams. Just like it did for Michael Hyatt, BSc’96. As co-founder of BlueCat Networks and a business panelist on the CBC, he sits at the forefront of information technology and business. And his entrepreneurial drive was fuelled at Western.

DISCOVER OUR STUDENT EXPERIENCE

Experience a warm, friendly and creative learning environment. Whether you are in a small class of ten or a large lecture hall with every seat filled, have your voice heard using clicker survey technology, Twitter messaging or small group discussions.

Engage with our 3M National Teaching Award-winning instructors in class, during office hours, in dedicated collaborative workspaces or over the summer as you gain research experience in their labs!

Experiment with a wide spectrum of scientific tools like:

- PCR for genetic analysis
- Spectrophotometers to characterize heavy metals, polymers and viruses
- Raman lasers that identify organic matter in lunar samples
- The computer power of SHARCNET to support data crunching in computer science, data science and the mathematical sciences

Cultivate critical-thinking and communications skills with group projects, during field courses to exotic locations or during virtual field trips across the internet to work collaboratively with students just like you from across North America.

STUDY IN STATE-OF-THE-ART FACILITIES

Dive into scientific experimentation in our first-year Chemistry labs with spaces offering large workstations fitted with computer-controlled modular equipment to simulate an authentic lab environment found in government and industry.

Immerse yourself in interdisciplinary sciences in a modern science facility built exclusively for an integrated science experience or use the makerspaces in Physics & Astronomy to cultivate innovative design thinking.

Develop your research skills in unique spaces like the BIOTRON Centre for Climate Change Research, the Nanofabrication Laboratory and Surface Science Western where you will have access to a wide range of tools, from imaging and analytical instruments to climate-controlled biomes.

Study at the Taylor Library, designed especially for Science students. Choose the best study area for your needs, from silent study and quiet group areas to conversation-friendly and eating-welcome zones.

Expand your scientific knowledge with some of the most interesting collections on campus including the Biodiversity Gallery housing thousands of animal specimens, insects and molluscs and temporary exhibits to raise awareness of diminishing biodiversity. Earth Sciences curates the Western Meteorite Collection which contains nearly 200 different meteorites, including large portions of several Canadian meteorite falls like the Tagish Lake carbonaceous chondrite. Unique in North America for the sheer number of specimens it houses, the Suffel Collection at Western Science also offers a suite of more than 200,000 mineral deposits, freely available for use by senior undergraduates.

PREPARE FOR THE FUTURE

Add relevant work experience to your résumé, expand your communications and business skills and develop a professional network, all while earning a full salary through an eight to 16-month Science internship.

Meet Science alumni, industry and government partners, learn about industry trends and develop valuable skills. Engage in mock interviews, résumé preparation and career searches with the Science Career Services team.

Sharpen your entrepreneurial skills and develop an innovative business plan to commercialize novel science and emerging technologies through Western’s entrepreneurship program.

Meet Charlie

Charlie is the founder of SCINAPSE and the initiator of the SCINAPSE Undergraduate Science Case Competition. His research focused on biological modeling using artificial intelligence and he is a named contributor to research featured in the journal, Nature. “I came to university to learn a bit about everything. I was stimulated by my capable peers, the collaborative intellectual environment and professors who cared as much about my personal growth as they did about the research.”

Learning only in the classroom is so 1935.

Making classroom connections to real-world experiences is just one of the reasons to choose Western.

Meet Jackson
Honors Specialization in Neuroscience, BSc 2018

“Western provided me with a unique undergraduate educational opportunity. Through the Neuroscience program and the Western Undergraduate Neuroscience Society, I was part of a tight-knit, ambitious, and thoughtful community of faculty and students. Engagement with research was also a staple of my undergraduate degree at Western. Working under the supervision of Dr. Martinez, I published a paper as first author in the Journal of Neuroscience Methods. These experiences and the friends I gained taught me critical thinking, responsibility, the importance of a balance in life, and the value of serving others.”

This view makes studying easier, don’t you think?

Our beautiful campus is just one of the reasons to choose Western.
FUND YOUR STUDIES
150 Social Science awards and scholarships are available specifically for students in the Faculty of Social Science.

DISCOVER OUR SOCIAL WORLD
Programs in Social Science help you to understand the world we live in and why people behave the way they do.

HANDS-ON RESEARCH
Get hands-on experience researching in the field, engaging with community partners or working in the lab.

LEARN FROM THE BEST
Our professors are doing world-class research on everything from why some children struggle to learn math to the age of the oldest human bone.

DEGREES:
Bachelor of Arts (BA)
Bachelor of Science (BSc)

*Available as a minor only. Cannot be completed alone as a degree.
**Housed in the Faculty of Arts & Humanities.
DISCOVER OUR STUDENT EXPERIENCE
Participate in traditional programs as well as interdisciplinary programs that combine ideas from a number of related areas of study.
Learn from world-renowned faculty members who have received research and teaching awards. Our professors teach using a variety of methods including small group discussions, community involvement opportunities and multimedia interaction.
For example, Lisa Hodgetts, a professor in Anthropology, uses course assignments and hands-on labs to bring her Arctic-based research into the classroom, giving students the opportunity to critically analyze others’ arguments, identify artifacts and animal bones, and interpret data.

GET INVOLVED
Internships
Gain hands-on experience through a 10-week, paid summer internship.
International Experiences
Study, volunteer and work abroad. To date, our students have taken courses in more than 20 different countries.
Student Clubs
Gain leadership experience and develop networking skills through departmental student clubs. Participate in Student Council which includes department representatives, members-at-large, sophs and first-year students.
Student Journals
Publish your work in one of our departmental undergraduate journals.

STUDY IN A SUPPORTIVE LEARNING ENVIRONMENT
Get advice on your academic decisions and course choices from the academic advisors in your department, as well as counsellors in the Faculty of Social Science Undergraduate Counselling office.

STUDY IN STATE-OF-THE-ART FACILITIES
Conduct research during your fourth year of study in spaces such as our Digital History Lab, Anthropology Laboratory or Geographic Information Technology & Applications Lab. Western Social Science is also affiliated with the Museum of Ontario Archaeology in London, Ontario, which has an advanced facility for storing and studying Indigenous artifacts.

DISCOVER OUR STUDENT EXPERIENCE

Experience the best of both worlds – our instructors are industry professionals with real-world experience, and research-focused academics providing insight into the latest theories.

Complete courses during your studies that count towards professional designations such as the Chartered Professional Accountant (CPA), Chartered Financial Analyst (CFA), Certified Human Resources Professional (CHRP), or an Integrated Commercial Pilot’s License (ICPL).

GET INVOLVED

Internships
Gain hands-on experience through an eight to 16-month internship.

Study Abroad
Participate in an exchange in third year at schools such as King’s College in England, Nanyang Technological University in Singapore, The University of Queensland in Australia, Radboud University in the Netherlands or the European Business School in Germany.

Study in Hong Kong during a three-week exchange opportunity when you complete the Strategic Management course (MOS 4410A/B).

Commercial Aviation Management
Complete flight training at London’s International Airport through the Diamond Flight Centre.

Case Competitions
Take part in a number of tournaments across Canada to learn how to analyze companies (both internally and externally), develop detailed solutions and hone crucial presentation skills.

Student Clubs
Join the DAN Management Student Association (DMSA) which organizes a variety of academic initiatives, networking opportunities and social events. The CAM Council represents students in the Commercial Aviation Management stream.

STUDY IN A SUPPORTIVE ENVIRONMENT

Get advice on your academic decisions and course choices from the academic advisors in DAN Management, as well as counsellors in the Faculty of Social Science Undergraduate Counselling office.

PREPARING FOR THE FUTURE

Acquire the skills you need to excel in a variety of areas including management, human resources, labour relations, financial services, accounting, aviation, consumer behavior and advertising.

ALUMNI SUPPORT

The DAN Department of Management & Organizational Studies is named in honour of Aubrey Dan (BACS’85). In 2017, Dan renewed his support for DAN Management, and the Faculty of Social Science, through a second $5-million gift. The gift will create three endowed Research Chairs, and two endowed Distinguished Lectures.

FUND YOUR STUDIES

There are more than 50 awards specifically for students in DAN Management programs worth more than $75,000 in total.

UNIQUE LEARNING OPPORTUNITIES

First of its kind in Canada, DAN Management has adopted an Evidence-Based Management (EBM) perspective throughout its curriculum. This brings critical focus to our program and prepares you to make meaningful contributions to management decisions and practices in the organizations you join.

Second-entry professional undergraduate programs such as Business, Dentistry, Education, Law and Medicine do not begin in first year. These undergraduate programs require a minimum of two to four years of university study prior to admission. The length of the programs will also vary, with some taking four years while others are only two years in duration.

Admission requirements vary greatly with each program having its own required undergraduate prerequisites, admission averages and required test scores. Please note: these programs are in high demand, and enrolment is limited. Requirements are subject to change. Please confirm with the program. Western also offers professional graduate programs, MA and PhD degrees in a number of disciplines through the School of Graduate and Postdoctoral Studies.

UNLIMIT YOURSELF
Take the opportunity to explore your academic interests before choosing your career options, rather than be channeled into a specialization early on. The Ivey HBA Program is a 2+2 program, which means you study anything you are interested in for your first two years at Western or another recognized university, followed by two years of concentrated business study at Ivey.

Design a personalized program of study to round out your business management education, and complement your career objectives, with our wide range of elective HBA2 courses and combined degree opportunities.

CLASSROOM ENVIRONMENT
Join a section with 75 others with top academic records – the same exceptional students you will work with every day for the first year. Get to know your section-mates and your faculty team through our high level of classroom interactivity.

Study in a diverse environment. Approximately 30 per cent of our students come from provinces outside Ontario or countries other than Canada. Our student body includes classmates from more than 45 different academic programs with diverse extracurricular and work experiences.

Continue to work with your section-mates outside of the classroom in learning teams and on group challenges like 48-hour reports.

EXPERIENCES
Summer Internships
Refine your career goals. Take advantage of the many challenging and relevant summer internship opportunities available to Ivey students. More than 25 per cent of summer internships resulted in full-time job offers with the same firm.

International Opportunities
Spend your final term on exchange at a top business school in Asia, Europe or Latin America, take part in a study tour or get involved in a student leadership project abroad.

HBA Clubs
Participate in a variety of student clubs that highlight the diverse interests of the student body.

PREPARE FOR THE FUTURE
Define your career goals and develop a strategy for success. Ivey’s Career Management team offers a variety of services, activities and events.

Gain access to a wealth of resources to help you explore career options, choose a personalized career plan and develop a job search strategy to get you there.

Become an innovative leader. Ivey has more Canadian ‘Top 40 Under 40’ emerging leaders than any other business school.

DEGREES
Honors Business Administration (HBA) (2 Years)

HOW TO APPLY
Option 1: Apply from Secondary School
Step 1: Ivey Application
Apply for the Ivey Advanced Entry Opportunity (AEO) status conditional pre-admission to the Ivey HBA program at: ivey.ca/hba

A competitive Ivey AEO application includes:
• Demonstrated action-oriented leadership in extracurricular activities and/or any work experience;
• An average of 90 per cent or higher in your final year of secondary school; and
• Completion of a mathematics course for university-bound students.

Step 2: Western Application
Apply for admission to Western’s Main Campus or one of its affiliated university colleges through the Ontario Universities’ Application Centre (OUAC). www.ouac.on.ca

Step 3: Complete Years 1 & 2 at Western
Progression standards are required to maintain your conditional acceptance. For details, visit ivey.ca/hba

Ivey AEO Application Deadline: January 16, 2019 by 4 p.m. (EST)

Option 2: Apply from University
Step 1: Complete Years 1 & 2 at Western or another university
Pursue any course of study at any university and ensure that you:
• Maintain a full course load over two years of university study;
• Complete a secondary school mathematics course; and
• Complete Western’s Business 2257 course or equivalent with a minimum 70 per cent and strong contribution.

Step 2: Ivey Application
Apply to the Ivey HBA program online at: ivey.ca/hba

A competitive Ivey HBA application includes the requirements listed above and:
• Demonstrated action-oriented leadership in extracurricular activities, community involvement and/or work experience;
• An average of 80 per cent or higher in two years of full-time study at university level; and
• Minimum 70 per cent in Western’s Business 2257 course or equivalent, with strong contribution.

THE SCHULICH SCHOOL
OF MEDICINE & DENTISTRY

funding your studies
Nearly $6 million in awards and bursaries available annually.

supporting your journey
The Learner Equity & Wellness team is dedicated to supporting you with your personal, academic, financial or wellness needs.

indigenous applicants
Designated seats are available for medical and dental Indigenous applicants.

PATIENT-FOCUSED. DRIVEN BY COMPASSION.

medicine
The Doctor of Medicine (MD) degree is the stepping stone to clinical practice, research, or other medical careers. You’ll learn in a variety of ways: lectures, labs, small group tutorials, large group discussions, and self-guided study.

Your first year
• Through the first-year Clinical Methods course, get direct patient contact from the start
• During Discovery Week, practise rural and regional medicine in a hospital or clinic in southwestern Ontario

Your upper years
• Practise active clinical care through a third-year clerkship in family medicine, medicine, obstetrics and gynaecology, paediatrics, psychiatry or surgery
• Experience graded responsibility for diagnosis, investigation, and management of patients
• Arrange your own Clinical Science Elective, then return to campus to integrate your clinical skills and experience

dentistry
The Doctor of Dental Surgery (DDS) degree is the first step in formal dental education, followed by internships, residency, and specialty training.

You’ll be trained to diagnose and treat patients through lectures, small class groups, and complex hands-on experience.

Your first year
• Focus on the fundamental basics and clinical sciences to assess patients
• Learn techniques, procedures, and dental skills in the Simulation Laboratory

Your upper years
• Integrate your knowledge, diagnosis experience, and treatment planning
• Practise in patient care clinics including the main, paediatric, oral surgery and emergency clinics
• Participate in DOCS (Dental Outreach Community Services), a free dental care service to low-income families in the community

professional degrees
• Doctor of Medicine (MD) (4 Years)
• Doctor of Dental Surgery (DDS) (4 Years)

combined professional degrees
• Doctor of Medicine (MD) with Doctor of Philosophy (PhD) (7 Years)

undergraduate degrees
• Bachelor of Medical Sciences (BMSc) offered jointly with the Faculty of Science (4 years – both Honors and four year degrees offered)
• Bachelor of Medical Sciences (BMSc) with an Honors Business Administration (HBA) – a combined program offered jointly with the Ivey Business School (5 Years)
• Bachelor of Science (Honors BSc) in Neuroscience (4 Years)

meet michelle
“I chose Schulich Medicine for its focus on academic excellence and how the School fosters the personal and professional growth of students through many diverse and innovative opportunities.”
Michelle Quaye, Medicine Class of 2020

meet amr
“Schulich Dentistry has cutting-edge educational facilities and a well-designed curriculum that provides students with early exposure to the clinical environment. It allows students to grow and develop into the kind of dentist they want to be.”
Amr Alsabbagh, Dentistry Class of 2020
Choose to study one of three streams: course work, in-school practice teaching, and alternative field placements.

You will experience:

- Intermediate-Senior (Grade 7 – 12)
- Junior-Intermediate (Grade 4 – 10)
- Primary-Junior (JK – Grade 6)
- Advanced Studies in Psychology of Achievement,
- Mathematics Through the Arts
- French (Elementary and Secondary)
- Urban Education
- International Education
- Weekly professional days (including job fairs and research or leadership project); and
- Seven weeks of alternative field experience (field placement)
- 20 weeks of in-school teaching;
- Travel, and other enriching life experiences.

Our faculty members offer world-renowned research expertise and practical teaching experience.

LEARN FROM THE BEST

Gain practical experience through clinical courses, advocacy competitions and intensive seminars, which will hone your legal reasoning and practical skills.

CLINICAL LEARNING OPPORTUNITIES

Learn in diverse areas such as criminal law, litigation, family law, business law, sports law, human rights, immigration and intellectual property.

Get involved

Exchanges
Study abroad through one of our international exchanges or internships in areas such as Scandinavia, the UK, Europe, Southeast Asia, Australia, New Zealand, the USA and Quebec. More than 55 placements are offered every year, with two to four places available at each partner school.

Internships
Take advantage of the opportunity to intern with government departments, international organizations, non-governmental organizations and private industries through our Western Law Internship Program. Our internship program has grown to provide 15 internships in the areas of international and environmental law, business and trade law, Indigenous law and access to justice, and sports law.

Prepare for the future

Take your law degree to the next level by combining your JD with a range of programs on campus:

Undergraduate
- Business
- Engineering
Graduate
- Business
- History
- Geology and Geophysics

We also offer Master’s and PhD programs in Law and Legal Studies, as well as a Graduate Diploma in Mining Law, Finance and Sustainability.
AFFILIATED UNIVERSITY COLLEGES OF WESTERN

Brescia, Huron and King’s, as Affiliated University Colleges, contribute to the dynamic student experience at Western University. Students enrolled at these unique communities, all within steps of Western’s Main Campus, enjoy the benefits of a small-campus experience while having access to one of Ontario’s most comprehensive universities.

As an Affiliated University College student, you are a Western student. You enjoy an integrated and vibrant student community. While you are required to take a certain number of courses for your degree at the affiliated campus at which you are registered, you have the opportunity to explore course options and program combinations across the Western community (subject to registration constraints and not applicable to limited enrolment programs on Main Campus).

The programs below are only some of the degree options available at the affiliated campuses. Brescia, Huron and King’s programs are separate choices on your OUAC application and are listed directly underneath Western’s campus programs.

Brescia: Community Development, Family Studies, Foods and Nutrition, Leadership and Organizational Studies (Food Management, Nonprofit Management)

Huron: Global Studies, Globalization Studies, Global Health Studies, Governance, Leadership & Ethics, Management and Organizational Studies (Organizational Studies, Policy & Ethics), Philosophy in Commerce, Psychology, Theology

King’s: Social Justice & Peace Studies, Childhood & Social Institutions, Catholic Studies for Teachers, Disability Studies, Finance and Wealth Management (in partnership with Fanshawe College), Social Work, Thanatology, Management and Organizational Studies (including Accounting, Finance, Global Commerce and Human Resources) and Foundations in Western Thought and Civilization

You will receive a WesternONE student card, which provides complete access to athletics, clubs, libraries and many other services offered at Western.

Your degree will be granted by Western University, therefore, you will receive an internationally recognized Western degree.

SEE WHAT THE AFFILIATED UNIVERSITY COLLEGES HAVE TO OFFER

Tours can be coordinated so you can enjoy the distinct environment of all four campuses at Western. Welcome Days and Open Houses are a perfect opportunity for you to explore the affiliated campuses and meet members of their diverse and welcoming communities.

*Continuation of scholarships beyond the first year of study is contingent on the student maintaining a minimum overall average of 80 per cent in full-time undergraduate coursework.

Top Three Entering Secondary School Students

The three students with the highest entrance averages will be awarded a scholarship covering full academic tuition (renewable for four years).

Community Leader Awards

In recognition of community involvement and leadership, Brescia offers Community Leader Awards.

Wolfe Family General Achievement Entrance Scholarship

An award given to an incoming student joining Brescia directly from an Ontario high school, this award has a value of $24,000 over four years.

For a complete listing of Brescia’s scholarships for Canadian and international students please visit: brescia.uwo.ca/tuition/scholarships

RESIDENCE

Brescia’s luxury residence, Clara Hall, is the perfect home for new and returning students. Consisting of single rooms with a shared ensuite, all incoming students are guaranteed a place in residence. The new dining pavilion, The Mercato, serves up fresh, local and flavourful food choices.
SCHOLARSHIPS

At Huron, we're proud of what our students accomplish and we're committed to rewarding academic excellence and community service. We set our bar high, because we know you do, too.

All students applying to Huron with a final average of 80 per cent or higher are guaranteed a renewable admission scholarship. (Averages will be converted to Western University's grading scale for admission and scholarships.)

RESIDENCE

Residence is more than just a place to stay. At Huron, we provide you with personalized support to live on your own for the first time. We help you find your way and make the most of your Huron experience. We also offer you special programming to help you grow as leaders.

The benefits of living in residence at Huron include:

- Guaranteed spots for all first-year students:
  - Almost all single rooms;
  - Hellmuth Scholarship holders get preference in room choice;
  - Upper class "Dons" and "Sophs" show you the ropes;
  - Social events on every floor (i.e., dinners, murder mystery parties, ping-pong challenges, etc.);
  - Opportunities to build skills in writing, research, budgeting, time management, stress busting and more;
  - Discover how to be a leader;
  - Explore different cultures and share Canadian customs with international students; and
  - Meet and hang out with new friends in the common areas.

Huron University College

DISCOVER LEADERSHIP WITH HEART AT HURON

Huron University College is completely unique to post-secondary institutions in Canada – creating a university experience unlike any other that prioritizes ethical leadership and community engagement, as much as the pursuit of academic achievement.

For more than 150 years, Huron has delivered an elite university experience that contributes to its impressive legacy of fostering world-renowned alumni who transform the sectors they work within. In the spirit of producing catalysts of positive change, Huron is furthering its integration of character-building and civic responsibility with the traditional advantages of the Liberal Arts to develop the next generation of Leaders with Heart.

Who thrives at Huron? Students who welcome the challenge of interacting with unparalleled faculty and peers in classrooms where they’re held accountable to show up and show off. Huron aims to empower Leaders with Heart from all backgrounds, including the historically underrepresented because our community believes every student with the passion for creating tangible change deserves to access the knowledge to understand the world and the skills to shape it.

Are you ready to become a force to be reckoned with? Huron is not going to train you for one specific career. Instead, you will receive a well-rounded education that prepares you for numerous, ever-changing roles, so you’re better able to exceed the demands of the modern marketplace. If you’re ready for a unique educational experience, we look forward to developing your individual gifts in ways that benefit humanity and the world.

Combined Degrees: HBA with all Huron Honors BA programs

Scholarship

King’s University College

kings.uwo.ca | kings.uwo.ca | 519.433.3491

Founded in 1854, King’s University College is a Catholic university affiliated with Western University. With approximately 3,500 undergraduate students of which approximately 500 are international, King’s is committed to creating a challenging academic environment which respects the value of each individual, focuses on the importance of social justice, and creates opportunities for students to engage both locally and globally to make a difference.

Degree programs range from Business, Accounting, Finance and Wealth Management, Social Sciences, Arts, Childhood and Social Institutions, Disability Studies, Social Justice and Peace Studies, Thanatology and Social Work, as well as a Master’s degree in Social Work. King’s is renowned as a centre of teaching excellence, positioned in the top rank of institutions of higher learning in Canada for the quality of its teaching faculty.

Average first-year class sizes of 57, intensive student/faculty interaction, experiential learning opportunities, comprehensive student services, and a sense of community are factors which create a superior living and learning environment for students and are why students choose King’s. Combined with Western’s world-class facilities and reputation, as well as receiving a Western degree, King’s offers ‘the best of both worlds.’

UNDERGRADUATE PROGRAMS

Management & Organizational Studies (EKJ): Accounting; Finance & Administration; Global Commerce; Management & Organizational Studies; Organizational & Human Resources Studies

Arts (EKJ): Catholic Studies; Catholic Studies for Teachers (CST); Continental Philosophy; English; Foundations in Western Thought and Civilization; French; Jewish Studies; Middle East Studies; Philosophy; Philosophy & Religion; Religion Studies

Childhood and Social Institutions (EKJ): examines families and children in constantly changing social, economic and political conditions.

Finance and Wealth Management (EKJ): King’s and Fanshawe College have developed a unique pathway earning a two-year diploma and a three-year degree in Economics (major in Finance) within a four-year period. These graduates, will also possess a number of certifications (i.e., Certified Financial Planner and Mutual Funds Licensing) as well as be prepared to write the exams for the Canadian Securities Course and Life Licensing Qualification Program which will further enhance their career opportunities.

Social Justice and Peace Studies (EKJ): focus on social justice issues such as poverty, violence, racism, sexism, disability, religious persecution, environmental degradation, and other forms of oppression.

Social Science (EKJ): Criminology; Disability Studies; Economics; Finance; Financial Economics; History; Political Science; Psychology; Sociology; Thanatology (Grief & Bereavement Studies)

Social Work (EKS): BSW – Third Year Entry Only

SCHOLARSHIPS

All students with admission averages of 80 per cent or higher are guaranteed a King’s Entrance Scholarship. The scholarship values are as follows:

Continuing scholarships ($1,000 – $2,000) are available to students who earn a minimum overall average of 80 per cent or greater in subsequent years. In addition to these guaranteed scholarships (which do not require an application), King’s also offers a range of other large scholarships and awards which require an application available on our website at kings.uwo.ca/future-students/finances/funding/entrance-scholarships/.

RESIDENCE

Live in a diverse and multicultural environment with approximately 350 students. Residence is guaranteed to all first-year and new-to-King’s students who receive an early offer of admission and return their residence application by the deadline as specified in your offer of admission.
IDENTIFY YOUR APPLICANT TYPE

A detailed outline of the requirements for each applicant type listed below can be found online at welcome.uwo.ca/requirements

Canadian Secondary School Applicant
You are a secondary school student who has already graduated or will be graduating in June, with the required secondary school courses for admission.

Ontario
Check pages 58-60 for admission and program information. You will be considered based on six Grade 12 U and/or M level courses (excluding co-op) including ENG4U and program prerequisites. Grade 12 prerequisite courses will be included in the calculation of your mid-year and final admission average.

Note: If you are simultaneously enrolled in the International Baccalaureate and the OSSD curricula, your eligibility for admission will be based on the criteria above. You may be considered for transfer credit if you meet the IB requirements below.

Canadian provinces outside of Ontario
Check pages 61-63 for a detailed list of course requirements, admission requirements and recommendations for your program.

CÉGEP Applicant
You must be enrolled in the pre-university CÉGEP program, have completed a minimum of 12 academic semester credits (excluding Physical Education) and have a minimum average of 80 per cent for admission consideration.

If you are registered in, or have completed your two in the pre-university program, you may be eligible for transfer credit depending on:
• Your program of study in CÉGEP;
• Grades in courses eligible for transfer credit consideration (a minimum overall average of 75 per cent); and
• Your desired program of study at Western.

Advanced Placement
You have registered in Advanced Placement courses and have written your AP Exams.

Your admission is based on your current secondary school curriculum, not Advanced Placement. If you achieved at least a 4 out of 5 in your AP exams, you may be considered for transfer credit to a maximum of 2.0 full credits.

Mature Applicant
You are a Canadian citizen or permanent resident who will be 21 in the calendar year in which you seek admission and do not meet the minimum academic requirements for any other applicant type.

You will be required to submit additional information if applying for full-time admission welcome.uwo.ca/admissions/forms

College of Applied Arts and Technology (CAAT)
Applicants
You are studying at an Ontario college and have a minimum overall average of 78 per cent in a two- or three-year diploma program or a minimum of 90 per cent in the first year of a recognized General Arts and Science program.

If you are completing a two- or three-year diploma, you may be eligible for transfer credit.

University Transfer Applicant
You are currently studying at another university, but you want to transfer to Western to complete your degree. You have achieved a minimum final overall average of 70 per cent (B) and graduated secondary school or equivalent with an acceptable academic average.

Your transfer credit will be assessed when we assess your application for admission.

If you have already been granted a degree that is equivalent to at least a three-year bachelor’s degree from Western, and your degree is from an accredited university that is recognized by Western, you will be considered under our Special Student admission requirements. Special Students are normally seeking to take some courses, not seeking a second undergraduate degree.

Aboriginal Applicants
You are Aboriginal as defined on the Canadian Constitution Act 1982 (First Nations, Métis, Inuit) and are seeking an accessible admission pathway.

Special Student Admission requirements.

Advanced requirements for consideration under the mature applicant guidelines can be found online at welcome.uwo.ca/requirements

Readmission
You are seeking re-admission to Western or an Affiliated University College (Brescia, Huron or King’s) following withdrawal for unsatisfactory academic standing.

You must submit an application along with the form of Admission form. You will also be required to submit supporting documents for review by the Admission Committee.

If you are completing a two- or three-year diploma program or a minimum of 80 per cent in the first year of a recognized General Arts and Science program, you may be eligible for transfer credit.

Contact Indigenous Services for more detailed information.

Tel: 519.661.4095 or 1888.661.4095
Email: is.staff@uwo.ca
indigenous.uwo.ca

1. Check admission requirements
First, identify your applicant type on page 55. Then, determine if you have the course requirements for your program by checking pages 57-63, or by visiting our website at welcome.uwo.ca/requirements

2. Mark deadlines and important dates on your calendar
Apply early! Timing is everything and we know you have a lot to remember. See page 56 for important dates and deadlines.

3. Apply
Choose the appropriate application as listed on page 65. If you want to be considered for more than one faculty program, list each as a separate choice. Western does not extend alternate offers of admission from one program to another.

4. Send us additional documents (if needed)
Once you have applied, we will let you know what documents are required to complete your application and how to submit them. For a list of mandatory forms and voluntary supplemental admission profiles see page 66.

5. Check your application status
Your Western Student Center (student.uwo.ca) is the best place to track your application. See page 67 for more details.
ALBERTA: Five academic courses numbered 30, 30-1 or 31 including English Language Arts 30-1.

NOVA SCOTIA: Five academic courses at the Grade 12 level including English 12.

BRITISH COLUMBIA: Four academic courses at the Grade 12 level including English 12.

ONTARIO: Six Grade 12 U and/or M level courses including all required program prerequisites.

MANITOBA: Five academic courses numbered 40 including English 40S.

NEW BRUNSWICK: Five academic courses at the Grade 12 level including English 121/122.

PRINCE EDWARD ISLAND: Five academic courses at the Grade 12 level including English 621.

QUEBEC: CÉGEP (DECD) twelve (12) academic semester credits; or completion of six Grade 12 academic courses.

SASKATCHEWAN: Five academic courses at the Grade 12 level including English A30 and English B30.

NORTHWEST TERRITORIES/NUNAVUT: Five academic courses numbered 30, 30-1 or 31 including English Language Arts 30-1.

YUKON: Four academic courses at the Grade 12 level including English 12.

To be considered for admission to first year on the basis of a Grade 12 Diploma from any province in Canada, you must obtain a minimum 80 per cent average as calculated by Western and have the prerequisites for your program as specified by Western. Please refer to pages 58-60 (Ontario) and 61-63 (all other provinces) for further information. Admission is competitive and as such having the minimum requirements should not be viewed as a guarantee of admission.

For a list of acceptable academic courses please visit: welcome.uwo.ca/admissions/admission_requirements/canadian_secondary_school

*Depending upon the completion of Western’s Math 12, Math 30 may be accepted by programs that highly recommend Calculus.

This chart is a guide for applicants attending secondary school outside of Ontario. All program requirements must be taken as academic Grade 12 level courses. Please refer to page 61 for specific course equivalencies by province and page 57 for admission requirements by province.

**Upgrading through the completion of Western’s Math 0110 may be required for programs that highly recommend Calculus.

For all Bachelor’s programs at Western, a valid Transport Canada Student Pilot Licence is required for entry. All Bachelor’s programs at Western offer a Certificate in Flight and General Aviation. For more information, please visit the Flight and General Aviation Certificate program webpage.
ENGLISH LANGUAGE PROFICIENCY REQUIREMENTS

If your first language is not English, you will be required to provide acceptable proof of English language proficiency. You are encouraged to write a test at the earliest possible date and before March 2019. Scores for any test written before January 1, 2017 will not be accepted. Alternatively, you may complete one of Western’s Acceptable English Language Programs.

The Undergraduate Admissions Office reserves the right to require any applicant to write a test of English proficiency. Additional details regarding acceptable proof of English proficiency can be found on our website at welcome.uwo.ca/admissions/admission_requirements/english_language_proficiency.html

WESTERN ENGLISH LANGUAGE CENTRE (WELC) – ENGLISH BOOST PROGRAM

If you applied to Western’s Main Campus and you are just below the English standard for admission, you are automatically considered for the English Boost program. No additional application is required. Boost is a nine-week program in the summer, starting in early July. You’ll develop reading, writing, listening and speaking skills to help you succeed academically. You will also gain cultural knowledge to help you navigate your new environment.

HOW TO APPLY TO WESTERN

ONTOARIO SECONDARY SCHOOL APPLICANTS

OUAC 101 Form
This form is for students currently attending an Ontario secondary school. You must meet all the criteria on the OUAC 101 website to use this form.
Note: You will not be able to apply until you’ve received your PIN code from your guidance counsellor or school.

Application
www.ouac.on.ca/ouac-101
Application Deadline
January 16, 2019*

OUAC 105 Form
The 105 application form is for all other undergraduate applicants to first-entry programs.

Application
www.ouac.on.ca/ouac-105
Application Deadline
March 1, 2019 – Full-time, first-year studies
June 1, 2019 – Full-time application deadline*
Apply early! Space is limited, so you should apply well in advance, preferably in the fall of 2018 or early winter 2019. Admission is offered on a rolling basis beginning in December.

ALL OTHER UNDERGRADUATE APPLICANTS

OUAC 105 Form
The 105 application form is for all other undergraduate applicants to first-entry programs.

Application
www.ouac.on.ca/ouac-105
Application Deadline
March 1, 2019 – Intersession, Spring/Summer Evening, Summer Distance Studies
May 1, 2019 – Summer Day
July 1, 2019 – Fall/Winter Distance Studies, Fall/Winter Day or Evening
Apply early! Space is limited.

PART-TIME APPLICANTS

Part-Time Application Form
This form is for applicants who wish to apply for part-time degree credit studies only, or for those who wish to apply for Post Degree Diploma Programs through Continuing Studies at Western.

Application
welcome.uwo.ca/admissions/how_to_apply/parttime.html

*Please see Important Dates on page 64 for program specific and supplemental information deadlines.
SUPPLEMENTAL ADMISSION APPLICATIONS AND PROFILES

Some programs require additional information with your application. Make sure you submit any required supplemental forms by the deadline. A complete list of available forms can be found on our website at: welcome.uwo.ca/admissions/forms

FACULTY & PROGRAM-BASED APPLICATIONS AND FORMS

- **Bachelor of Fine Arts – Studio Portfolio**
  - Applicants must submit a digital portfolio and personal statement online at: westernu.slideroom.com
  - Visit: uwo.ca/visarts/undergraduate | Deadline: February 15, 2019

- **Commercial Aviation Management (CAM)**
  - Applicants must complete a Supplementary Application Form.
  - Visit: welcome.uwo.ca/admissions/forms/commercial_aviation_management_cam_supplementary_application_form | Deadline: February 15, 2019

- **Engineering CONNECT (Optional)**
  - Applicants are encouraged to complete the supplementary CONNECT profile for Engineering to describe their leadership potential, engagement and initiative, and passion for engineering.
  - Visit: eng.uwo.ca/undergraduate/future-students/admissions | Deadline: January 16, 2019

- **Ivey Advanced Entry Opportunity (AEO)**
  - Applicants must indicate interest on the OUAC application and complete a supplementary application available through the Ivey Business School website.
  - See page 45 or visit: ivy.uwo.ca/hba/admission | Deadline: January 16, 2019

- **Music – Audition and Interview**
  - Audition and/or interview may be requested to support your application. Auditions can be booked once you have applied through the OUAC.
  - Visit: music.uwo.ca/future-students/undergraduate/audition-process.html | Deadline: February 15, 2019

- **Scholar’s Electives**
  - Applicants must indicate interest on the OUAC application and complete a supplementary application through the Scholar’s Electives website.
  - Visit: scholarselectives.uwo.ca | Deadline: February 14, 2019

- **School for Advanced Studies in the Arts & Humanities (SASAH)**
  - Applicants must indicate interest on the OUAC application and complete a Statement of Interest.
  - Visit: uwo.ca/arts/sasah/apply | Deadline: February 28, 2019

- **Western Integrated Science (WISc)**
  - Applicants must indicate interest on the OUAC application and complete a supplementary application through the Faculty of Science website. Visit: uwo.ca/sci/WISc/program | Deadline: March 17, 2019

- **National Scholarship Program**
  - This program is designed to recognize all-around excellence based on the merit of your academics, innovation and extracurricular activities. Submit your application for admission through the OUAC, complete the National Scholarship online application and submit supporting documents. See page 73 or visit: registrar.uwo.ca/student_finances/scholarships_awards/national_scholarships_program.html | Deadline: February 14, 2019

- **Extraordinary Extracurricular Activities and Contributions to Citizenship Profile – Optional**
  - This supplementary profile allows you to communicate your commitment to extracurricular activities and active citizenship through your ongoing contributions to school and community life. If you feel your average will fall marginally below the University’s minimum admission requirements and you have made significant contributions, you are eligible to submit a profile.
  - Visit: welcome.uwo.ca/admissions/forms | Deadline: March 1, 2019

- **Special Consideration Profile – Optional**
  - This profile is an opportunity for you to provide information about circumstances that may have adversely affected your academic performance in secondary school. Circumstances may include financial issues, required employment, disability or illness, or other personal or family matters. Visit: welcome.uwo.ca/admissions/forms | Deadline: March 1, 2019

SUPPLEMENTAL ADMISSIONS PROFILES

Once you apply, you will receive an email from the Admissions Office. This email includes your Western ID and step-by-step instructions on how to access your Western Student Center.

**What’s in the Student Center Account?**
- Your To-Do list, where we’ll ask for additional documentation if we need it
- The status of your application
- Your admission decision once it’s made

Check your Student Center often to make sure we have everything we need to evaluate your application. Be sure to prepare and submit any supplementary information and required test results by the deadline. Check your To-Do list frequently and note the deadlines on page 56.

**Submit your grades**
- Applicants currently enrolled full-time in an Ontario secondary school and who have applied using the 109 application form will have their grades automatically submitted by their secondary school.
- Some applicants may be able to either self-report their grades, have their school submit predicted scores electronically, or upload copies of their transcripts. If this is a possibility for you, this information will be included in your ‘To Do’ list on your Western Student Center. The submission of an official final transcript will be required for any final grades achieved.

If a secondary school course has been taken more than once, the highest reported successful grade will be used for admission purposes for applicants applying from secondary school.

College and university transfer applicants from within Ontario are able to request electronic copies of their official transcripts when completing the online application through OUAC. Please watch for the prompts and note the timelines for sending transcripts carefully.

All other applicants are responsible for ensuring that their school submits official transcripts as soon as grades become available.

**Submit Supplemental Documentation**
- Prepare and submit any supplementary forms and required test results; make arrangements for auditions, portfolios, English proficiency tests or SAT, etc. required by the Admissions Office.
- Refer to your ‘To Do’ list or contact Admissions if you are unsure what supplemental information is required. Be sure to meet all deadlines!

**Where to send transcripts?**
- Please send official transcripts to:
  - Western University
  - Undergraduate Admissions
  - Western Student Services Building
  - London, ON, Canada N6A 3C7
  - 519.661.2100 (for courier)

To be official, the transcript must be in a sealed envelope and sent directly from the issuing institution to Undergraduate Admissions.

67
LONDON, ONTARIO
YOUR NEW HOME

 afforded housing
The apartment vacancy rate in London is higher than the provincial rate. Rental prices are lower than many other cities in Ontario.

Easy transportation
Use a London Transit Bus Pass to get around the city—it’s included in your tuition fees! When it’s time to travel, fly out of London International Airport (YXU), board a Greyhound Bus or hop on a Via Rail train.

It’s your city
10% of London’s 383,000 people are Western students. Western students get discounts on groceries, restaurants, entertainment, travel, retail, tech, and more!

You’ll never be bored

London is easily accessible by car, bus, train or plane.

What’s the weather like?

Spring
5 to 15˚C

Summer
20 to 35˚C

Fall
5 to 15˚C

Winter
-15 to -5˚C

Where is London, Ontario?
Located in the centre of southwestern Ontario, London is approximately two hours driving distance from Toronto and Detroit, Michigan.
LIVE THE REZLIFE

WHY REZLIFE?

Enjoy healthy eating
Flexible meal plans for use in residence dining halls, on-campus eateries and a selection of home delivery and dine out locations in London.

Chefs prepare a wide selection of food in-house, so there’s always something new to try. You can work with our Nutrition Manager for assistance in making healthy food choices. Allergies? Dietary restrictions? No problem. Our packaging is labeled and nutritional content is available online for our menu items. Vegetarian, vegan, gluten-free and nut-free options are offered daily.

Get an academic edge
Studies have shown students who live in residence do better academically than their off-campus peers.†

Stay in one of our Living Learning Communities, to create a seamless experience between the academic and home environments.

Connect with your Academic and Leadership Programmer (ALP) for academic coaching, resources, programming, exam review sessions, study-skill workshops or to simply form study groups.

Become a student leader
Get involved in academic, social, cultural and recreational activities.

Join Residents’ Council or become a Residence Staff member or Residence Soph.

Rest easy with our focus on safety
Access to our buildings is restricted 24/7 by a locked door controlled by card access.

Front Desk Staff are always just a phone call away.

Residence Staff Members live on each floor and are on-call during evenings and weekends.

Live in well-maintained spaces to call home
Continual upgrades and renovations ensure you enjoy high-quality, well-equipped accommodations.

Common areas and shared washrooms on your floor and throughout your building are cleaned every day.

Regular room cleaning is also provided.

Create memories to last a lifetime
Meet new people and make lifelong friendships!

†Source: Office of Institutional Planning & Budgeting, Western University, internal data 2002-2017.

*All rates cover the eight-month academic year (September 2018 to April 2019), and are subject to change upon approval by Western’s Senate and Board of Governors. In our traditional and hybrid-style residences, most first-year students are assigned double rooms. **Upper-year residence for second-, third- and fourth-year students. ***Meal Plan rates are made up of overhead (non-refundable) and total food credit (refundable). All residents are required to purchase a mandatory meal plan (except those placed in Alumni House and London Hall).

Residence

Every First-Year Building Features

Traditional-Style

Double Room $2,090 Single Room $2,095
Available in Delaware Hall, Medway-Sydenham Hall, and Saugeen-Maitland Hall.

Suite-Style

Elgin Hall & Essex Hall $2,795
Alumni House** $2,790
London Hall** $2,970

Hybrid-Style

Double Room $2,690 Single Room $2,980
Available in Ontario Hall and Perth Hall.

THINKING ABOUT MONEY?
HERE’S THE LOWDOWN

registrar.uwo.ca/student_finances | contact@uwo.ca | 519.661.2100

We can help.

Scholarships

Scholarships are based on merit and come in all shapes and sizes. Here are a few of your options.

Learn about the options below and more online: registrar.uwo.ca/scholarships

Admission Scholarships

$1,000 - $10,000

- No application needed
- Awarded based on your final high school admission average as calculated by Western
- Available to Canadian citizens, permanent residents, and international students

If your final high school admission average is equal to or greater than 88 per cent and you meet Western Main Campus’ eligibility requirements, you are eligible. The higher your average, the higher the scholarship.

88% → $1,000 for one year
90% → $2,000 for one year
95% → $10,000 ($2,500 per year)

National Scholarship Program

$30,000 - $65,000

- Requires an application, a nomination from your high school, and an essay
- Deadline to apply is February 14
- Must have a 90 per cent average to apply
- Awarded based on outstanding academics, passion for learning and extracurricular achievements
- With the exception of the International President’s Entrance Scholarship, only Canadian citizens or permanent residents are eligible to apply

Schulich Leader Scholarships

$80,000 - $100,000

- Requires an application and nomination from your school
- For students in STEM: Science, Technology, Engineering, and Mathematics
- Awarded based on academics, leadership, and an entrepreneurial focus
- Only Canadian citizens or permanent residents are eligible to apply

schulichleaders.com

Bursaries

Bursaries are based on financial need and can be valued at up to $4,000. The online application is available through Student Center for Canadian citizens and permanent residents.

Admission Bursaries

- Deadline to apply is mid-July
- Available for incoming first-year students coming from high school

In-course Bursaries

- Application is available in mid-August
- Available to incoming and returning students

Read more information online: registrar.uwo.ca/bursaries

Work Study

Why not get experience while making ends meet? There are over 2,000 employment opportunities right on campus! Who knows? You could be the person writing these words next year.

- Requires an application
- Typically not awarded to first-year students
- Eligibility is based on financial need
- Only Canadian citizens and permanent residents are eligible

Read more about your options online: registrar.uwo.ca/workstudy

Government Assistance

Ontario Students

Apply for OSAP. The Ontario Student Assistance Program is your first source of funding to consider for university. The application is free and you can get an estimate of how much support you’ll receive.

ontario.ca/osap

Outside Ontario?

Canadian students outside Ontario: You can get funding from your own provincial Ministry of Education. Learn about the process in your province online.

registrar.uwo.ca/ooploans

Let’s start with costs.

Check out the breakdown of these costs online: registrar.uwo.ca/feeschedules

TUITION FEES, BOOKS AND SUPPLIES PER YEAR

Canadian: $9,800 - $16,800 (depending on your program)
International: $32,400 - $40,600 (depending on your program)

LIVING COSTS AWAY FROM HOME

$13,500 - $19,000 (depending on your choice of residence or off-campus living)

LIVING COSTS AT HOME

$4,400

All costs and fees are estimates and are based on the 8-month academic year.

Canadian Students in Ontario

Calculate your own costs using the Financial Resource Workbook.
financialresourceworkbook.uwo.ca

There’s more!

There are scholarships and awards specific to your faculty, so be sure to do your research. Use the Award Search at studentservices.uwo.ca/awardssearch to see what scholarships are available at Western.

And remember, you can apply to scholarships from anywhere! Expand your search to local community organizations, businesses, or nation-wide scholarship websites.

Increase your knowledge, skills and career readiness.

Collaborate in meaningful ways with communities.

At Western, there’s more than one way to apply what you learn in the classroom to the real world. Check with your faculty or The Student Success Centre to see the many options available.

Connect with communities near and far

Community Engaged Learning (CEL)
Work on a project with a non-profit organization in the London community to advance their mission and your learning.
cel.uwo.ca

Alternative Spring Break (ASB)
Take part in a week-long community development experience in a local, national or global community — from empowering youth in London, to exploring Ecuador’s quest for food sovereignty and land reform.
asb.uwo.ca

Western Heads East
Contribute to health and sustainable development in Africa.
westerneast.uwo.ca

Volunteering
Want to lead or be part of a team? Do it while helping others through the Western Serves Network.
westernserves.uwo.ca

Learn to work, work to learn

Internship and Co-op
Test drive your degree and add to your resumé through short- or long-term work experiences.
internship.uwo.ca

Practicum
Get a head start on completing the hours you need for a professional license or certification in your field.
practicum.uwo.ca

Job Shadow
Test drive a specific job or work environment to see if it is a good fit for your skills, interests and career plans.
jobshadow.uwo.ca

Work Study
Begin gaining work experience right on campus, with an employer that prioritizes your studies and offers a flexible work schedule.
workstudy.uwo.ca

Bringing your learning to life

Field Experience
Leave the classroom and gather data or participate in other types of hands-on learning activities.
fieldexperience.uwo.ca

Research or Industry Projects
Tackle a big question or challenge by working with a company, or through your own research.
research.uwo.ca

Entrepreneurship
You don’t need to wait until graduation to create your own product or business. Start right away with Western Entrepreneurship.
entrepreneurship.uwo.ca
The world is your classroom

Learn without borders

• Develop intercultural skills
• Learn a new language
• Apply your learning in a new setting
• Become a global citizen

Integrate international experience into your studies

• Study for a semester or full year abroad
• Experience history and culture first-hand through faculty-led courses overseas
• Intern at a multi-national company or non-profit organization
• Participate in a summer study abroad opportunity
• Volunteer with an international Community Engaged Learning Program
• Conduct research at an international institution

Gain the experience employers are looking for

By participating in Western’s Global and Intercultural Engagement Honor, evidence of your international learning experience will appear on your transcript upon graduation. In this voluntary program, you accumulate points by engaging in academic and extracurricular activities with a global or intercultural focus, at home or abroad.

Start planning your international experience now:
goabroad.uwo.ca

Meet Andrea

BA’17, Faculty of Social Science, current Master’s student in Women’s Studies

Andrea recently completed an international internship working with a community partner in East Africa. “Going on a Western Heads East internship to Mwanza, Tanzania was a key experience that has shaped who I am. I collaborated with incredible people and gained skills that allowed me to apply what I’ve learned in the classroom, all while working towards a cause I believe in. Engaging in intercultural learning during my experience in Tanzania and while at Western allowed me to achieve the Global and Intercultural Engagement Honor. Pursuing the Honor gave me a more holistic view of international learning, and as a graduate of International Relations, internationalizing my degree helped me gain perspective and adaptable skills that I’ll have moving forward.”
Let’s Play

Intercollegiate Athletics
Ontario University Athletics
(OUA) and U SPORTS
westernmustangs.ca
mustangs@uwo.ca

@westernmustangs

Varsity Teams & Varsity Clubs
Our varsity teams compete at the highest athletic levels, and they are academic all-stars too! Playing in a varsity team or club requires tryouts. Be sure to contact the coach for your sport as early as possible.

Intramural Sports
More than 15,000 Mustangs participate in intramural sports each year – no tryouts necessary! You can play at different levels:
- Rec. – for fun, fitness and socializing
- Comp. – for a competitive experience
- Super Comp. – for a highly skilled and competitive experience

Recreational Clubs
Have an interest in a sport or activity? Enjoy it with others that share that interest with you! In a recreational sports club, how hard and how frequently you play is up to you.

See the sports you can play and at what level on the next page. Note: Intramural and Sport Club offerings may vary per semester.

2017-2018 STATS
Ranked #3 among all U SPORTS
EIGHT Provincial Championship Titles: Women’s Rowing, Men’s Golf, Softball, Women’s Tennis, Men’s Squash, Women’s Lacrosse, Women’s Hockey, Football
SEVEN National Championship Titles: Women’s Rowing, Men’s Tennis, Cheerleading (Large Co-Ed), Cheerleading (All-Girl), Softball, Men’s Lacrosse, Football
PROUD TRADITION OF ATHLETIC EXCELLENCE
Western has won 35 consecutive OUA Men’s Squash Championships

Choose your sport. Choose your level.

WORK HARD
PLAY HARD

Join a club and keep your passions alive while you study at Western.

westernusc.ca/clubs

ATTEND EVENTS
USC Clubs also showcase a variety of programming. Whether it be club socials, activism campaigns, out-of-province trips, or fashion shows, you’re sure to find what’s right for you!

EXPLORE YOUR OPTIONS
The easiest way to get involved is during Clubs Week. All of our clubs will be in one place at one time (early September) so you can learn more about what each club has to offer.

SOMETHING FOR EVERYONE
We have close to 200 University Students’ Council (USC) clubs for you to choose from including community volunteering and philanthropy clubs, to political, cultural and musical clubs. If you have a passion, we have a club for you.

TAKE ON A LEADERSHIP ROLE
Get involved as a club member, or join a club executive team, to gain interpersonal and professional skills by organizing and planning different activities for your club.

KICKSTART YOUR CAREER WITH WESTERN ENTREPRENEURSHIP
uwo.ca/entrepreneurship

GET CONNECTED
Work with other future entrepreneurs in our co-working space. Network with professionals during our workshops and events. Access world-class mentors who can help you build pathways to success.

PROPEL YOUR IDEAS
Take your ideas to the next level with knowledge from our foundational programs and strength of the Ivey Business School. Get ready to innovate, create and test your prototypes through centres such as Propel Entrepreneurship and Western Accelerator.

ACCELERATE YOUR SUCCESS
Advance your ideas outside the traditional classroom. Participate in hackathons, startup summits, workshops, bootcamps, networking events, pitch competitions and more. Let’s make your ideas a reality!

Engineering student bats in entrepreneurship game

Third-year Western Engineering student Mitchell Godkin is hoping to hit a homerun with his latest entrepreneurial endeavour, Leadbury Bat Co., a premium baseball bat manufacturing company. Using technical knowledge he gained during an engineering co-op at Nostalgic Wood, and then conducting some testing in the General Dynamics Lab at Western Engineering, Mitchell has designed a bat that has 20 per cent more strength and 30 per cent more flex than standard baseball bats.
WITH YOU EVERY STEP OF THE WAY

Student Support Services

WITH YOU EVERY STEP OF THE WAY

welcome.uwo.ca/student_experience/services.html

1) Support to get you here.

Summer Academic Orientation (SAO)
Register for first-year courses with help from faculty and staff.

2) Support while you are here.

ACADEMIC SUPPORT SERVICES
Student Accessibility Services: Meet with a counsellor to explore arrangements the University can make to accommodate your needs.
Writing Support Centre: Free one-to-one writing support sessions, writing seminars and drop-in services.
Learning Skills Services: Achieve your academic goals by gaining skills to learn and study more effectively.

LEADERSHIP & MENTORING PROGRAMS AND SERVICES
Leadership Education Program (LEP): Workshops on topics such as career management, communications, conflict management, and diversity.
Leadership and Academic Mentorship Program (LAMP): Partner with an upper-year peer mentor from your Faculty or program.
International Peer Connection: Connect with a Peer Guide for help transitioning to life at Western.

TRANSITION PROGRAMS AND SERVICES
English Conversation Program (for international and exchange students): Improve your English communication skills, meet new people, gain confidence when speaking in a group and learn more about Canadian culture and life at Western.
Academic and Transitional Programming for Indigenous Students: Intensive academic, cultural and personal supports on your education journey.
Society of Off-Campus Students (SOCS): Community for first-year students living off-campus, including access to resources, events, and activities.
Out of Province Student Association (OPSA): Mentoring and ongoing support for students from provinces that are outside Ontario.

WELLNESS
Psychological Services: Professional, confidential psychological services free of charge to all Western students.

3) Support to help you create a meaningful future.

Career Planning Services
A career is more than just a job. Career planning takes careful self-reflection and research. See page 85 to learn how Western helps set you up for life-long career success.
Career, Grad and Job Fairs
Meet potential employers and learn about grad school opportunities at these free events open to all students.

THE STUDENT SUCCESS CENTRE
Find academic and career support, opportunities to lead, and experiences outside the classroom.
success.uwo.ca

INDIGENOUS SERVICES
Find encouragement, cultural support, and friendships for your personal and academic growth.
indigenous.uwo.ca

INTERNATIONAL AND EXCHANGE STUDENT CENTRE
Get help with immigration regulations, financial, cultural, career and personal issues.
iesc.uwo.ca

WELLNESS EDUCATION CENTRE
Ask us anything! Connect with all types of wellness resources in a supportive, welcoming environment.
wec.uwo.ca
Career paths are not always linear. In an ever-changing world, you have to be prepared for jobs that don’t even exist yet. The first step to career planning is self-reflection. Focus on aligning your skills with your passions. We can help you with the rest.

Support from the Student Success Centre

- Individual career counselling and career assessments
- Presentations and workshops targeted toward finding a career path and conducting a strategic job search
- Networking events and fairs (career, education, and job) where we bring recruiters to campus to meet you
- CareerCentral – an online portal for event registration, internship and job postings, and experiential opportunities
- Western’s Employment Resource Centre (WERC) – a drop-in and e-consulting service to help you with resumes, cover letters, CVs and LinkedIn profiles. Peer mock interviews are also available by appointment.

CAREER PLANNING STARTS NOW

Make your passions your career

Do you want to cure cancer? Fight for equal rights? Save the earth? No matter where you start or what you study, you can make your passions your career.

What world problem will YOU solve?

Make your passions your career

Life at Western is exciting and rewarding. It can also be demanding. Staying healthy – physically and mentally – will help you achieve your academic goals. We are committed to helping you stay fit, healthy and happy at Western.

Health and Wellness Services

Health and Wellness support services have always been available on campus but we are now making things easier for you to find in just one location. Renovations are currently underway for a new Health and Wellness Centre that will act as a single point of entry for you to access all health and wellness services on campus. The Centre will include a full range of physical and mental health supports.

Wellness Education Centre (WEC)
The WEC provides wellness education on a variety of topics, as well as providing all Western students with personalized assistance navigating mental health and other wellness resources.

Student Health Services

Student Health Services provides medical, psychiatry and counselling services year-round. The office functions in the same capacity as your family doctor or general practitioner. The services are accessed by appointment and require a valid provincial health card or UHIP for international students.

Psychological Services

Psychological Services provides professional and confidential services, free of charge, to students needing assistance to meet their personal, social and academic goals. Services include consultation, referral, groups and workshops, as well as brief, change-oriented psychotherapy.

Other Health Services on Campus

- Chiropractic Care
- Dental Clinics
- Fowler Kennedy Sport Medicine Clinic
- Massage Therapy
- Optician
- Optometry
- Pharmacy
- Physiotherapy
- Podiatry
- Physiotherapy

Campus Recreation

Stay active as a student. A membership to our state-of-the-art recreation facility is included in your student activity fees. With a membership, you have access to:

- Aquatic facilities (aquafitness, fitness, and recreation swims)
- Drop-in gym activities*
- Drop-in table tennis
- Fitness classes
- Fitness Centre
- 20,000 sq. ft. of cardio and weightlifting equipment
- Olympic-sized pool
- Squash/racquetball courts

Stay safe on campus

Western is patrolled every day by professionally trained special constables. Our Campus Community Police Service is backed with the same authority as the city police. We also have a 24-hour Student Emergency Response Team to assist with medical emergencies on campus and a free Foot Patrol service to walk with you for your bus, walk you to your car or escort you to residence after hours.

*There is a small fee associated with these activities.
FALL IN LOVE
WITH WESTERN

Just one step on our campus. That’s all it takes.

Situated along the banks of the Thames River, you will instantly fall in love with our gothic architecture and ivy-covered buildings. Our endless scenic locations will provide you with breathtaking views as you study, stroll through campus or chat with friends.

Come see for yourself.
Join us for an open house or campus tour.
